Office of the Governor
207 State Capitol, Springfield, Illinois 62706

February 22, 2012

To the Honorable Members of the General Assembly and the People of the State of Illinois:

I respectfully submit to you the fiscal year 2013 Operating Budget, a \$24.3 billion general funds plan designed to help "Move Illinois Forward." In this budget we demonstrate spending restraints, revenue growth and a continued commitment to invest in education while fully paying the statutorily required pension contribution. We also lay out a plan designed to provide streamlined, efficient state government through Budgeting for Results, as we continue to foster economic growth and develop the jobs of today and tomorrow.

Due to Illinois' long history of fiscal mismanagement, a situation compounded by the recent national recession, the coming years will bring significant fiscal challenges, particularly in the areas of pension and Medicaid. Let us work together—legislators, interest groups and individuals—to pursue major initiatives that will allow the state to pay its bills, stabilize pensions and restructure Medicaid in order to return our state to sound financial footing.

By working together, we have already achieved pension, Medicaid, education, unemployment insurance and workers' compensation reforms, which are changing the way government and business services are administered, and saving businesses and taxpayers billions of dollars. We owe it to the next generation to continue our progress of the past three years to achieve even greater reforms and savings.

The Illinois Jobs Agenda for 2012 I have proposed includes three targeted tax cuts that will build and grow our economy by helping employers, working families and our veterans. We have already passed a new law to increase tax relief for working families. Senate Bill 400 doubles the state's Earned Income Tax Credit (EITC) over two years, saving low-income workers an extra \$105 million per year. This session, I urge legislators to abolish the natural gas utility tax, establish a child tax credit for parents raising children and enact a hiring veterans' tax credit to encourage employment of the men and women who have served our state and our country.

In times like these, accountability and responsibility are critical. We must continue to tighten our belts in all areas of state government. Since taking office, I have significantly reduced discretionary spending more than any governor in the past two decades. Between fiscal year 2008 and fiscal year 2012, spending by state agencies has declined 4 percent, from \$25.3 billion in fiscal year 2008, to \$24.3 billion in fiscal year 2012. We have also reduced headcount by 2,000 producing \$200 million in annual savings. Due to this reduction, Illinois now has the lowest per-capita to state employee ratio in the nation. These spending reductions, while still continuing to invest in education and healthcare, are unprecedented in Illinois.

In Illinois, we are competing in a global marketplace by taking the necessary steps to strengthen our economy, attract new investment and put more people to work. Illinois added 52,600 jobs in 2011 and 95,900 jobs since January 2010 when job growth returned to Illinois after 23 consecutive months of declines. While this is a step in the right direction, too many Illinois men and women are still looking for work. My promise to you is that I will continue investing in job creation programs and initiatives that will improve Illinois' business productivity and competitiveness to help everyone find a J-O-B.

The task before us will not be easy, but I am confident we have the right plan of continued reforms, necessary investments and cost reductions to overcome our challenges. As we move forward to build a more prosperous and dynamic economy, let us come together to make this Land of Lincoln proud and continue to get *Illinois Moving Forward* toward an even brighter future.

Sincerely,

A handwritten signature in cursive script that reads "Pat Quinn".

Pat Quinn
Governor, State of Illinois

Fiscal Year 2013 Illinois State Budget Reader's Guide

State of Illinois

A READER'S GUIDE TO THE FISCAL YEAR 2013 ILLINOIS STATE BUDGET

INTRODUCTION

The Illinois budget process is driven by state constitutional and statutory requirements, a wide array of general guidelines and technical considerations. This Reader's Guide is designed to help readers understand the structure and content of the operating budget. It includes the following sections:

- A description of the budget documents
- An explanation of how the fiscal year 2013 budget document is organized
- An organization chart of state government
- An explanation of the basis of budgeting
- A guide to reading and understanding agency budget submissions, including narratives and budget tables
- A description of the various fund types in the Illinois accounting system

BUDGET OPERATIONS

This document presents the *Fiscal Year 2013 Illinois State Budget*. It sets forth the governor's operating budget recommendations for the period July 1, 2012 through June 30, 2013.

The state's operating and capital budgets are subject to the same procedures. However, the *Fiscal Year 2013 State of Illinois Capital Budget* is presented in a separate document for the reader's convenience. Both documents are available at www.state.il.us/budget or www.budget.illinois.gov.

BUDGET DOCUMENT ORGANIZATION

The *Fiscal Year 2013 Illinois State Budget* is organized as follows:

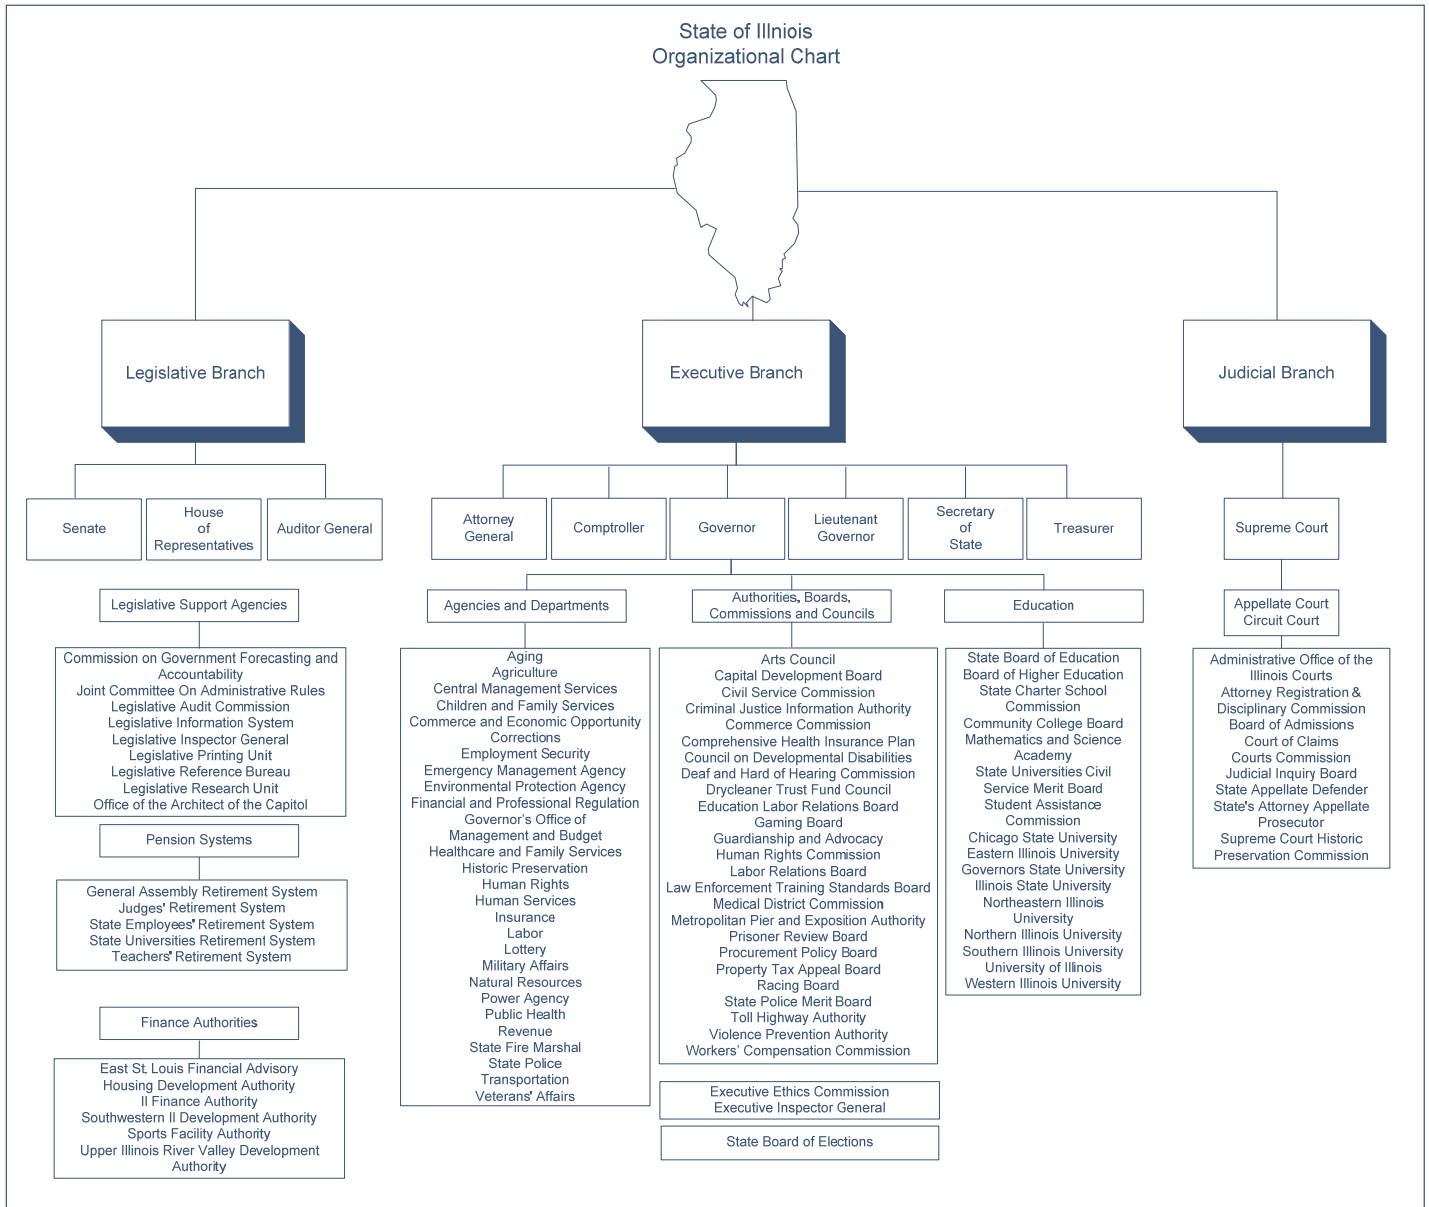

- **The Governor's Letter of Transmittal** to the General Assembly and the residents of Illinois.
- **Table of Contents.**
- **Chapter 1: The Reader's Guide.**
- **Chapter 2: The Budget Summary** of the state's current fiscal plan. This chapter presents the governor's budget priorities and key recommendations. It highlights key financial

issues and includes several tables that summarize appropriations, expenditures, revenues and funds. It also describes the ongoing budget reform initiative and presents the fiscal year 2013 budget categorized by state outcomes. Chapter 2 concludes with the following *Summary Tables*:

- Table 1-A: Appropriations by Agency
- Budget Table by Outcomes and Goals
- Table 1-B: Supplemental Appropriations for Fiscal Year 2012
- Table II-A: Appropriated Revenues by Source
- Table II-B: General Funds Revenue by Source
- Table II-C: General Funds Revenue - Modified Accrual Basis
- Table II-D: General Funds Expenditures - Modified Accrual Basis
- Table III-A: Road Fund
- Table III-B: Motor Fuel Tax Fund - State Funds
- Table IV-A: Appropriated Operating Funds by Fund Group for Fiscal Year 2013. This is a presentation of the projected operating cash flow for each fund group
- Table IV-B: Appropriated Operating Funds by Fund for Fiscal Year 2013. This table presents the fund balance for each fund in the Illinois accounting system. The end of year cash balance is equal to the beginning of year cash balance, plus receipts, minus disbursements
- **Chapter 3: Illinois' Economic Outlook and Revenue Forecast.** This chapter describes Illinois' economy within the context of the national economy. Details are also provided on revenue sources and revenue forecasting methodology used by the state.
- **Chapter 4: A report on the state's Public Retirement Systems.**
- **Chapter 5: Agency Budget Detail.** Covers the budget recommendations for each agency and other branches of government, including elected officials. The agencies are grouped by Table I-A order.
- **Chapter 6: The Debt Management** report describes the state's debt affordability model, borrowing activities and financing schedule.
- **Chapter 7: Demographic Information** on the Illinois population
- **Chapter 8: A Glossary** of special terms.

Fiscal Year 2013 Illinois State Budget Reader's Guide

State of Illinois

Adapted from the Fiscal Year 2003 Illinois Comptroller Comprehensive Annual Financial Report - modified February 2012

Fiscal Year 2013 Illinois State Budget Reader's Guide

State of Illinois

BASIS OF BUDGETING

The Illinois Constitution requires the governor to prepare and submit a state budget to the General Assembly for the upcoming fiscal year. The budget sets forth the estimated balance of funds available for appropriation at the beginning of the fiscal year, the estimated receipts, and a plan for expenditures during the fiscal year. The Illinois Constitution requires the governor to submit a balanced budget.

PA 90-479, enacted in 1999, amended the Civil Administrative Code (state budget law) to provide guidance to the governor on balanced budget requirements as he proposes the budget, and to the General Assembly as it makes appropriations. Public Act 90-479 applies only to six funds, defined as budgeted funds: general revenue, common school, education assistance, road, motor fuel tax and agricultural premium.

For the budgeted funds, revenue estimates include the beginning fund balance, revenues to be received during the budgeted year and revenues to be collected in the two-month lapse period following the budgeted year.

Public Act 90-479 also requires the use of the "modified accrual" basis of budgeting. Revenues are accounted for in the year they are due, not when they are received. However, the amounts due to the state in one fiscal year, but actually received in the following fiscal year, are typically small and consistent over time, and are due to the normal payment cycles set forth in law. For instance, final monthly sales tax payments are due the state on the 20th day of the month following the sale. Consequently, final sales tax payments for June sales are received in July, the first month of the ensuing fiscal year.

Likewise, revenue estimates include only those revenues due to the state during the fiscal year, July 1 through June 30. They do not include revenues collected in the lapse period of the budgeted fiscal year (through August 31), which were due to the state as of June 30 of that year.

Revenue estimates also include federal reimbursements pursuant to Section 25 of the State Finance Act. The main Section 25

programs are Medicaid and employee health insurance.

Expenditure estimates for budgeted funds take into account the costs to be incurred in the budgeted fiscal year, including those to be paid from future fiscal year appropriations. Expenditure estimates in Table II-D do not include costs paid in the budgeted fiscal year that were incurred in the prior fiscal year.

Of the budgeted funds, only the General Revenue Fund has expenditures pursuant to Section 25 of the State Finance Act. Thus, expenditure estimates for the other funds are unaffected by PA 90-479.

Revenue and expenditure estimates also include transfers between funds that are based on revenues received or costs incurred during the budgeted year.

All other funds must be balanced so that proposed expenditures and appropriations do not exceed funds estimated to be available.

A GUIDE TO UNDERSTANDING AGENCY BUDGET SUBMISSIONS

The budget recommendations of the *Fiscal Year 2013 Illinois State Budget* include a narrative of each agency's operations and summary tables of its budget.

AGENCY NARRATIVE

The narrative for each agency includes the following sections:

- **About the Agency:** Provides the agency address, phone number and a link to the agency web page.
- **Agency Summary of Operations:** A brief description of agency operations.
- **Agency Resources Employed:** A table summarizing funding sources, recommended appropriations and two-year history of actual appropriations. Also included is a two-year headcount history and target headcount for the next year.
- **Resources by Goal:** A table showing the goals to which the agency contributes. A complete presentation of appropriations by goal is found in Chapter 5.

Fiscal Year 2013 Illinois State Budget Reader's Guide

State of Illinois

- **Programs:** A summary table of resources allocated to each program within the agency.
- **Performance Measures:** A table that captures the agency's progress in key areas that relate to meeting its outcome(s). Emphasis is placed on results that impact the public.

AGENCY BUDGET TABLES

The budget tables provide summary detail on each agency's budget. The budget tables list each agency's appropriations and expenditures by major fund group, by fund and by division, as well as the agency's headcount by division. Personnel detail forms, which list the agency's staff by division and position title, are available in a separate volume. Note that tables may not add due to rounding.

Appropriations by Major Fund Group

- The appropriations recommendations requiring General Assembly action are shown by type of expenditure for each of three major fund groups: general funds, other state funds and federal funds.
- Within each fund group, the appropriations and expenditures are further subdivided into major categories such as personal services and fringe benefits, contractual services, other operations and refunds, designated purposes, and grants. Each appropriation for designated purposes and grants is listed individually.

Appropriations by Fund

- The agency's resources are shown in total for each fund requiring appropriations by the General Assembly.

Appropriations by Division

- The agency's new appropriations and reappropriations requiring General Assembly action are shown by division, as classified by the comptroller.

Headcount by Division

- The agency's headcount, by division, is presented showing actual headcount at the end of fiscal year 2011, estimated headcount for fiscal year 2012, and target headcount for fiscal year 2013.

Column Descriptions

- The fiscal year 2011 appropriations column reports all original and supplemental appropriations and reappropriations enacted by the General Assembly and signed into law by the governor for fiscal year 2011. The amounts also reflect approved 2 percent transfers and executive orders issued by the governor.
- Fiscal year 2011 expenditures include those incurred from July 1, 2010, through June 30, 2011, and received during the two-month lapse period ending August 31, 2011. During the lapse period, outstanding fiscal year 2011 remaining state obligations were liquidated. Due to a large backlog of payments owed to service providers and vendors, an Act of the General Assembly, signed by the governor, extended the lapse period through December 31, 2011, for payment of vouchers only. This was done in order to provide time to pay as many of the bills incurred in fiscal year 2011 as possible.
- Fiscal year 2012 appropriations reflect all original and supplemental appropriations for fiscal year 2012, through January 31, 2012, enacted by the General Assembly and signed by the governor. This column also reports changes due to approved 2 percent transfers and executive orders issued by the governor.
- Fiscal year 2012 estimated expenditures reflect the expenditures projected to be incurred through the fiscal year, including the lapse period, and also account for anticipated 2 percent transfers. These expenditures do not include the requested fiscal year 2012 supplemental appropriations shown in Table I-B.
- Fiscal year 2013 appropriations show the recommended budget, or in the case of other elected officials or legislative/judicial branches of government, the requested budget.

An example of the Budget Table follows.

Fiscal Year 2013 Illinois State Budget Reader's Guide

State of Illinois

Appropriations Requiring General Assembly Action (\$ thousands)	Fiscal Year 2011		Fiscal Year 2012		Fiscal Year 2013
	Enacted Appropriation	Actual Expenditure	Enacted Appropriation	Estimated Expenditure	Recommended Appropriation

Appropriation recommended by the governor

Fiscal Year 2013 Illinois State Budget Reader's Guide

State of Illinois

DESCRIPTION OF FUNDS

- The funds in the Illinois accounting system are classified into two broad categories: appropriated and non-appropriated funds.
- Appropriated funds are further classified into eight fund groups: general, highway, special state, bond financed, debt service, federal trust, revolving and state trust funds.

- Non-Appropriated funds are composed primarily of federal and state trust funds, and include a few special state funds.

The following chart describes the major appropriated fund types, as well as the sources and uses of those funds.

STATE OF ILLINOIS MAJOR FUND GROUP

Fund Group	Sources	Purposes/Uses
General Funds	State income taxes, sales taxes, other taxes and fees	Support the regular operating and administrative expenses of most state agencies. Include General Revenue Fund, Education Assistance Fund, Common School Fund and General Revenue-Common School Special Account Fund.
Highway Funds	Motor fuel taxes, vehicle registrations, licenses and fees	Receive and distribute special assessments related to transportation. Support transportation-related activities at the state and local levels.
Special State Funds	Taxes and fees	Represent accounts restricted to the revenues and expenditures of a specific source. Support such diverse activities as medical assistance, children's services, environmental cleanup, financial regulation and health insurance. They are designated in Section 5 of the State Finance Act (30 ILCS 105/5) as special funds in the State Treasury and not elsewhere classified.
Bond Financed Funds	Build Illinois and General Obligation (GO) bonds	Receive and administer the proceeds of various state bond issues. Pay for capital improvements to local schools, state facilities, higher education facilities; and for development of coal-burning power plants, local water and wastewater treatment facilities, public transportation, airports, environmental programs and economic development projects.
Debt Service Funds	Transfers in from other funds	Account for the resources obtained and accumulated to pay interest and principal on debt obligations. Provide for debt service payments on state bonds.
Federal Trust Funds	Federal grants	Support grants and contracts between state agencies and the federal government. Administered for specific purposes established by terms of grants and contracts. Support a variety of programs including education, healthcare, human services, community development, transportation and energy.
Revolving Funds	Repayments on project loans	Finance the operations of state agencies that render services to other state agencies on a cost reimbursement basis; support local capital projects. Appropriation of these funds depends upon intra-governmental service requirements and appropriation of other state agencies.
State Trust Funds	Various	Hold funds on behalf of other entities or individuals (such as pensions). Established by statute, or under statutory authority, for specific purposes.

BUDGET SUMMARY

Fiscal Year 2013: Fiscal Overview And Budget Summary

State of Illinois

IT DOESN'T GET ANY EASIER

Since Governor Pat Quinn took office, the term “budget crisis” has become cliché. Yet its import should not be diminished. Each year, the state has faced seemingly insurmountable hurdles. Additionally, the nation persists in its protracted emergence from the recession, with unemployment unacceptably high.

Despite these challenges, Illinois continues to strengthen its foundation by progressing towards budget stability and continuing to grow the economy, two factors dependent on each other and crucial for the long-term health of the Land of Lincoln. Over the past three years, both political parties in Illinois have consistently worked together and achieved meaningful reform of pensions, Medicaid, education, unemployment insurance and workers’ compensation. These reforms are changing the way government and business services are administered and saving businesses and taxpayers billions of dollars. Continued bipartisan agreement will be necessary to move forward and achieve even greater reforms and savings.

MOVING ILLINOIS FORWARD

Illinois government cannot be satisfied with merely balancing its own books; it must also focus on the strength of its companies, schools and residents. Illinois must strive to be a state where businesses prosper, families raise educated and healthy children, and government is a valuable resource, not an obstacle or a source of embarrassment. Pat Quinn has returned integrity to the Office of the Governor, and numerous reforms are addressing the weaknesses in public, private and education sectors. Budget stability and a growing economy are keys to strengthening Illinois for the long-term.

Fiscal Stability

State government must continue to rightsize its budgets and workforce to live within available resources, while working within its fiscal ability to protect areas of need and fund its priorities. Despite decreased resources for agency spending due to modest revenue growth, which is squeezed by a greater increase in pension and Medicaid expenses, Governor Quinn continues to prioritize education. While most areas of spending in fiscal year 2013 will experience decreases from fiscal year 2012 levels, Governor Quinn’s fiscal year 2013

budget increases education over fiscal year 2012 levels. This includes increases in spending for early childhood and MAP grants, but the vast majority of increased spending in education is driven by the portion of school district and public university pensions paid by the state when increases in these liabilities are taken into account. From early childhood, to K-12, to community college and universities, Governor Quinn advocates quality education and learning opportunities for all students. This is one of the best ways to promote long-term strength in the state.

Since Pat Quinn has been Governor, the percentage of our population with either a four- or two-year college degree or trade certificate has increased from 41 percent to 43 percent. This increase during the recession has added to our already talented and skilled workforce and made Illinois a leader in job recovery. Achieving our goal of 60 percent of the population holding degrees by 2020 will strengthen our role as a global economic leader.

The governor’s fiscal year 2013 budget holds medical assistance appropriations at fiscal year 2012 levels. However, to meet this funding level, which is far below the increasing costs of the program, Medicaid must face tough cost reductions in the coming year. Most other areas of government are also reduced from fiscal year 2012.

In order to protect fiscal year 2013 and future budgets from drastic imbalance, where even more priorities are crowded out by ballooning mandated costs, the administration’s fiscal year 2013 focus includes:

- **Pension stabilization** – Governor Quinn has convened a pension workgroup that will seek to further stabilize and strengthen the pension system. In 2010, Illinois enacted unprecedented pension changes, which at that time were projected to reduce the actuarial accrued liability by more than \$200 billion by fiscal year 2045. These major reforms, together with paying the statutorily required pension contribution from revenues, have begun to stabilize and strengthen the pension system for both the state and employees. More work is needed as the workgroup continues to analyze benefit structures and consider ways to stabilize funding and align contributions.
- **Medicaid cost containment** — Medicaid costs continue to rise at a rate double that of revenue

Fiscal Year 2013: Fiscal Overview And Budget Summary

State of Illinois

growth. Signed into law in January 2011, bipartisan Medicaid reform legislation is expected to achieve savings of up to \$700 million over five years. Current reform measures include expanding coordinated care in Illinois, improving the efficiency of the prescription drug program, and tightening the integrity of the eligibility process. However, further and larger reductions are needed to stabilize Medicaid costs. In fiscal year 2012, appropriations for Medicaid were nearly \$2 billion less than the actual total fiscal year liability. These healthcare expenses are carried into future fiscal years and increase the state's accumulated deficit. Merely holding the build-up of fiscal year 2012 liability at less than \$2 billion will require at least \$2.7 billion in reductions to liability. The Medicaid Working Group—consisting of the four General Assembly caucus chairs of a Medicaid oversight committee—is examining solutions. The Department of Health and Family Services (HFS) has already presented to the Medicaid Working Group a menu of over \$3 billion in possible changes to achieve this goal. Significant changes in utilization, eligibility and optional services, and rate reductions will need to be implemented this year to prevent this medical program from spiraling out of control.

- **Headcount reductions** — Since January 2009, when Governor Quinn took office, state headcount has decreased by approximately 2,000 employees or 3.68 percent. A headcount decrease of 2,000 produces approximately \$200 million in annual savings. This reduction has come at a time when new mandates for many programs and initiatives have forced an increase in headcount in some agencies. Examples of such expanded headcount include nursing home inspectors at the Department of Public Health (DPH) to implement nursing home reform, and Capital Development Board staff to implement the capital bill. With further operations reductions and facility closures coming in fiscal year 2013, agencies must strive even more to meet such mandates with declining workforces.
- **Facility cost reductions** — The fiscal year 2013 introduced budget includes a number of changes to state-operated facilities. In a move away from supporting institutionalized care and obsolete buildings, and toward modern community-based care, the Department of Human Services (DHS) will close two

developmental disability facilities—Jacksonville and Singer—and two mental health facilities—Tinley Park and Murray. Other state-operated facility changes include closures of the Department of Juvenile Justice youth centers in Murphysboro and Joliet. Services for the youth at these facilities will be provided in their communities. Additionally, the Department of Corrections (DOC) will focus on efficiency of operations by eliminating its most expensive facility per capita, Tamms Correctional Center. In a prison reorganization, the Dwight Correctional Center will also close. DOC Adult Transition Centers will close in Chicago (Crossroads and Westside), Aurora, Peoria, Decatur and Carbondale. Facility consolidations include 24 DHS offices and 13 Illinois State Police telecommunications centers.

- **Rebalancing long-term care** — Changing the focus of long-term care from institutional to community-based services will ensure both better care quality and sustainable programs. This year's introduced budget presents a \$5 billion unified budget for long-term care, including funding of institutional care, community-based care and transition for residents leaving institutions. Allocations by each agency responsible for delivery the respective services will also be displayed. Governor Quinn has instituted an aggressive schedule to rebalance the long-term care system. Ultimately, the use of private institutional care will be limited to clients for whom such care is most necessary.

Ongoing Challenges

Undoubtedly, the fiscal year 2013 budget implementation will bring its share of challenges. Shortfalls of billions of dollars mean a government must change what it does and how it does it. Such changes are difficult and cannot be accomplished overnight, and reducing budgets is not as simple as entering lower numbers into a spreadsheet. In many cases, budget cuts mean real change for real people.

Rightsizing government and government spending is a multi-year challenge that requires cooperation and consensus-building by executive and legislative branches, as well as interest groups and individuals. The federal government is faced with this challenge as well, and we have seen that no one party or one person has all the answers. Continued bipartisan cooperation is necessary to

Fiscal Year 2013: Fiscal Overview And Budget Summary

State of Illinois

address our problems that have been decades in the making.

Why are significant cuts required when we recently had a tax increase? The increased revenue will be consumed by state pension costs of over \$5 billion; debt service in excess of \$1.5 billion on previously issued pension bonds (used to pay pension costs earlier in the recession); and full funding of employee/retiree health insurance, an increase of over \$500 million from previously underfunded amounts. These three items alone will consume the tax increase.

Pension costs continue to rise. Fiscal year 2013's General Revenue Fund contribution of \$5.1 billion is more than \$1 billion higher than fiscal year 2012's. Governor Quinn is committed to making the full statutorily required pension contribution payment, and has done so each year of his administration. After two years of financing this

payment through pension bonds, the payments in fiscal years 2012 and 2013 are being made from existing resources. This contribution will continue to come from existing resources, but as the payment increases each year, resources available for other state spending will be squeezed.

With Medicaid and pension costs eating tax revenues and crowding out so much else, these two issues are at the top of Governor Quinn's priorities list for fiscal year 2013.

Additionally, unpaid bills continue to plague the state. With approximately \$8 billion in unpaid bills (as of January 2012), Governor Quinn is committed to working with legislators for a solution that would provide relief to vendors and services providers, some of whom wait six months for payment.

Fiscal Year 2013: Fiscal Overview And Budget Summary

State of Illinois

BUDGETING FOR RESULTS

The State of Illinois is in the process of implementing a comprehensive Budgeting for Results (BFR) process to change the way it allocates more than \$24 billion in agency spending per year in general revenue spending. Prior to the signing of the BFR law in July 2010, Illinois utilized a traditional, incremental budgeting approach in which the current year's budget served as the baseline for development of the next year's spending proposal. Budgeting for Results is a strategic alternative to incremental budgeting, where resources are allocated based on how effectively a program or service achieves established objectives, rather than historical funding levels.

The purpose of BFR is to implement an outcome-based process in Illinois that incorporates all of the components necessary to achieve funding priorities, assess program performance, inform decision-making and deliver results for the people of Illinois.

The administration's vision is for agencies have the tools they need to collect, track and assess program performance, and where funding, policy and contracting decisions are based on the quality and return on investment of publicly-funded programs.

The people of Illinois deserve the best value for their taxpayer dollars and quality services that deliver the intended outcomes.

Fiscal Year 2012 Achievements and Plan

As indicated in last year's budget book where BFR was introduced, implementation is a multi-year process. For fiscal year 2012, the budget was presented in a different way than in past years, though the differences were subtle. Having identified six outcomes, agencies were aligned with those outcomes (each agency matched with one outcome) and showed appropriations dispersed over the outcomes.

In this fiscal year 2013 budget book, two further steps have been taken toward presenting a results-based budget. First, under each outcome, goals are identified that will contribute to the state achieving each outcome. These goals were developed through conversations with the agencies, as well as the Budgeting for Results Commission. At the suggestion of the commission, a seventh outcome, Healthcare, has been added. The goals serve as a guidepost for establishing more robust performance measures, as well as providing detail and context for each outcome.

The second new step in this fiscal year 2013 budget presentation involves breaking down state agency walls and grouping agency programs under similar goals (each program matched with one goal).

The BFR implementation team has begun building a program inventory. Programs at the agency level are the unit of analysis for BFR, therefore, program identification is vital to successful implementation. Previously, there was no comprehensive list of all programs within state government. Traditional budgeting was based on line items and funds, rather than programs. BFR fundamentally changes this dynamic.

By Spring 2012, GOMB will review a list of programs submitted by each agency to verify they are appropriate and amenable to measurement. A program must be broad enough to capture the tasks that go into producing a result, but not be too vague or encompass too much as to undermine measurement efforts.

In most cases, this fiscal year 2013 book contains the programs historically presented in budget book agency chapters, including many summary programs, rather than programs more focused and amenable to measurement. This presentation of programs as part of their respective goals should be considered transitional, as is the entire BFR presentation, with much more work to come over several fiscal years.

Fiscal Year 2013: Fiscal Overview And Budget Summary

State of Illinois

Focus for Fiscal Year 2013 and beyond

So far, much of the work of BFR, in addition to presenting data in a different manner, has been nuts and bolts—laying the foundation for more substantive work to come. Foundational work will continue in fiscal year 2013.

After the program inventory is completed, the BFR implementation team can prepare programs for evaluation. Evaluating programs and performance against established outcomes and goals is the cornerstone of BFR. While some programs and agencies must report performance measures for federal or other funding streams, many state programs have never been subject to true, results-based measurement. There are several steps the BFR implementation team plans to take in order to help agencies prepare their programs for evaluation, including completing logic models, collecting baseline data and developing metrics.

- **Logic modeling** - Logic modeling is a process of conceptualizing a program and displaying it visually, which allows for better understanding of how a program works. Logic modeling asks basic questions about a program, such as: Who or what is the program intended to impact? What are the immediate intended results of the program activities? What are the outcomes generated from program activity? Logic modeling clarifies the necessary components that allow a program to function, simplifies development of performance measures, and allows decision-makers to easily assess the programs' goals. Logic modeling is a necessary step before identifying outcome measures in the metric development stage of BFR implementation.

Training agency staff on logic models will begin during the spring and summer of calendar year 2012. All agencies will complete a rudimentary logic model of each of their programs by mid-fall of 2012.

- **Data collection** - GOMB is in the process of developing a Performance Reporting System (PRS) to begin collecting the data needed to inform BFR. Current performance reporting solutions lack sufficient analytic capacity and user-friendly interface to meet BFR needs. In

order to move forward, GOMB determined it would need to develop and implement a new reporting solution. The PRS is one step toward that solution.

The new PRS will be completed during the first half of 2012. Agencies can begin reporting their current metrics in fall of 2012. The new PRS is also a precursor to a future public website for reporting on agency performance.

- **Metric development** - State agencies collect a vast amount of data, but current metrics tend to measure outputs (things that happen) rather than outcomes (the results of those things that happen). Under BFR, the state intends to develop program metrics that will measure the impact of programs on achieving their goals.

Through logic models, agencies will have identified the various components that comprise each program, including resources, activities and the various output measures that are currently collected. With that information in hand, GOMB can then work with agency program staff to identify new measures that will more accurately reflect the program's progress toward meeting goals. Consultants with technical expertise in metric development will lead this phase of BFR implementation.

This will be an in-depth, program-specific and resource-intensive process that may take up to two calendar years to complete. However, as new result-oriented performance measures are established, the data collected will be entered into the BFR PRS, where they can be analyzed and used to inform decisions.

Once the foundation for BFR is laid, GOMB can move toward the evaluation and scoring stages. At its core, BFR is a process for evaluating programs against established metrics and goals to ensure that overarching outcomes are being achieved, and using those evaluations to inform funding decisions. This will again be a time- and resource-intensive process and will require experts to build the appropriate tools and train staff. Ongoing performance management and public reporting of performance data are additional key components of fully-implemented BFR.

Budgeting for Results

Laying the Groundwork for the Future

INTRODUCE

FY11/FY12

- Introduce BFR
- Develop goals for each outcome
- Create 7th outcome: healthcare
- Begin program identification
- Present FY13 introduced budget by program

IDENTIFY

- Develop logic models for programs
- Begin using new performance reporting system
- Begin development of outcome metrics

MEASURE

FY13 & Beyond

- Begin collecting outcome data in performance reporting system
- Report outcome data

EVALUATE

- Institute ongoing performance management with all agencies

Goals for FY13+ are dependent on GOMB's ability to engage performance metrics/management experts

Operational challenges

The BFR implementation team is working to implement BFR with existing, limited resources. The fiscal year 2012 and fiscal year 2013 objectives described above rely on some minimal outside help from contractors with experience in the field of metric development, as well as additional temporary staff to liaise with agencies.

If additional resources are secured, BFR implementation could be accelerated. There are several areas where additional assistance would be beneficial, especially people or firms with technical expertise in the field of metrics development, information technology and staff training/change management.

Fiscal Year 2013: Fiscal Overview And Budget Summary

State of Illinois

The Seven Outcomes

Below are the seven outcomes and their associated goals. Following pages will show appropriations across the outcomes and goals.

Result	Goal
1. Quality Education and Opportunities for Growth and Learning for All Illinois Students	<ul style="list-style-type: none"> a) Increase percentage of children entering kindergarten "fully ready" b) Implement Common Core Standards (including Language Arts and Math) for K-8 Students c) Increase high school graduation rate and demonstrate academic achievement and preparations for success after high school for all students d) Ensure access to educational opportunities for all developmentally disabled and at-risk students e) Support every student with highly prepared and effective teachers and school leaders f) Increase number of Illinoisans with post-secondary certificates and bachelor degrees, especially minority graduates and STEM [science, technology, engineering, math] graduates
2. Enhanced Economic Well-Being of Residents and Communities	<ul style="list-style-type: none"> a) Increase employment rate b) Build 21st Century Infrastructure c) Increase median income d) Increase international exports e) Enhance business climate f) Increase and promote tourism throughout Illinois
3. Protection of Residents' Lives and Property	<ul style="list-style-type: none"> a) Reduce crime rate b) Reduce recidivism rate c) Rebalance from prison-based to community-based care when appropriate d) Enhance emergency planning e) Increase protection of public through education and enforcement of legal standards in food and environment f) Increase protection of public through education and enforcement of legal standards in insurance, health, workplace and other domains g) Promote and provide public safety for Illinois residents
4. Protection of the Most Vulnerable of Our Residents	<ul style="list-style-type: none"> a) Improve self-sufficiency b) Improve outcomes for at-risk youth c) Provide care and counseling to Illinoisans who need assistance and cannot provide for themselves d) Ensure subsistent assistance for the neediest Illinoisans e) Ensure fair access to employment and housing for all Illinoisans
5. Improved Access to, and Cost Effectiveness of, Healthcare	<ul style="list-style-type: none"> a) Rebalance long-term care delivery toward community-based care b) Improve the cost efficiency of healthcare service delivery
6. Improved Quality of Life of Residents	<ul style="list-style-type: none"> a) Improve quality of drinking water, air and land b) Increase conservation and citizen utilization of natural resources c) Increase cultural, historical and recreational participation and learning opportunities d) Increase awareness of, and access to, necessary services for all residents
7. Improved Efficiency and Stability of State Government	<ul style="list-style-type: none"> a) Improve access to information sharing and services through technology b) Increase efficiencies through management of human resources, property/capital resources, operations and purchasing c) Increase receipts and maximize collection of fair share of available revenue owed to state d) Improve fairness, accountability and transparency in the delivery of public services e) Enhance the state's corporate citizenship

Fiscal Year 2013: Fiscal Overview And Budget Summary

State of Illinois

Economic Stabilization and Enhancing the Business Climate

With the nation recovering from the recession, Governor Quinn remains focused improving the state's business productivity and competitiveness, and enhancing the economic well-being of working families. These steps toward long-term economic growth are crucial to the strength of the state.

In fiscal year 2012, Governor Quinn signed into law many reforms and changes that will improve the state's business and economic climate for years to come. These included historic workers' compensation and unemployment insurance reforms designed to save businesses hundreds of billions of dollars. Education reform was enacted with the long-term goal of producing better educated, more qualified students, which are keys to Illinois' economic future. Additionally, environmental permit streamlining makes it easier to open and expand a business in Illinois.

The work of growing the economy doesn't stop there. The state's robust capital program will continue in fiscal year 2013 and beyond. Passed with bipartisan support in 2009, the *Illinois Jobs Now!* capital program enhances the state's infrastructure, brings economic development to communities across the state and creates thousands of jobs each year.

The governors' economic development focus for fiscal year 2013 will promote growth through targeted tax cuts and investing in education, housing and clean water initiatives.

- **Tax reform** — The Economic Growth and Tax Reform Package, passed by the General Assembly this past December, delivers economic growth and tax reform for both employers and working families. The proposal increases the Illinois Earned Income Tax Credit (EITC) to 7.5 percent of the federal EITC in 2012, and to 10 percent of federal EITC in 2013. The increase puts \$105 million into

working families' pockets, money that working families will spend to stimulate sales for businesses throughout Illinois. In fiscal year 2013, Governor Quinn will continue promoting tax reform by seeking to abolish the regressive natural gas utility tax, establishing a Child Tax Credit for families and providing Hiring Veterans Tax Credit to businesses.

- **School construction** — In addition to prioritizing education in the operating budget, Governor Quinn supports an expanded capital investment in green construction of 21st century educational facilities. Funding will be prioritized based on poverty, age of buildings, potential district reorganization and overcrowding. The program will emphasize renovation of schools to create enhanced educational capacities, like science labs, libraries, and fiber and wireless systems for digital textbooks and information. Green school construction is expected to create 42,000 jobs.
- **Clean water initiative** — Water systems across the state rely on modern infrastructure to ensure clean water is available for residents. With an emphasis on local government needs, the governor's water quality initiative is expected to create 11,000 jobs.
- **International trade missions** — Promoting Illinois abroad is key to growing jobs and the economy. In fiscal year 2012, Governor Quinn has lead missions to Israel, China, Japan, Italy and Canada. To increase exports and promote foreign direct investment, He is planning multiple trade missions this year including to Brazil and Germany. He has utilized state funding to leverage President Obama's Federal State Trade and Promotion (STEP) grants, which has resulted in more Illinois companies receiving export training, trade financial assistance, and higher participation in trade missions.

Fiscal Year 2013: Fiscal Overview And Budget Summary

State of Illinois

ILLINOIS ECONOMY: HOW ARE WE DOING?

While Illinois continues its slow growth out of the recession, there are many positive signs in the state's economy.

- **Exports and international competitiveness** — Illinois exports have recovered quickly and led our economic expansion. Illinois exports are now greater than pre-recession levels. Illinois has made substantial progress toward its goal of doubling exports in five years.

Illinois' international exports increased 29 percent in 2011 compared with 2010. Over 86 percent of the increase in goods exports is contained in 10 industries.

10 Industries Ranked by dollars exported:

Description	Q4 2011	Percentage of Total
Total all Industries	\$16,347	100%
Machinery, Except Electrical	\$4,551	27.8%
Chemicals	\$1,975	12.1%
Transportation Equipment	\$1,713	10.5%
Computer and Electronic Products	\$1,587	9.7%
Electrical Equipment, Appliances and Component	\$838	5.1%
Petroleum and Coal Products	\$579	3.5%
Fabricated Metal Products, Neso	\$747	4.6%
Food and Kindred Products	\$663	4.1%
Agricultural Products	\$878	5.4%
Miscellaneous Manufactured Commodities	\$599	3.7%

Fiscal Year 2013: Fiscal Overview And Budget Summary

State of Illinois

Fiscal Year 2013: Fiscal Overview And Budget Summary

State of Illinois

- **Economic Growth** — In calendar year 2012, the Illinois economy is expected to grow at a rate of 1.9 percent. This growth forecast considers both the Philadelphia Federal Reserve Bank Index of Leading Economic Indicators for Illinois, and IHS Global Insight's forecast for Gross State Product.² Additionally, the Index of Leading Economic Indicators for Illinois is the second highest in the Midwest.³
- **Employment and Wages** — Though statewide unemployment remains high, the Illinois economy gained 52,600 net new jobs in 2011. Many industries are also seeing higher wages for workers, due to a mixture of increased average weekly hours and higher hourly earnings.⁴
 - Leading sectors for new jobs include:
 - Business and Professional Services: 20,400 jobs
 - Educational and Health Services: 16,700 jobs
 - Trade Transportation and Utilities: 14,600 jobs
 - Manufacturing: 12,200 jobs⁵
 - Average weekly earnings have increased across a variety of industries due to a mixture of increased average weekly hours and higher hourly earnings. The top five

industries for each metric are summarized below⁶.

Top five industries for increased weekly earnings

Industry	Percentage Change
Fabricated Metal Manufacturing	3.4 %
Food Manufacturing	2.7%
Durable Goods Manufacturing	2.3%
Construction	1.8%
Machinery Manufacturing	1.5%

Top five industries for increased weekly hours

Industry	Percentage Change
Machinery manufacturing	8.2%
Merchant Wholesalers, Durables	7.9%
Printing and Related	7.1%
Construction	6.4%
Financial Activities	5.5%

² The leading index for each state predicts the six-month growth rate of the state's coincident index. In addition to the coincident index, the models include other variables that lead the economy: state-level housing permits (1 to 4 units), state initial unemployment insurance claims, delivery times from the Institute for Supply Management (ISM) manufacturing survey, and the interest rate spread between the 10-year Treasury bond and the three month Treasury bill. A time-series model (vector autoregression) is used to construct the leading index. Current and prior values of the forecast variables are used to determine the future values of the index. Federal Reserve Bank of Philadelphia, "State Leading Indexes", Retrieved December 19, 2011. <http://www.philadelphiafed.org/research-and-data/regional-economy/indexes/leading/>

³ Midwest states include: Illinois, Indiana, Iowa, Ohio, Minnesota, Michigan and Wisconsin. Ranking based on report retrieved December 19, 2011 . <http://www.philadelphiafed.org/research-and-data/regional-economy/indexes/leading/>

⁴ Job numbers are based on the Illinois Department of Employment Security, November 2011 Current Employment Statistics Program.

⁵ Sum of new jobs by sector does not equal net new jobs because of job losses in other sectors not listed.

⁶ Average weekly earnings, average weekly hours and average hourly earnings are year-to-date averages of the monthly averages based on the Illinois Department of Employment Security, January 2012 Current Employment Statistics Program.

Fiscal Year 2013: Fiscal Overview And Budget Summary

State of Illinois

FINANCIAL SUMMARY

The proposed level of operating appropriations from all funds in fiscal year 2013 is \$61.0 billion, compared to a fiscal year 2012 appropriation of \$60.5 billion as detailed in Table I-A. This represents an increase of \$500 million from fiscal year 2012.

Appropriations are made from individual funds, the names of which are often indicative of either the purpose of the appropriations or the major source of the funds' receipts. The following table shows appropriations by major fund group.

Fiscal Year 2013 Operating Appropriations by Fund Group

General funds - The largest fund group, in terms of dollars, is the General Funds. This fund group represents 49 percent of total recommended appropriations and consists of the General Revenue

Fund, the Common School Fund, the Education Assistance Fund and the General Revenue-Common School Special Account Fund. The General Funds support the largest proportion of state programs, as well as the executive, legislative and judicial branches of state government. The General Funds are commonly known as the state's operating funds.

Special State Funds - The next largest fund group, in terms of dollars, is the Special State Funds. Included in this group are the following major categories:

- **Highway Funds** - These funds include the Road Fund, The Motor Fuel Tax Fund and the state Construction Account Fund with the Grade Crossing Protection Fund, both of which are only presented in the Capital budget. Appropriations from Highway Funds support transportation and highway maintenance-related activities and include a mechanism for diverting a portion of road-related fees to local governments.
- **Other Special State Funds** - More than 300 funds support such diverse activities as medical assistance, children's services, environmental cleanup, financial regulation and health insurance.

Federal Trust Funds - This fund group supports a variety of state programs funded with federal revenues, including education, healthcare, human services, community development, transportation and energy.

Fiscal Year 2013: Fiscal Overview And Budget Summary

State of Illinois

Fiscal Year 2013 Operating Appropriations by Outcome Percentage of Total

Appropriations also may be grouped according to purpose. The charts above show appropriations by major purpose, identifying the principal spending activities of state government. The charts show that the major portions of the state's resources are allocated to education, healthcare and human programs. Approximately 22.3 percent of

or \$13.6 billion, is dedicated for educational purposes exclusive of pensions. The recommended appropriations for healthcare are \$17.6 billion, representing 28.8% of total spending by the state. Government Services representing 26.8% of total recommended appropriations includes over \$5.2 billion of required pension contributions.

Fiscal Year 2013: Fiscal Overview And Budget Summary

State of Illinois

Fiscal Year 2013 Revenues by Source Percentage of Total

The two charts above identify the major revenue sources for all appropriated funds.

Total state revenues are projected to be \$55.6 billion in fiscal year 2013, and General Funds receipts are estimated to be \$33.9 billion. General Funds revenues are estimated to increase by 2.2 percent, or \$ 719 million.

General Funds

A breakdown by major revenue category can be found in Table II-A for total revenues, and Table II-B for General Funds revenues. As can be seen in those tables, revenues from income and sales taxes are the major source of state funds. They account for 45.9 percent of all receipts, and 74.1 percent of General Funds receipts.

Fiscal Year 2013: Fiscal Overview And Budget Summary

State of Illinois

The fiscal year 2013 Budget Plan below reflects the basis for appropriations and is the same information provided in prior years' budgets, although it utilizes standard business language and "plain English" to reflect

the governor's commitment to, and principle of, truth in budgeting. Revenues are estimated on the cash basis of revenues recognition.

See the schedule below for a fiscal year 2013 Operating Budget Plan for all appropriated funds.

NOTE: Footnotes on the following page are an integral part of the financial information in the table above.

Fiscal Year 2013: Fiscal Overview And Budget Summary

State of Illinois

General Funds Budget Results and Budget Plans 2011 – 2013 Footnotes

- ¹ General Fund pension contributions of \$3,680 million for FY2011, were made through issuance of approximately \$3,700 million in General Obligation Bonds, Taxable Series of February 2011. Bond proceeds were deposited to the Pension Contribution Fund, with two purposes: (1) to reimburse the General Funds for approximately \$224 million in FY2011, initially paid from the General Funds to the State's five pension systems and prior to the bond issuance noted above, pursuant to a continuing appropriation; and (2) to the State's five pension funds for the remaining balance of General Funds pension contribution required appropriations for the fiscal year. In addition, General Funds pension contributions are net of payments funded by transfers from the State Pension Fund representing resources provided by the Unclaimed Property Trust Fund, pursuant to statute, in the following amounts: \$63 million (actual) in FY2011, \$230 million (appropriated) in FY2012, and \$160 million (proposed) in FY 2013. FOR PRESENTATION CONSISTENCY AND COMPARISON PURPOSES, the FY2011 financial information in the Table above reflects the amounts attributable to the value of the FY2011 General Funds pension fund contributions, and the General Obligation pension bond proceeds, but the actual cash flows in that fiscal year were through the Pension Contribution Fund, as described above.
- ² FY2010 Accounts Payable included \$940 million of FY2010 statutory transfers that were not executed (i.e., cash transfers were not made) as of June 30, 2010, per the Traditional Budgetary Financial Report for FY 2010 issued by the Illinois Office of the Comptroller. Those transfers were subsequently effectuated in July of 2010. For FY2011, \$890 million of Transfers Out were not executed as of June 30, 2011 and are included in the FY2011 Accounts Payable amount. Such unexecuted statutory transfers are considered Transfers Payable for this presentation and reflected in the Accounts Payable amounts for FY2010 and FY2011. In addition, approximately \$276 million of cash was not transferred back to the Budget Stabilization Fund as of June 30, 2010. Furthermore, the Budget Stabilization Fund was not replenished by June 30, 2011, per SB1633, in order to maximize FY2011 Federal Medicaid reimbursements. SB1633 called for repayment of the \$276 million statutory amount to the Budget Stabilization Fund by July 15, 2011, which was effectuated. FY2012 Transfers Out also assumes \$350M of Inter Fund Borrowing repayments, leaving a \$147 million balance (including interest) for repayment in FY2012, per statute and as budgeted above, for the Inter Fund Borrowing of \$496 million in FY 2011.
- ³ Budget Basis Surplus (Deficit) equals "Operating Revenues and Transfers In" minus "Operating Expenditures and Transfers Out" plus (minus) "Other Financing Sources (Uses)"
- ⁴ Budget Basis Accounts Payable excludes incurred liabilities of that fiscal year that do not have sufficient appropriation authority remaining to be paid during the Lapse Period (i.e., 60 days after the close of that fiscal year). However, such incurred liabilities (termed "*Section 25 liabilities*," pursuant to statute) are reflected in the audited Comprehensive Annual Financial Report (CAFR) that is prepared on the basis of generally accepted accounting principles for governments. Historically, Medicaid and group health insurance payments constitute the majority of Section 25 liabilities.
- ⁵ Budget Basis Accounts Payable are defined as the "Vouchers on Hand" (i.e., vendor invoices received by the Illinois Office of the Comptroller and unpaid) as of June 30th of each fiscal year, plus "Lapse Period Spending," representing vendor invoices received after June 30th for liabilities incurred (i.e., goods received or services rendered) by June 30th. In addition, a sufficient appropriation balance must exist from that fiscal year in order to be recorded as a liability of that fiscal year. Budget Basis Accounts Payable must be paid during the "Lapse Period," which by statute is set as ending 60 days after the prior fiscal year end. For FY2010 and FY2011, the Lapse Period was extended by statute to December 31st due to cash flow timing differences. The FY2011 Accounts Payable amount reflects approximately \$3,798 million of Vouchers on Hand at June 30, 2011, plus \$1,350 million of Lapse Period Spending, based upon information provided by the Illinois Office of the Comptroller. Of those amounts, approximately \$11.6 million and \$28.1 million, respectively, represented Prompt Payment Act interest payments to those vendors.
- ⁶ Cash Basis Surplus (Deficit) equals "Budget Basis Surplus (Deficit)" minus (plus) Other Cash Uses (Sources) relating to changes in Accounts Payable during the fiscal year.

Fiscal Year 2013: Fiscal Overview And Budget Summary

State of Illinois

The table and chart below summarize the employee headcount totals for fiscal year 2013, as well as the prior two fiscal years, by Budgeting for Results Outcome. The budgeted employee

headcount total for fiscal year 2013 will decrease as the Department of Human Services, Department of Juvenile Justice and the Department of Corrections close facilities.

Budgeting For Results Outcome	Employee Total		
	FY 2011 Actual	FY 2012 Estimated	FY 2013 Target

Education	1,259	1,285	1,293
Total	53,731	53,017	51,563

Fiscal Year 2013: Fiscal Overview And Budget Summary

State of Illinois

BUDGET POLICIES

Operating Budget Policies

The Illinois Constitution requires a balanced budget. Expenditures proposed by the governor shall not exceed funds estimated to be available for the fiscal year. Public Act 90-479 amended the Civil Administrative Code to provide guidance to the governor as he proposes the budget. Tables II-C and II-D provide revenue and expenditure information pursuant to Public Act 90-479, codified at 15ILCS 20-50.

The state will impose budgetary reserves: General Funds and Special State Funds will be required to maintain a two percent reserve to ensure spending does not exceed estimated revenue.

Strategic Fiscal Policies

The state's strategic fiscal policies are designed to eliminate the fiscal imbalance caused by expenditures growing at a faster rate than revenues. These policies include the following:

- Help families during times of recession;
- Fund key priorities including education and healthcare;
- Invest in the economy and the state's infrastructure;
- Reduce the state's pension liability;
- Implement new revenue streams that reflect the state's economic base;
- Contain core costs;
- Improve the efficiency of state procurement;
- Maintain debt affordability processes for capital programs;
- Measure program performance;
- Enhance revenue compliance and enforcement;
- Require new spending to be matched by new revenues;
- Transfer excess balances in special funds; and

- Streamline government by reducing its size and increasing its responsiveness.

Financial Reporting Policies

The state annual financial report follows accounting and financial reporting practices in conformity with accepted principles and standards of the Governmental Accounting Standards Board (GASB), and best practices of the Government Finance Officers Association (GFOA).

Revenue Policies

To develop revenue policies, the state will consult with the Council of Economic Advisors and independent national economic consulting firms, and utilize various revenue forecasting methodologies including econometric modeling, historical relationships and economic indicator projections.

The state will monitor revenues on a semi-monthly, and quarterly basis. Comparisons will be made to both the budget and the prior year, in order to facilitate a rapid response to changes in economic conditions and fiscal status.

Expenditure Policies

The state will monitor expenditures on a monthly basis through the Budget to Actual Variance reporting and variance analysis.

Operating Expenditure Policy

Agencies will prepare Budget to Actual Variance reports: actual expenditures will be compared to the budget; monthly and quarterly allotments will be made; and significant variances will be addressed by all agencies under the governor.

Agencies will prepare corrective action plans. Budget to Actual Variances of 2 percent or more from their allotments will require a corrective action plan that will be monitored by the Governor's Office of Management and Budget (GOMB).

GOMB will approve procurement transactions of \$1 million or more.

GOMB will approve all personnel transactions.

Reserve Policy

The state will reserve general funds for cash management purposes to reduce the need for short

Fiscal Year 2013: Fiscal Overview And Budget Summary

State of Illinois

term borrowing and provide additional resources to assist the state in meeting its needs.

Debt Capacity, Issuance and Debt Service Policies

The state will identify new or increased revenues when authorizing additional debt to support capital spending.

The state will conduct debt affordability analyses to determine the long-term effects of debt repayment on future operating budgets.

Unless otherwise necessary to offset pension liability, the state will limit debt service expenditures to no more than seven percent of General Revenue and Road Funds appropriations.

Capital Expenditure policy

The state will annually forecast and analyze revenues available for capital expenditures.

The state will conduct a formal capital planning process to annually rank projects based on specific criteria including life/safety factors, code compliance, infrastructure maintenance, cost benefit analysis and targeted new construction programs.

The state will annually evaluate the impact of new capital spending on the operating budget.

The state will perform facility management and condition assessments in order to provide information and recommendations for current and future capital expenditures.

Pensions

The state will continue to implement recommended pension actions that improve the systems' financial condition and affordability.

The state will approve a proposed increase in pension benefits only if matched by continuing revenue sources.

Performance Measures

The agencies under the governor will develop performance measures that indicate progress toward the governor's priorities and each agency's core mission.

The performance measures will focus on outcome measurement in order to assess the impact on the public.

The performance measures presented in the budget book will include estimated data for the current year, projected data for the budget year and historical data for the three prior fiscal years.

Legislative Policies

Agencies under the governor will submit proposed legislation to GOMB to determine the fiscal impact to the budget. All proposed legislation that has a fiscal impact is accounted for in the governor's proposed budget.

During the course of the legislative session, GOMB will prepare balanced budget notes at the request of members of the General Assembly. These notes assess the fiscal impact of proposed legislation on the budget.

GOMB will review rule change proposals of agencies under the governor to determine their fiscal impact on the operating budget.

The table below summarizes additional fiscal policies of the state. The state's fiscal policies are designed to minimize administrative cost and maximize state efficiency.

Fiscal Year 2013: Fiscal Overview And Budget Summary

State of Illinois

SELECT FINANCIAL POLICIES

State Agency	Financial Policy	Brief Policy Description
Treasurer's Office	State Treasurer's Investment Policy http://www.treasurer.il.gov/about-us/pdf/GRInvestmentPolicy.2011.12.13.pdf	The treasurer's investment policy calls for investment of all funds in a manner that provides the highest investment return, using authorized instruments, while meeting the state's daily cash flow demands. The policy covers the following areas: ethics and conflict of interest; authorized broker/dealers and financial institutions; authorized and suitable investments; investment restrictions; collateralization; diversification; custody and safekeeping; internal controls; limitation of liability; and reporting.
Comptroller's Office	Statewide Accounting Management System procedures manual (SAMS Manual) http://www.ioc.state.il.us/index.cfm/linkservid/60F208B2-1CC1-DE6E-2F4808A951E543C6/showMeta/0/	The comptroller's Statewide Accounting Management System (SAMS) manual documents the fiscal policies, accounting principles, controls, operating procedures and reporting requirements for the SAMS. The manual assists state agencies by indicating the method to be used for processing accounting information between agencies and the comptroller's office.
Governor's Office of Management and Budget	Interest Rate Risk Management Policy www.state.il.us/budget/Intr_Rate_Policy_October2003Final.pdf	This policy establishes the purposes and procedures by which the state may enter into an exchange contract or issue direct variable rate debt. The policy covers the following areas: definition of variable interest rate position; purposes of interest rate exchange contracts; risk assessment; form and legality of agreement; qualified counterparties and collateral provisions; counterparty aggregate position limits; liquidity facility; monitoring and reporting; and terms of policy review.
Central Management Services	Standard Procurement Rules http://sell2.illinois.gov/docs/Illinois_Procurement_Rules.pdf	All qualified vendors are invited to participate in bidding on the wide variety of commodities and equipment purchased by the state. The Department of Central Management Services is authorized, by law, to buy commodities and equipment for state agencies and elected officials. The state's procurement rules establish standards for procurement authority, bid thresholds, bid publication, bid security, duration of contracts, contract pricing, preferences, ethics, protests, supply management and governmental joint purchasing.
Comptroller's Office	Budget Stabilization Fund (30 ILCS 122/1) www.ilga.gov/legislation/ilcs/ilcs.asp	Funds are reserved for use in the cash management of the General Revenue Fund, thus reducing the need for short term borrowing and serving to provide additional resources to assist the state in meeting its needs. The priority for the use of these funds include secondary and elementary education, child care and other programs that may provide a direct benefit to children.

Fiscal Year 2013: Fiscal Overview And Budget Summary

State of Illinois

THE BUDGET PROCESS

The Illinois Constitution requires the governor to prepare and present a state budget recommendation for the state to the General Assembly. The Constitution also requires the proposed budget be balanced and include recommended spending levels for state agencies, estimated funds available from tax collections and other sources, and state debt and liabilities. The Governor's Office of Management and Budget (GOMB) estimates revenues in consultation with the Department of Revenue. GOMB subsequently develops budget recommendations that reflect the governor's programmatic and spending priorities.

Planning: September through February

Planning for the next fiscal year begins each fall. During the planning phase, the following activities occur:

- Agencies work with GOMB and the Governor's Office to refine strategic priorities, develop initiatives to achieve those priorities, and evaluate actual performance compared to benchmarks from comparable states or other peer entities;
- GOMB and agency staff identify and estimate potential spending for the coming fiscal year, including both the costs of current and potential programs, and the value of expansion, modification, or elimination of various programs;
- Working with the Council of Economic Advisors, GOMB and the Department of Revenue review economic forecasts and make preliminary revenue estimates;
- GOMB, the Department of Central Management Services and the agencies review statewide trends and administrative processes to find and reduce inefficiencies, and propose reallocation of resources to improve efficiency and promote better government;
- Based on targets, assumptions and materials provided to agencies by the GOMB, agencies prepare and GOMB reviews preliminary budget materials;
- GOMB, the Governor's Office, and agencies meet to review and discuss available revenue,

anticipated spending, and program priorities to develop budgets that reflect the core priorities of the agency;

- Periodically, the GOMB reviews revenue and spending estimates, resulting in review and reprioritization of agency and state priorities;
- When final budget options are developed, they are presented to the governor for review and approval before they are drafted in legislative form. GOMB then produces the budget book, a narrative explaining the budget and providing complete budget table forms;
- The governor announces and describes the budget in the annual Budget Address; and
- GOMB drafts appropriation bills to implement the governor's budget recommendations.

Legislative Deliberation: March through May

After the Governor's Budget Address in February, legislative review of the governor's budget recommendations begins with hearings before House and Senate appropriation committees. During this period, the following activities occur:

- Appropriation committees may adopt amendments to change the funding level recommended by the governor;
- Once passed by the first committee, an appropriation bill moves to the full House or Senate for consideration, amendment, and a vote. Following passage in the first legislative chamber, the appropriation bill moves to the second chamber, where a similar process takes place. Changes made in either chamber must ultimately be accepted in identical form by both chambers for the bill to pass and be presented to the governor;
- As the budget moves through the legislature, GOMB monitors any amendments, as well as substantive legislation to identify potential fiscal impacts;
- By statute, and if requested, any proposed amendments to the budget, and any substantive legislation with fiscal or revenue impacts, must be accompanied by a fiscal note to describe such impacts; and

Fiscal Year 2013: Fiscal Overview And Budget Summary

State of Illinois

- Final approval of the budget usually occurs at the end of the legislative session, typically by the end of May. The Illinois Constitution requires a simple majority vote of the General Assembly for a bill passed on or before May 31 to take effect immediately. On or after June 1, a three-fifths super majority vote of the General Assembly is required in order for a bill to take effect during the fiscal year.

Gubernatorial Review:

Following end of Legislative Session

Once the General Assembly passes the budget, the governor must sign appropriation bills before funds can be spent. If the governor chooses not to approve a specific appropriation, he may either veto a specific line item, or reduce it. The rest of the appropriation bill is unaffected by these vetoes and becomes effective. Line items that have been vetoed or reduced must be reconsidered by the General Assembly during the fall session. The General Assembly may return an item to the enacted level by simple majority vote in both chambers in the case of a reduction veto, and by a three-fifths super majority vote in the case of a line item veto. If additional resources beyond those initially approved in the budget become necessary, a supplemental appropriation bill may be passed any time the General Assembly is in session. Please refer to Table I-B for current supplemental appropriation bills being considered for spring 2012.

This page intentionally left blank.

Table I-A Operating Appropriations by Agency – All Funds

Summarizes each agency's general funds, other state funds, federal funds and total appropriations for fiscal years 2011, 2012, and 2013. The footnotes to Table I-A explain the various transfers of functions and funds related to agency reorganizations and program changes.

Budget Table by Outcomes and Goals – General Funds

Summarizes by Outcome, Goal, Agency and program the budget recommendations for each agency and other branches of government, including elected officials.

Table I-B: Supplementals to Complete Fiscal Year 2012

Lists the Governor's recommended supplemental appropriations needed to complete fiscal year 2012.

Table II-A: Revenues by Source – All Appropriated Funds

Summarizes, by source, all appropriated state revenues for four fiscal years.

Table II-B: Revenues by Source – General Funds

Summarizes, by source, all revenues deposited into the state's general funds for four fiscal years.

Table II-C: Budgeted Funds Revenues – GAAP Basis

Budgeted funds revenues prepared in accordance with Public Act 90-479 for fiscal year 2013.

Table II-D: Budgeted Funds Expenditures – GAAP Basis

Budgeted funds expenditures prepared in accordance with Public Act 90-479 for fiscal year 2013.

Table III-A: Road Fund

Provides a summary of the receipts into the Road Fund and allocations from the fund to various state agencies for four fiscal years.

Table III-B: Motor Fuel Tax – State Funds

Summarizes the receipts into the Motor Fuel Tax Fund and distributions from the fund for four fiscal years.

Table IV-A: Appropriated Operating Funds by Fund Group for Fiscal Year 2013

Summarizes, by fund group, the appropriated funds and projected operating cash flow for fiscal year 2013.

Table IV-B: Appropriated Operating Funds by Fund for Fiscal Year 2013

Lists all appropriated funds and describes each fund's projected operating cash flow for fiscal year 2013.

FOOTNOTES

1. The historical appropriations and expenditures for all transfers of agency divisions and transfers of agency programs noted in the agency narratives have been restated to reflect the consolidation of those divisions or programs within other state entities.
2. Required Fiscal Year 2011 contributions to the retirement systems were made from proceeds of General Obligation Pension Funding bonds issued in March 2011. The amount identified as a continuing appropriation reflects actual General Funds contributions made to the retirement systems prior to the receipt of the bond proceeds.
3. Required Fiscal Year 2012 contributions to the retirement systems are made through direct appropriations to the retirement systems. However, the appropriations passed by the General Assembly were insufficient for the State Employees Retirement System. In addition, appropriations to Teachers' Retirement System and State Universities Retirement System were insufficient for required contributions to their respective Health Insurance programs.
4. The Department of Central Management Services and the Department of Transportation revolving funds appropriations, estimated expenditures, and estimated appropriations for fiscal years 2011 - 2013 are listed as separate line item reductions in Table I-A. The line item reductions were made to avoid double counting in the appropriations. Appropriations expended for services provided by revolving funds are also included in individual agency budgets, including divisions within Central Management Services.

Budgeting For Results Table Introduction

State of Illinois

For consistency, we have shown the budget by agency and line item, as has been done in the past. Table I-A summarizes each agency's general funds, other state funds, federal funds and total appropriations for fiscal years 2011, 2012 and 2013. In addition, we are providing the following Budgeting for Results table. This is part of the implementation of Budgeting for Results and will help guide the budgeting process going forward.

The Budgeting for Results table shows, for the first time, all state appropriations (including general funds, other state funds, and federal funds) organized by outcomes and goals. This is a significant departure from prior practice in which appropriations were shown simply based on agency line items or were focused only on general revenue fund appropriations. Outcomes reflect the broad policy objectives the state seeks to address with its spending, and goals reflect the more specific indicators of how those outcomes will be achieved.

The purpose of the Budgeting for Results table is manifold. First and foremost, the table is intended to communicate to Illinois citizens the state's policy priorities and objectives, as embodied in the state budget. The table then conveys the goals the state believes are integral to achieving these objectives. Finally, the table provides a clear and comprehensive picture of where state agencies and programs fit within this framework.

In the table, each state spending program (and the agency that administers it) is listed under a specific goal reflective of the purpose of that program. The appropriations proposed in the budget for that program are also listed. The sum of all of the appropriations associated with the spending programs listed under a specific goal shows the total spending proposed for that goal. Similarly, the sum of all the appropriations associated with the goals listed under a particular outcome shows the total spending proposed for that outcome. In this manner, any citizen of the state can clearly and easily see how the state plans to spend its resources and why.

ECONOMIC OUTLOOK AND REVENUE FORECAST

This page intentionally left blank.

Economic Outlook And Revenue Forecast

State of Illinois

ECONOMIC OUTLOOK

More than two years after the end of the last recession, the national and Illinois economies continue to improve. This improvement has been slower than in previous recoveries, and there are still elements of both economies that have yet to fully recover. In particular, employment and numerous housing market indicators are well below their pre-recession peaks, both today, and through the budget's 2013 fiscal year forecast. We expect the national and Illinois economies to continue their slow, yet steady recovery through the forecast period. The discussion below highlights the past and forecast performance of several key economic indicators. All forecasts are *IHS Global Insight* baseline forecasts unless noted.

The National Economy

Gross Domestic Product

Although the real Gross Domestic Product (GDP) has only recently recovered from the declines of the last recession, it is exceeding the pre-recession peak that occurred in the second half of calendar year 2011. The Bureau of Economic Analysis (BEA) reported in January 2012 that real GDP increased at an annual rate of 2.8 percent in the fourth quarter of 2011, improving on the 1.8 percent annual rate increase in the third quarter of 2011. Real GDP is forecast to increase 1.8 percent in fiscal year 2012 and 1.9 percent in fiscal year 2013. This growth is below the 3.2 percent average growth set in the 15 fiscal years prior to the last recession.

Employment

The U.S. labor market continues to struggle more than two years after the end of the recession. U.S. employment (total non-farm employment) is currently more than 5 million jobs below its pre-recession peak of almost 138 million jobs. U.S. employment is expected to increase 1.2 percent in fiscal year 2012, and 1.4 percent in fiscal year 2013. Employment will still be more than 3 million jobs below the peak at the end of the forecast period, underscoring the slow pace of labor market recovery.

Wages and Salaries

Nominal (i.e., not adjusted for inflation) U.S. wage and salary disbursements returned to their pre-recession peak in early calendar year 2011. Forecasts project 3 percent and 3.6 percent growth in nominal U.S. wage and salary disbursements for fiscal years 2012 and 2013 respectively. This is below average compared to the 15 years prior to the start of the last recession. In real terms (i.e., adjusted for inflation), U.S. wage and salary disbursements will still be below their pre-recession peak at the end of the forecast period. Forecasts project 0.9 percent and 2.4 percent growth in real U.S. wage and salary disbursements for fiscal years 2012 and 2013 respectively. Actual purchasing power of U.S. wage and salary disbursements is more than a year away from a full recovery.

Economic Outlook And Revenue Forecast

State of Illinois

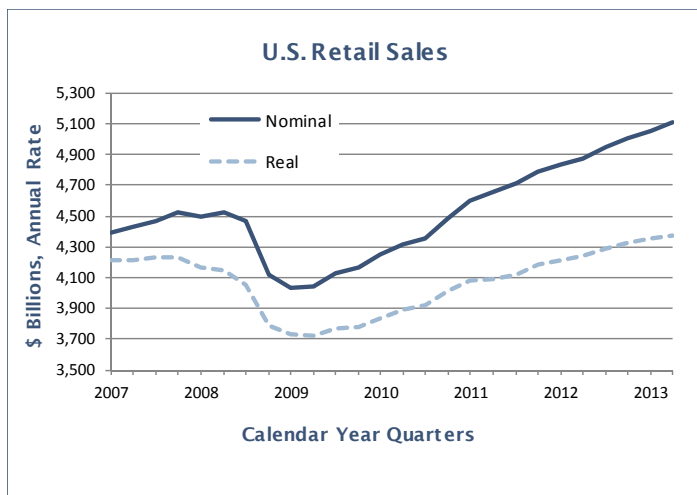

pressure from discounted foreclosures. Forecasts project that prices will hit bottom and increase slightly starting in fiscal year 2012. Unit sales of single-family homes remain far below the pre-recession peak, but have been growing steadily since 2010 as able buyers take advantage of historically low interest rates and low prices.

Retail Sales

During the last recession, U.S. retail sales declined more than ever before. Retail sales have steadily rebounded since hitting bottom in early 2009. In nominal terms, U.S. retail sales are projected to increase 6.1 percent and 4.7 percent in fiscal years 2012 and 2013 respectively. Some of this growth, however, is related to higher prices. In real terms, U.S. retail sales are projected to increase 4 percent and 3.4 percent in fiscal years 2012 and 2013 respectively.

Housing Market

The collapse of the housing market led the economy into the last recession and continues to place downward pressure on economic growth. Housing starts measure the construction of new housing units and remain near all-time lows despite very slow growth beginning in 2011. Median home prices are still falling, driven downward by tight credit conditions, excess inventory and pricing

Economic Outlook And Revenue Forecast

State of Illinois

Domestic Corporate Profits

U.S. domestic corporate profits increased 7.6 percent in fiscal year 2012, but are expected to decline 4.1 percent in fiscal year 2013.

Economic Outlook And Revenue Forecast

State of Illinois

The Illinois Economy

Illinois mirrors the national economy in its continued slow growth out of the last recession. Illinois has been showing signs of improvement in areas such as employment, wages, salaries and retail sales among others. Although forecasts show continued improvement for most key economic indicators, some are expected to remain below pre-recession levels.

Employment

Illinois employment numbers are expected to rise slowly for fiscal year 2012 and fiscal year 2013. After adding 54,700 jobs in fiscal year 2011, the Illinois Department of Employment Security (IDES) projects employment growth of 72,500 jobs for fiscal year 2012, and 86,900 jobs for fiscal year 2013. The government sector is the only sector expected to show a significant decrease in employment, shedding 8,600 jobs in fiscal year 2012 and 2,300 jobs in fiscal year 2013. IDES forecasts for Illinois employment project growth of 1.3 percent and 1.5 percent for fiscal years 2012 and 2013 respectively, slightly higher than growth at the national level. This growth would yield a total Illinois jobs count of just over 5.8 million by the end of fiscal year 2013.

Wages and Salaries

Based on forecasts from IHS Global Insight, nominal wage and salary disbursements in Illinois are expected to grow 3 percent in fiscal year 2012, and 3.4 percent in fiscal year 2013. In real terms, however, forecasted growth is 0.9 percent and 2.1 percent in fiscal years 2012 and 2013 respectively. Real wage and salary disbursements in Illinois will still be below their pre-recession peak at the end of fiscal year 2013. The following graph shows IHS

Global Insight forecasts. The Department of Revenue, which develops its own forecast of nominal Illinois wage and salary disbursements, projects 2.8 percent and 3.0 percent growth for fiscal years 2012 and 2013 respectively.

Retail Sales

In nominal terms, Illinois retail sales are projected to increase 5.8 percent and 3.7 percent in fiscal years 2012 and 2013 respectively. In real terms, Illinois retail sales are projected to increase 3.7 percent and 2.4 percent in fiscal years 2012 and 2013 respectively.

Housing Market

Housing starts in Illinois have been trending upward after experiencing historic lows. They are forecasted to track higher in fiscal year 2012 and fiscal year 2013 with increases of 12.6 percent and 21.1 percent respectively. The chart below demonstrates that forecast increases are relative and will stay well below 2007 pre-recession highs.

Economic Outlook And Revenue Forecast

State of Illinois

The adverse effects of the ongoing foreclosure crisis will likely continue in 2012 and 2013. The number of court-ordered foreclosure auctions is expected to rise as more foreclosure cases work their way through the court system. With the number of foreclosure listings expected to rise, economists maintain that buyers will continue to seek distressed properties, causing further drops in median home prices. This is reflected in forecast estimates for Illinois median sale prices where prices are expected to drop 4.1 percent in fiscal year 2012, before edging up 0.2 percent in fiscal year 2013.

Assumptions and Risks to Forecast

Key fiscal policy assumptions include:

- The federal payroll tax cut and emergency unemployment insurance benefits are extended for all of calendar year 2012 and beyond.
- The Bush-era tax cuts will be extended in 2013, and the automatic federal spending cuts scheduled for January 2013 will not occur.

- Real federal government spending declines approximately 2 percent to 3 percent over the forecast period.

Monetary policy assumption:

- The Federal Reserve will keep the Federal Funds Rate close to zero.

Regarding the global economy, it is assumed that the Eurozone will fall into mild recession and that its sovereign debt problems will continue, but not deteriorate significantly, during the forecast period. It is also assumed that global growth will slow somewhat as a result of the Eurozone recession. Oil prices are assumed to continue at high current levels, around \$100 per barrel.

There are numerous important forecast risks to consider. Some of these risks could have a negative impact on state revenue sources should they occur.

Globally, political instability in the Middle East, including unrest in Syria and tensions with Iran over its nuclear program, could place upward pressure on world energy prices. A severe spike in oil prices could upset the ongoing recovery and tip the U.S. economy into another recession. There is the risk of the Eurozone sovereign debt spreading to other countries, leading to one or more national defaults and igniting a global financial crisis.

Domestically, the primary risks are related to federal fiscal policy. The extensions of emergency unemployment insurance benefits and the payroll tax cut, in particular, are crucial to solidify the economy's fragile recovery. Too much federal government austerity could harm the economic recovery. In addition, implementation of proposed changes to the federal corporate tax code or the passage of the American Jobs Act are examples of government policy changes that would need to be accounted for in revised revenue forecasts.

Illinois Revenue Sources

The State's largest revenue sources are economically sensitive taxes: the individual income tax, corporate income tax and sales tax. Other major sources of revenue include public utility, gaming and wagering, excise, and motor fuel taxes. The following provides a brief explanation of each major category:

- **Major Economically Sensitive Taxes:** Illinois' revenues largely come from economically sensitive taxes, especially individual income

Economic Outlook And Revenue Forecast

State of Illinois

tax, corporate income tax and sales tax. For fiscal years 2012 through 2013, these three sources account for an estimated 88.0 percent of general fund tax revenue.

- **Utility Taxes:** Natural gas tax is the lesser of 2.4 cents per therm or 5 percent of gross revenue from each gas customer. The Electricity Excise Tax is levied on a user's kilowatt-hours of electricity consumption or purchase price, depending on several factors. The rate depends on the level of consumption and the type of user. Telecommunication taxes are based on gross receipts and are therefore driven by price and consumption. During fiscal years 2012 through 2013, these three sources are estimated to account for an average of 3.9 percent of general funds tax revenue.
- **Wagering Revenue Streams:** Illinois receives revenue from the state lottery and casino gaming. During fiscal years 2012 and 2013, these two sources are estimated to account for an average of 3.6 percent of general funds tax revenue. The state receives a modest revenue stream from horse racing activity conducted in Illinois, which funds the regulation of the industry.
- **Other Major General Fund Excise Taxes:** Illinois' general funds excise taxes include insurance, franchise, cigarette, liquor and hotel taxes. During fiscal years 2012 and 2013, these sources are estimated to make up the remaining 4.5 percent of general funds tax revenue.
- **Major Non-Tax Revenue Sources:** The state receives a portion of federal Medicaid reimbursements paid to Cook County Hospital through an intergovernmental agreement. The agreement is designed to capture additional federal reimbursement by allowing the state to claim the maximum rates for Medicaid patients at the hospital. The federal government provides grants and reimbursements to the Illinois general funds for public assistance, social services and other programs.
- **Non-General Fund Tax Streams:** Illinois allocates revenue from the motor fuel tax to the Motor Fuel Tax Fund. The majority of revenue from real estate transfer taxes goes toward low-income housing.

Economic Outlook And Revenue Forecast

State of Illinois

REVENUE FORECASTS: FISCAL YEAR 2012 REVISED AND FISCAL YEAR 2013

Economically sensitive revenues, such as individual income tax, corporate income tax and sales tax are estimated using econometric models. Other revenue sources, such as utility taxes, cigarette taxes and user fees, are not significantly affected by economic changes and are fairly stable from year to year. Time series analysis is used to forecast revenue streams that are not significantly impacted by economic trends.

Final budget forecasts for tax revenues are developed from information obtained through a variety of sources, including:

- **Governor's Council of Economic Advisors (CEA).** The CEA is comprised of economists and members of the business and public policy communities. Staff support is provided in part by the Department of Revenue and the Department of Employment Security. The CEA actively provides input into the budget process with an emphasis on economic forecasting.
- **National economic consulting firms.** The state uses *Moody's Economy.com* and *IHS Global Insight* to provide current national, regional and Illinois data, to analyze historical economic trends, monitor current economic conditions and develop forecasts of key economic indicators.
- **State Agencies:**
 - **Department of Revenue (DOR).** DOR forecasts corporate and individual income taxes, sales taxes, utility taxes and gaming taxes, among others. In developing forecasts for these sources, DOR analyzes economic trends, draws upon historical revenue data and develops econometric models.
 - **Department of Employment Security (DES).** DES analyzes and interprets Illinois labor market conditions in the context of national economic trends. DES provides employment and wage data for the econometric models that are used to forecast Illinois revenues, particularly individual income tax and sales taxes.

- **Governor's Office of Management and Budget (GOMB).** GOMB analyzes and reviews economic indicators, interprets economic forecasts and tracks state revenues. Major sources of revenues are tracked on a daily, semi-monthly, monthly and quarterly basis to provide timely information on the state's financial monitoring position.

Revenue Estimation Methodology

The state uses several different steps when developing revenue forecasts:

- **Data Collection.** Monthly and quarterly historical revenue data is obtained from a number of sources, including State of Illinois Comptroller records and DOR tax collection records. When possible, any one-time source of revenue is removed from the revenue stream for analysis purposes.
- **Econometric Modeling.** Econometric modeling is used to establish statistically significant relationships between economically sensitive revenue streams and various economic indicators. Several econometric models have been developed for major economically sensitive revenues, and the results from all models are regularly reviewed.
- **Evaluation of Models' Results.** The econometric models are evaluated for their ability to make accurate predictions. These statistical tests identify the strength of the relationship between variables and the econometric model's ability to make accurate predictions.
- **Review of Forecast Economic Indicators.** The national economic forecasting firms, *Moody's Economy.com* and *IHS Global Insight*, develop forecasts for core economic variables. These forecasts are reviewed by the CEA, GOMB, DOR and IDES.
- **Consensus of Forecast Indicators.** Reviews and group discussions result in a consensus of future expectations for key economic indicators.
- **Quantitative Forecasts of Revenues.** Forecast indicators are then used as inputs in the econometric models used to forecast the major tax revenues.

Economic Outlook And Revenue Forecast

State of Illinois

Uncertainty in Revenue Forecasts: Fiscal Year 2012 and Fiscal Year 2013.

Fiscal year 2011 saw significant tax policy changes. First, the federal government introduced 100 percent federal expensing of capital expenditures in December 2010, retroactive to October of that year. Second, state tax rate changes went into effect January 2011. Third, state tax law regarding the ability of firms to use Net Operating Losses went into effect for tax year 2012.

The various upward and downward revenue pressures associated with these initiatives make the fiscal year 2012 and fiscal year 2013 income tax forecasts potentially subject to wide margins of error.

In light of this above-average uncertainty, it will be prudent to review the fiscal year 2012 and fiscal year 2013 forecasts after the Department of Revenue has received, processed and analyzed income tax returns for tax year 2011.

Economic Outlook And Revenue Forecast

State of Illinois

Individual Income Taxes

Individual Income Taxes					
(\$ millions)					
Overview: Individual net income is taxed at 5 percent after December 31, 2010. The starting point for the Illinois Individual Income Tax is federal adjusted gross income. The adjusted gross income is modified by adding back certain items and subtracting out others.					
Recent Changes: The personal exemption (PE) will increase to \$2,050 from \$2,000 in tax year 2012. The Earned Income Credit (EIC) will increase from 5.0 percent of the federal credit to 7.5 percent in tax year 2012 and 10 percent in tax year 2013.					
	FY09	FY10	FY11	FY12 Estimate	FY13 Forecast
Gross Receipts (3 percent tax rate)	\$10,219	\$9,430	\$9,795	\$9,916	\$10,312
Gross Receipts (2 percent tax rate increase)	n/a	n/a	\$2,507	\$6,473	\$6,875
Lagged withholding	n/a	n/a	n/a	\$377	n/a
100% Expensing of Capital Expenditures	n/a	n/a	n/a	\$(260)	\$(163)
Increase in Earned Income credit	n/a	n/a	n/a	n/a	\$(56)
Increase in personal exemption	n/a	n/a	n/a	n/a	\$(30)
Changes to EDGE tax credit	n/a	n/a	n/a	n/a	\$(15)
Total Gross receipts	\$10,219	\$9,430	\$12,302	\$16,506	\$16,923
Refund Fund Deposit	\$996 9.75%	\$920 9.75%	\$1,076 8.75%	\$1,444 8.75%	\$1,650 9.75%
Net Receipts	\$9,223	\$8,510	\$11,226	\$15,062	\$15,273
Key Assumption: Illinois wages and salaries are expected to grow at 2.8 percent and 3.0 percent in fiscal years 2012 and 2013 respectively.					

Individual income tax (IIT) receipts have two main components: withholdings and non-withholdings. Withholdings are driven by wages and salaries and account for approximately 80 percent of total IIT receipts. In forecasting fiscal years 2012 and 2013 withholdings, the wages and salaries series used is derived from the Illinois Department of Employment Security (IDES) employment projections. Non-withholding receipts are driven by capital gains realizations, dividends, interest, rents and other variable income streams. Non-withholdings are paid through estimated payments and final payments. These forecasts come from *IHS Global Insight*.

The estimated underlying growth for fiscal year 2012 withholdings is 2.3 percent from fiscal year 2011. However, when withholding income associated with the increased tax rate is included, this growth rate is 24 percent. In April 2012, the state expects to receive an estimated \$377 million in withholdings that were not collected when the tax rate increase was implemented.

Fiscal year 2012 non-withholdings estimated underlying growth is 4.4 percent from fiscal year 2011. However, when non-withholding income associated with the increased tax rate is included, the growth rate is 66.7 percent. To avoid penalties on their 2011 income taxes, tax payers were required to make quarterly estimated payments of 50 percent above the tax year 2010 payments. In April of fiscal year 2012, taxpayers will make up any underpayments when they file their tax returns.

Combining these revenue streams, fiscal year 2012 gross IIT receipts are forecast to increase 34.2 percent. This growth is consistent with net receipts of \$15 billion. Fiscal year 2013 withholdings are forecast to increase 3 percent from fiscal year 2012. Fiscal year 2013 non-withholdings are estimated to increase 8.3 percent from fiscal year 2012. By combining these two components, fiscal year 2013 gross IIT receipts are forecast to increase 4 percent.

Tax provision changes that will impact fiscal year 2013 IIT gross receipts are: (1) the increase in Earned Income Tax Credit (EITC), and (2) the increase in Personal Exemption (PE). The EITC will increase from 5 percent of the federal credit to 7.5, and then 10 percent of the federal credit in tax years 2012 and 2013, impacting income tax revenue in fiscal years 2013 and 2014. The personal exemption will increase from \$2,000 to \$2,050. The impact of the tax changes on fiscal year 2013 receipts is noted in the prior table.

The state did not decouple from the federal government's bonus depreciation provision. By not decoupling, it is estimated that IIT receipts will be reduced by \$260 million in fiscal year 2012 and \$163 million in fiscal year 2013.

After accounting for the impact of bonus depreciation, increase in EITC, increase in PE, changes to the EDGE credit and refunds, fiscal year 2013 net receipts are forecast at approximately \$15 billion.

Given the high degree of uncertainty with regard to how bonus depreciation will impact fiscal year

Economic Outlook And Revenue Forecast

State of Illinois

2012 receipts, a review of the IIT forecast will be conducted at the end of April.

Corporate Income Taxes

Corporate Income Taxes (\$ millions)					
Overview: Corporations are taxed at 7 percent for net income earned after December 31, 2010.					
The starting point for the Illinois Corporate Income Tax (CIT) is federal taxable income. The federal taxable income is modified by adding back certain items and subtracting out others. The state collects an additional 2.5 percent Personal Property Replacement Tax on behalf of local governments.					
	FY09	FY10	FY11*	FY12 Estimate	FY13 Forecast
Gross Revenue at 4.8 percent Rate	\$2,073	\$1,649	\$2,106	\$1,971	\$2,030
Gross Revenue from 2.2 percent Rate Increase (estimate)	n/a	n/a	\$180	\$917	\$940
100% expensing of capital expenditures	n/a	n/a	n/a	\$(310)	\$(190)
Change in Apportionment of Exchanges	n/a	n/a	n/a	n/a	\$(43)
Live Theater Credit	n/a	n/a	n/a	n/a	\$(2)
Net Operating Loss Suspension	n/a	n/a	n/a	\$275	n/a
Net Operating Loss Cap	n/a	n/a	n/a	n/a	\$232
Total Gross Receipts	\$2,073	\$1,649	\$2,286	\$2,853	\$2,966
Refund Fund Deposit	\$363 17.5%	\$289 17.5%	\$426 17.5%	\$499 17.5%	\$416 14.0%
General Funds Revenue	\$1,710	\$1,360	\$1,851	\$2,354	\$2,550
*FY11 receipts were distorted in two ways by the amnesty program. First, baseline receipts include \$302 million in amnesty payments. Second, amnesty revenues were deposited into three "general funds", rather than the usual two.					
Key Assumptions: The State's estimate for FY12 assumes an underlying growth rate of 5.2 percent. The forecasted growth rate falls to 2.5 percent in FY13. FY12 and FY13 baseline revenue is reduced by \$29 million and \$20 million respectively, to account for the continued negative impact of the FY11 amnesty program.					

Fiscal year 2012 baseline Corporate Income Tax (CIT) receipts are forecast at \$2,000 million, a 5.2 percent increase. The baseline is then reduced by \$29 million, to \$2 billion, due to the fiscal year 2011 amnesty program. Gross CIT receipts associated with the 2.2 percentage point tax increase are forecast at \$917 million. Bonus depreciation reduces receipts by \$310 million,

while the full suspension of Net Operating Losses (NOLs) increases receipts by an estimated \$275 million. Total gross receipts are estimated at \$2,853 million. The refund rate for fiscal year 2012 is 17.5 percent, yielding a net CIT forecast of \$2.354 billion.

For fiscal year 2013, baseline CIT receipts are forecast at \$2.05 billion, a 2.5 percent increase. The baseline is then reduced by \$20 million, to \$2.03 billion, due to the continued negative impact of the fiscal year 2011 amnesty program. Gross CIT receipts associated with the 2.2 percentage point tax increase is forecast at \$940 million. Downward adjustments were made for: (1) bonus depreciation, (2) a change in how exchanges and clearing houses apportion income to Illinois and (3) the introduction of the live theater credit. An adjustment is also made for the cap placed on NOL use. Refunds for fiscal year 2013 are estimated at \$416 million, yielding a refund rate of 14 percent. The net CIT forecast for fiscal year 2013 is \$2.55 billion.

Tax policy changes, rather than economic conditions, have resulted in increased uncertainty in Corporate Income Tax forecasting. First, the CIT rate was increased for tax year 2011. The fiscal year 2011 forecast correctly assumed that firms would make estimated payments in the second half of fiscal year 2011, at the hold-harmless rate of 150 percent of the previous year. In order to avoid penalties, firms will have to pay 100 percent of their tax year 2011 tax liability by March 2012. However, two major policy factors complicate this picture: 100 percent federal expensing¹ of capital expenditures, and the suspension and capping of Net Operating Losses (NOLs). While overall estimates for these policy changes are based on sound methodologies², the year in which they impact state revenue is associated with a high degree of uncertainty.

¹ Section 401 of the Federal Tax Relief, Unemployment Insurance Reauthorization and Job Creation Act of 2010 (Public Law 111-312)

² For federal expensing, the Department of Revenue developed estimates for Illinois based on federal estimates made by the Joint Committee on Taxation (see JCT report JCX-54-10). The magnitude of the Department's estimate comports with estimates released by the Center for Budget Policy and Priorities (<http://www.cbpp.org/files/3-1-11sfp.pdf>) published in April 2011. The estimate for revenue generated as a result of NOL suspension and capping is based on the average NOL tax expenditure from 2000-2009, adjusting for the tax rate increase and growing by the underlying growth rate in CIT receipts.

Economic Outlook And Revenue Forecast

State of Illinois

Taxpayers may have a very accurate and timely picture of their tax liability and adjust estimated payments accordingly. Alternatively, they may not feel confident about projecting their tax liability until either March, when their final payments are due, or in October, the deadline for filing extended returns. The forecast assumes that because so many factors are changing simultaneously, most of the impact will be felt in March, with some residual being felt in October through changes in refund requests.

Much has been written about slow corporate income tax receipts growth at the federal level. Possible factors contributing to this are: companies keeping more of their profits in overseas subsidiaries, 100 percent federal expensing, and increased use of loss carry forwards. In Illinois, the fact that the state capped the use of NOLS in fiscal year 2012, will create upward pressure on state receipts compared with federal receipts. On the other hand, the state has a backlog of business refunds. This has led to a change in taxpayer behavior where firms are asking for carry forwards rather than refunds if they overpay business income taxes.

Given the high degree of uncertainty discussed above, a review of the CIT forecast will be conducted at the end of April.

Sales and Use Tax

Sales and Use Tax (\$ millions)					
<p>Overview: Sales of tangible personal property are taxed at a general rate of 6.25 percent of the purchase price. The state keeps 5 percent of the purchase price and distributes 1.25 percent of the purchase price to local governments. There are several major exemptions from the sales and use tax base, including food for off-premises consumption, drugs and manufacturing machinery, and equipment. Of state sales and use tax receipts (excluding receipts from sales of candy, soft drinks and certain grooming and hygiene products), 5.55 percent and 0.27 percent are deposited into the Build Illinois Fund and the Illinois Tax Increment Fund respectively. In some years, the Metropolitan Pier and Exposition Authority receives a portion of receipts. The remainder is deposited into the state's General Revenue fund. Receipts are also transferred into the Public Transportation, Metro East and Downstate Public Transportation funds. The state sales and use tax from sales of candy, soft drinks and certain grooming and hygiene products is deposited into the Capital Projects Fund. The dollar totals below are for the General Revenue Fund only.</p>					
	FY09	FY10	FY11	FY12 Estimate	FY13 Forecast
Revenue Excluding Amnesty	\$6,773	\$6,308	\$6,669	\$7,145	\$7,335
Amnesty-Related Payments	n/a	n/a	\$164	n/a	n/a
General Funds Revenue	\$6,773	\$6,308	\$6,833	\$7,145	\$7,335
<p>FY12 revenue is expected to increase 7.1 percent, excluding FY11 amnesty-related payments, based on forecasts for motor vehicle sales, motor fuel sales and other taxable retail sales. FY13 revenue is forecast to increase 2.7 percent above FY12.</p>					

Sales and use tax revenue is analyzed and forecast by dividing it into three components: motor vehicle sales, motor fuel sales and all other taxable retail sales.

Motor vehicle sales, which generated 14 percent of state sales and use tax revenue in fiscal year 2011, will continue to exhibit modest growth through fiscal year 2013. Projections put U.S. light vehicle sales at 13 million units for fiscal year 2012, and slightly above 14 million units for fiscal year 2013. These figures are still far below the pre-recession annual average of nearly 17 million units. Sales and use tax revenue from motor vehicle sales is expected to increase approximately 5 percent in both fiscal years 2012 and 2013.

Motor fuel sales, sales of gasoline, diesel, and associated blends, together generated 11 percent of state sales and use tax revenue in fiscal year 2011. Sales and use tax revenue from motor fuel sales will increase approximately 13 percent in fiscal year 2012, and approximately 2.5 percent in

Economic Outlook And Revenue Forecast

State of Illinois

fiscal year 2013. These increases are driven primarily by higher motor fuel prices. It should be noted that motor fuel sales are the most volatile component of sales and use tax revenue. Any number of events, such as instability in oil producing regions or refinery shut-downs following a natural or man-made disaster, can result in significant price, and thus revenues fluctuations. Of particular importance are the consequences of both the prospective embargo of Iranian oil imports by the European Union, and the escalating tensions between Iran (the world's third largest oil exporter), and members of the international community over the nature of Iran's nuclear technology. Related developments have the potential to suddenly increase the price of motor fuels beyond levels assumed in this forecast.

The "all other" category generated 75 percent of state sales and use tax revenue in fiscal year 2011 and includes, among other items, sales of household appliances, apparel, electronics, home improvement materials, furniture and restaurant meals. It also includes revenue related to sales and use tax audits, so "all other" projections are reduced by \$24 million in fiscal year 2012, and by \$29 million in fiscal year 2013, to account for downward pressure associated with fiscal year 2011's tax amnesty program. Revenue from the "all other" category is expected to increase approximately 6.5 percent in fiscal year 2012, thanks in large part to pent up demand accrued during, and following, the last recession. Pent-up demand accrues when consumers persistently hold-off on purchases due to economic uncertainty and pessimism, causing a sustained drop in associated sales and use tax revenue, such as in fiscal years 2009 and 2010. When economic conditions improve enough, consumers release the pent-up demand by increasing their spending significantly, often relying on precautionary savings built up during the downturn or on new credit. The release of consumer pent-up demand creates a spike in the associated sales and use tax revenue, such as what the state experienced in fiscal years 2011 and 2012. These spikes are not sustainable, however. Once the pent-up demand is released, it is expected that consumers will settle back into a level of consumption bound more by current and expected income. The "all other" category is forecast to increase by approximately 2.5 percent in fiscal year 2013. This is near, but below the historical trend, reflecting continued weakness in both the labor and housing markets and improved-but-still-cautious consumer sentiment. This forecast assumes that the federal government will

extend both the payroll tax cut and the emergency unemployment benefits currently scheduled to expire in early 2012.

Putting the three major components together, state sales and use tax revenue is estimated to be \$7.145 billion in fiscal year 2012, or growth of 7.1 percent over fiscal year 2011 (net of all 2011 amnesty-related payments). For fiscal year 2013, state sales and use tax revenue is forecast to be \$7.335 billion, or 2.7 percent growth over fiscal year 2012. This would mark a solid return to pre-recession levels of state sales and use tax revenue. The pre-recession peak of \$7.215 billion occurred in fiscal year 2008.

Public Utility Taxes

Public Utility Taxes (\$ millions)					
Overview: The Telecommunications Excise Tax is a 7 percent tax on the gross charges by businesses for transmitting interstate and intrastate messages, and its revenue is distributed to the General Revenue Fund, the Common School Fund and the School Infrastructure Fund. The Gas and Gas Use Taxes are imposed on businesses that distribute or sell natural gas for use or consumption in Illinois. The rate is the lesser of 2.4 cents per therm or 5 percent of gross revenue from each gas customer. All revenue goes to the General Revenue Fund. The Electricity Excise Tax is levied on a user's kilowatt-hours of electricity consumption or purchase price, depending on several factors. The rate depends on the level of consumption and the type of user. Revenue is distributed to the General Revenue Fund and the Public Utility Fund. The totals below are for only the General Revenue Fund and the Common School Fund combined.					
	FY09	FY10	FY11	FY12 Estimate	FY13 Forecast
Telecom- munications	\$593	\$550	\$587	\$509	\$525
Electricity	\$403	\$381	\$401	\$409	\$409
Natural Gas	\$172	\$158	\$159	\$164	\$167
Total	\$1,168	\$1,089	\$1,147	\$1,082	\$1,101
Telecommunications tax receipts will decline 13 percent in FY12, and increase 3 percent in FY13. Electricity tax receipts will increase 2 percent in FY12, and remain flat in FY13. Natural gas tax receipts will increase 3 percent in FY12, and 2 percent in FY13.					

Telecommunications Excise Tax

The telecommunications excise tax estimate for fiscal year 2012 is \$509 million, which is \$78 million, or 13 percent, below fiscal year 2011. This decline is the product of several factors. First, fiscal year 2011 revenue was artificially inflated by more than \$18 million in payments received under the 2011 tax amnesty program. Second, some of the amnesty payments received in fiscal year 2011

Economic Outlook And Revenue Forecast

State of Illinois

would have arrived as audit payments in fiscal year 2012, so 2012 receipts are depressed slightly. Third, fiscal year 2011 revenue was artificially inflated by taxpayer overpayments stemming from the tax treatment of certain wireless services. Fourth, lingering taxpayer credits related to these overpayments are reducing receipts in 2012. Finally, the continued contraction of landline services is putting downward pressure on receipts. Although the market for wireless services has increased dramatically, the Federal Internet Tax Freedom Act exempts most wireless data services, such as mobile broadband, from taxation. This limits the capacity of wireless services growth to offset tax losses related to the landline contraction. The forecast assumed that the increase in taxes from wireless services growth will eclipse the loss of taxes from landline abandonment in fiscal year 2013. This results in a forecast of \$525 million in telecommunications excise tax, a 3 percent growth over fiscal year 2012.

Electricity Excise Tax

Electricity excise tax receipts are sensitive to weather conditions, particularly summer conditions. Hotter weather increases demand for air conditioning, which increases electricity consumption and associated tax receipts. Based on data from the National Oceanic and Atmospheric Administration (NOAA), there were fewer cooling degree days, a unit of measurement that relates a day's temperature to demand for air conditioning, in fiscal year 2012 than in fiscal year 2011. NOAA forecasts show fewer cooling degree days still, in fiscal year 2013. This cooler summer weather puts downward pressure on tax receipts and is expected to offset most of the increased consumption from both the industrial sector's economic recovery, and the addition of new households to the residential electricity market. The electricity excise tax estimate for fiscal year 2012 is \$409 million, or 2 percent above fiscal year 2011. The forecast assumes no growth in fiscal year 2013.

Natural Gas and Gas Use Taxes

The natural gas and gas use taxes are also sensitive to weather conditions, but it is winter weather that matters most. Colder weather increases heating demand, which increases natural gas consumption and associated tax receipts. So far in fiscal year 2012, Illinois' autumn and winter temperatures have been above normal and above fiscal year 2011 temperatures, reducing heating demand across the state. Increased commercial

and industrial consumption related to the ongoing economic recovery, however, is helping to offset some of the weather-related drop in demand. NOAA forecasts higher heating demand for fiscal year 2013. The forecast assumes growth in commercial and industrial consumption to continue into fiscal year 2013, but at a lower rate. The natural gas and gas use tax estimate for fiscal year 2012 is \$164 million, or 3 percent above fiscal year 2011. The fiscal year 2013 forecast assumes 2 percent growth, for final receipts of \$167 million.

Cigarette and Other Tobacco Products Taxes

Cigarette and Other Tobacco Products Taxes (\$ millions)					
Overview: Cigarettes are taxed by the state at a rate of 98 cents per pack. Receipts are distributed to General Funds, the School Infrastructure Fund and the Long-Term Care Provider Fund according to a formula set by statute. Other tobacco products are taxed at 18 percent of the wholesale price. These receipts are deposited in the Long-Term Care Provider Fund.					
	FY09	FY10	FY11	FY12 Estimate	FY13 Forecast
General Funds Revenue	\$350	\$355	\$355	\$355	\$355
Total Cigarette Revenue	\$564	\$558	\$561	\$524	\$514
Other Tobacco Products	\$21	\$24	\$27	\$29	\$29
Key Assumptions: Over the forecast period, the forecast assumes 0.6 percent population growth and 0.3 percent of smokers successfully quitting.					

Cigarette sales in Illinois are a function of many variables including, the difference between the tax rate in Illinois and neighboring states, the federal tax rate, the smoking age population, and the general rate of smoking cessation. The Smoke Free Illinois Act and an increase in the federal tax rate have negatively impacted revenue. Trends in population, cessation and taxable consumption are extrapolated from current consumption levels to arrive at a revenue forecast. These assumptions yield a fiscal year forecast of \$524 million in 2012, and \$514 million in 2013.

Assuming no federal tax change in the future, taxes on other tobacco products are expected to remain constant at \$29 million per year throughout the forecast horizon.

Economic Outlook And Revenue Forecast

State of Illinois

Estate Tax

Estate Tax (Inheritance) (\$ millions)

Overview: The Illinois Estate Tax was repealed for people dying in calendar year 2010. The tax was then reinstated for people dying on or after January 1, 2011.

Public Act 97-0636, enacted on December 16, 2011, increased the estate tax exemption from \$2 million for people dying prior to January 1, 2012, to \$3.5 million for people dying on or after January 1, 2012, but prior to January 1, 2013. The exemption increases to \$4 million for people dying on or after January 1, 2013.

Tax receipts are deposited into the General Revenue Fund. Six percent of net revenue realized from the Illinois Estate Tax during the preceding month is then transferred from the General Revenue Fund to the Estate Tax Collection Distributive Fund. The revenue in this fund is then distributed to the county of residence of the decedent.

	FY09	FY10	FY11	FY12 Estimate	FY13 Forecast
Revenue	\$288	\$243	\$122	\$215	\$242

Key Assumptions: FY12 estate tax receipts will not be impacted by the \$3.5 million exemption that applies to people dying on or after January 1, 2012. There is a 10 month lag between when a person dies, and when taxes are received by the state. The \$3.5 million exemption will reduce FY13 estate tax receipts from November 2012 thru June 2013.

The value of each estate is reduced by an exemption amount in determining the taxable portion of the estate. Due to a 10 month lag, fiscal year 2012 estate tax receipts will not be impacted by the \$3.5 million exemption that applies to people dying on or after January 1, 2012.

The Estate Tax is due 9 months after the date of death, and paid to the County Treasurer of the county in which the decedent resided. The County Treasurer then remits the tax the following month to the state. Hence, there is a 10 month lag between the death of the decedent and, when the state receives the tax. If the federal tax is paid in installments, then the Illinois tax may also be paid in installments.

Fiscal year 2012 estate tax receipts are estimated at \$215 million. As expected, estate tax receipts increased significantly starting in November 2011 due to the tax being reinstated for people dying on or after January 1, 2011. Estate tax receipts for November 2011 through January 2012 were robust.

Fiscal year 2013 estate tax receipts are estimated at \$242 million. The \$3.5 million exemption effective January 1, 2012, will begin reducing fiscal year 2013 receipts in November 2012.

Liquor Taxes

Liquor Taxes (\$ millions)

Overview: Businesses that make or distribute alcoholic beverages within Illinois pay liquor taxes based on the volume and alcohol content of these beverages. Liquor taxes include assessments of 18.5 cents per gallon of beer or cider, 73 cents per gallon of wine, and \$4.50 per gallon of hard liquor. Additional state liquor tax rates apply, but revenue from these additional rates are earmarked for capital projects and are not included in the forecast totals or discussion below.

	FY09	FY10	FY11	FY12 Estimate	FY13 Forecast
General Fund Revenue	\$158	\$159	\$157	\$162	\$163

Alcohol consumption is relatively unresponsive to the business cycle, making a liquor tax a stable source of revenue. Looking at the revenue composition by type of alcohol in fiscal year 2011, hard liquor generated 53 percent of liquor tax receipts, beer and cider together generated 32 percent, and wine generated 15 percent. Liquor tax receipts for fiscal year 2012 are estimated at \$162 million. The forecast for fiscal year 2013 is \$163 million.

Economic Outlook And Revenue Forecast

State of Illinois

Insurance Taxes and Fees

Insurance Taxes and Fees (\$ millions)					
Overview: The Privilege Tax and the Retaliatory Tax are the most significant components of Illinois' insurance taxes. Both foreign and domestic insurance companies are liable for the tax. If another state charges Illinois insurance companies fees in excess of taxes and fees paid to Illinois, then Illinois imposes a retaliatory tax on non-Illinois insurance companies from those states. GRF includes a small amount of revenue from fines and penalties.					
	FY09	FY10	FY11	FY12 Estimate	FY13 Forecast
General Fund Revenue	\$334	\$322	\$317	\$302	\$285
Total Revenue	\$435	\$423	\$412	\$412	\$382
Key Assumption: Significant decline in privilege and retaliatory taxes in fiscal year 2012 and 2013 because of projected increases in offsets.					

Receipts to the General Revenue Fund are comprised largely of privilege, retaliatory and surplus line taxes. Even though gross taxable premiums are forecast to increase in fiscal year 2012 and fiscal year 2013, the forecast anticipates privilege and retaliatory tax revenue will decrease due to increases in offsets. The increased offsets are: Fire Department tax (a local tax that most municipalities collect); income tax increases; and the New Markets Tax Credit.

Total insurance tax revenue is estimated at \$412 million for fiscal year 2012, with general fund insurance tax and fee revenue estimated at \$302 million. Fiscal year 2013 general revenue insurance tax revenues are forecast at \$285 million. Total insurance tax revenue is forecast at \$382 million for fiscal year 2013.

Corporate Franchise Tax and Fees

Corporate Franchise Taxes and Fees (\$ millions)					
Overview: Illinois collects franchise taxes from corporations in the amount of 0.15 percent of paid-in capital when beginning business in the state, an additional 0.15 percent of any increase in paid-in capital during the year, and an annual tax of 0.10 percent of paid-in capital. The state levies fees for filing an annual report, articles of incorporation, amendment, merger, consolidation or dissolution. Two percent of the revenues collected from these sources are deposited into the Corporate Franchise Tax Refund Fund.					
	FY09	FY10	FY11	FY12 Estimate	FY13 Forecast
Corporate Division - General Revenue Fund	\$201	\$208	\$207	\$204	\$203
Key Assumptions: Corporate division revenue is forecast to experience a slight decline in FY12 and FY13.					

Each year a very small decline is experienced in the corporate franchise tax and associated revenue. This trend is being driven by relatively fewer firms registering as a C corporate structure with the Secretary of State. Franchise tax revenue and associated corporate division revenue for fiscal years 2012 and 2013 are forecast at \$204 million and \$203 million respectively.

Investment Income

Investment Income (\$ millions)					
Overview: Many state funds invested by the state treasurer earn income on their cash balances from investments, such as repurchase agreements, commercial paper, time deposits and certificates of deposit. This income is deposited into general funds and other specified funds based on each fund's pro-rated share of the total balance of all invested funds, or by specific statutory direction. The general funds receive the largest share of investment income.					
	FY09	FY10	FY11	FY12 Estimate	FY13 Forecast
Revenue	\$81	\$26	\$28	\$20	\$20
Key Assumption: Investment income started declining in FY09 as a result of reductions to short term interest rates taken by the Federal Reserve Bank to spur the national economy. Interest remains flat from FY12 to FY13.					

Economic Outlook And Revenue Forecast

State of Illinois

Cook County IGT

Cook County Intergovernmental Transfer (IGT) (\$ millions)					
Overview: The state receives a portion of federal Medicaid reimbursements paid to Cook County Hospital through an intergovernmental agreement. The agreement is designed to capture additional federal reimbursement by allowing the state to claim the maximum rates for Medicaid patients at the hospital.					
	FY09	FY10	FY11	FY12 Estimate	FY13 Forecast
Revenue	\$253	\$244	\$244	\$244	\$244
Key Assumption: The reimbursements the state receives from the intergovernmental agreement will remain the same through FY13 as a result of federal rules governing the maximum payments that hospitals can receive.					

Other Sources

Other Taxes and Fees (\$ millions)					
Overview: Other general fund sources are comprised of miscellaneous taxes and fees, proceeds from the sale of assets, and transfers from the Build Illinois escrow account to the state.					
	FY09	FY10	FY11	FY12 Estimate	FY13 Forecast
Vehicle Use Tax	\$27	\$30	\$30	\$31	\$29
Hotel Tax	\$41	\$29	\$33	\$42	\$43
Certificate of Title	\$28	\$27	\$28	\$28	\$27
Build Illinois Escrow	\$31	\$29	\$8	\$2	\$10
Chicago General Assistance	\$3	\$0	\$0	\$0	\$0
All Other	\$315	\$347	\$335	\$339	\$325
Total General Funds Revenue	\$445	\$462	\$434	\$442	\$434

Hotel Tax

Hotel Tax (\$ millions)					
Overview: Businesses that rent, lease or let hotel rooms to people for living quarters within Illinois pay tax at a rate of 6 percent of 94 percent of gross receipts. According to a formula set by statute, hotel taxes are deposited into the Build Illinois Fund, International Tourism Fund, Local Tourism Fund and Illinois Sports Facility Fund according to a formula set by statute. The remaining receipts are deposited into general funds.					
	FY09	FY10	FY11	FY12 Estimate	FY13 Forecast
Total Revenue	\$203	\$173	\$192	\$210	\$216
General Funds Revenue	\$41	\$30	\$33	\$42	\$43
Key Assumptions: Over the forecast period, the average daily room rate is expected to increase by 6 percent annually, while the average occupancy rate is expected to increase by 2.5 percent.					

Hotel tax receipts are a function of the volume of hotel rooms in the state, the occupancy rate and the price of rooms. According to the Chicago Convention and Tourism Bureau, there has been growth in both room rates and occupancy compared to fiscal year 2011. The 3-month average daily room rate from July to September 2011 was \$177.87 with an average occupancy rate of 82.9 percent, compared with \$171.67 in 2010 with an average occupancy rate 81.9 percent.

Based on the year-to-date data, and available forecasts, total hotel tax receipts are estimated at \$210 million for fiscal year 2012, and \$216 million for fiscal year 2013.

Economic Outlook And Revenue Forecast

State of Illinois

Lottery

Lottery (\$ millions)					
<p>Overview: The state receives approximately 27.6 percent of total lottery sales. The remaining 72.4 percent goes toward prizes, vendor fees and the lottery budget. The share of lottery revenue transferred to the Common School Fund (CSF) is to be no less than the FY09 level (\$625 million), indexed to inflation using CPI-U less energy (Consumer Price Index for urban consumers less energy prices). The only instance where transfers can be below the inflation indexed amount is if lottery revenue available for transfer falls below the inflation indexed level. Any amount in excess of the FY09 level indexed to inflation is used to fund capital.</p>					
	FY09	FY10	FY11	FY12 Estimate	FY13 Forecast
Transfer to Common School Fund	\$625	\$625	\$632	\$639	\$649
<p>Key Assumptions: The inflation rate is assumed to be 1.5 percent for FY13 CSF transfers. Inflation rate for FY12 CSF transfers is 1.3 percent.</p>					

In fiscal year 2012, Northstar Lottery Group has committed to a lottery net income target of \$851 million. After state retained expenses and management incentives, the revenue estimate is:

- \$639 million in transfers to the Common School Fund (CSF);
- \$4 million will fund specialty causes;
- \$132 million is expected to be available for transfer to the Capital Projects Fund at the end of the fiscal year.

In fiscal year 2013, Northstar Lottery Group has committed to a lottery net income target of \$950 million. Transfers to the Common School Fund will grow by the inflation rate. The first quarter of calendar year 2012, the 12-month-average rate of change in Consumer Price Index for all urban consumers, less energy (CPI-U less energy), is used to inflate the base transfer amount of \$639 million, to \$649 million in fiscal year 2013. Aside from an expected \$4 million in transfers to specialty causes, the amount of funds available for transfer above \$649 million will be used to fund debt issued to finance capital projects. Based on Northstar's commitment for fiscal year 2013, the state expects to have \$219 million remaining after state retained expenses and management incentives to help fund capital projects.

Gaming

Gaming (\$ millions)					
<p>Overview: The state imposes a graduated wagering tax on gross gaming revenues at the casinos. There is also a patron admission tax. That rate (for each casino) is based on the previous calendar year admission total. Occupational, owner and supplier license fees are also imposed.</p>					
	FY09	FY10	FY11	FY12 Estimate	FY13 Forecast
Transfer to Education Assistance Fund and General Revenue Fund	\$430	\$431	\$324	\$412	\$360
<p>Key Assumptions: FY12 includes \$72.5 million in one-time revenue from the sale of the Rivers Casino license. The one-time revenue will be deposited into the General Revenue Fund. The remainder will be transferred to the Education Assistance Fund. FY13 includes \$10 million in recurring revenue from the sale of the Rivers Casino license. FY10 included a transfer \$47.5 million to the General Revenue Fund.</p>					

The casino gambling industry is still struggling to regain traction and lift its way out of the recessionary losses. The opening of the new Rivers Casino in Des Plaines has increased the amount of gambling taking place in Illinois, yet it has failed to add new revenue to the state's tax collections.

There are several reasons gambling tax revenues have not increased in fiscal year 2012, but one stands out above all. The dilution of gambling at other Chicago area casinos by the Rivers Casino was more far reaching than expected. It was expected that Elgin Grand Victoria and Aurora Hollywood casinos would be negatively impacted, but the two Joliet casinos, 40 miles away, were considered to be too far. In general, small riverboat casinos tend to draw from a market area of 25 miles, and the market areas decrease with population density because of travel times associated with more traffic. It was on these grounds that no impact was predicted between the Joliet casinos and Rivers Casino. Both Joliet casinos did experience downward pressure and the dilution at Elgin was a bit higher than expected in the first few months. Each dollar that is gambled at the new Rivers Casino was taxed at a lower rate than the old casinos because they were already six months into their graduated tax payment schedule. The fiscal year 2013 revenue forecast assumes a 3.4 percent increase in wagering tax revenue. The increase is attributable to the Rivers Casino being operational for the entire tax year and consequently taxed at a higher effective rate.

Economic Outlook And Revenue Forecast

State of Illinois

Transfers In

Transfers In (\$ millions)					
Overview: Many non-general funds transfer varying amounts of money into the general funds pursuant to statutory provisions.					
	FY09	FY10	FY11	FY12 Estimate	FY13 Forecast
Lottery	\$625	\$625	\$632	\$639	\$649
Gaming	\$430	\$431	\$324	\$412	\$360
Build Illinois	\$232	\$196	\$255	\$290	\$307
U of I Hospital Services	\$0	\$22	\$0	\$0	\$0
Public Aid and DHS Recovery Trust Funds	\$23	\$24	\$10	\$4	\$4
MEAOb	\$15	\$0	\$28	\$38	\$38
Warrant Escheat	\$8	\$10	\$8	\$7	\$7
All Others	\$260	\$574	\$924	\$439	\$435
Total General Funds Revenue	\$1,593	\$1,882	\$2,181	\$1,829	\$1,800
Key Assumptions: See above for discussion of Lottery and Gaming revenues. MEAOB stands for receipts from Metropolitan Exposition Auditorium and Office Building share of taxes. FY11 All Others includes \$496 million in cash flow borrowing pursuant to 30 ILCS 105/5h.					

Federal

Federal Sources (\$ millions)					
Overview: The federal government provides grants and reimbursements to the Illinois general funds for Medicaid public assistance, social services and other programs.					
	FY09	FY10	FY11	FY12 Estimate	FY13 Forecast
Medical Assistance	\$4,000	\$3,324	\$3,836	\$3,331	\$3,462
Social Services Block Grant	\$68	\$80	\$58	\$81	\$80
TANF	\$460	\$439	\$425	\$4	\$4
Child Care Block Grant	\$62	\$76	\$68	\$2	\$2
All Other	\$411	\$395	\$417	\$387	\$387
Subtotal	\$5,001	\$4,314	\$4,805	\$3,805	\$3,935
Federal Recovery	\$1,566	\$1,607	\$581	\$0	\$0
Total General Funds Revenue	\$6,567	\$5,921	\$5,386	\$3,805	\$3,935

The fiscal year 2012 and 2013 forecasts assume a redirection of TANF and Child Care Block Grant receipts to other funds. This facilitates a shift of child care appropriations in the Department of Human Services from general funds, to federal funds. The fiscal year 2013 forecast assumes that the Department of Healthcare and Family Services will pay Medicare premiums for dual-eligible Medicaid enrollees from its general funds appropriation for Medical Assistance.

Economic Outlook And Revenue Forecast

State of Illinois

Motor Fuel Tax

Motor Fuel Tax (\$ millions)					
Overview: Illinois collects motor fuel taxes for the privilege of operating a motor vehicle on public highways, or a recreational watercraft on waterways in Illinois, in the amount of 19 cents per gallon of gasoline and 21.5 cents per gallon of diesel fuel. Tax receipts are deposited into the Motor Fuel Tax Fund. Tax receipts are then transferred to the State Construction Account Fund, State Boating Act Fund, Grade Crossing Protection Fund, State Road Fund and various local governments. Illinois also collects underground storage tank taxes for underground storage tank cleanup. These underground storage tank taxes are deposited into the Underground Storage Tank Fund.					
	FY09	FY10	FY11	FY12 Estimate	FY13 Forecast
Revenue	\$1,467	\$1,339	\$1,314	\$1,315	\$1,325
Key Assumptions: The assumptions for growth in taxable motor fuel consumption are flat for FY12 and 0.8 percent for FY13.					

Receipts from Illinois' motor fuel taxes appear to have declined significantly in recent years, but most of the apparent decline is illusory, for two reasons. First, fiscal year 2009 receipts were artificially inflated by \$107 million that technically belonged in fiscal year 2008. Second, changes to how payments of motor fuel taxes are administered under the International Fuel Tax Agreement (IFTA), reduced receipts to approximately \$40 million below normal in fiscal year 2010, and \$60 million below normal in fiscal year 2011. Although these administrative changes reduced receipts, they also caused a corresponding drop in associated refund

expenditures going out. This means that the net amount available to fund transportation projects was not affected by the IFTA-related decline in receipts. Looking forward, the forecast assumes the ongoing economic recovery to have a positive impact on taxable motor fuel consumption, but this impact will be constrained somewhat by the improving vehicle fuel economy and by relatively high fuel prices. The state's estimate for fiscal year 2012 is \$1.315 billion, which is essentially no growth compared to fiscal year 2011. The fiscal year 2013 forecast of \$1.325 billion assumes 0.8 percent growth.

Real Estate Transfer Tax

Real Estate Transfer Tax (\$ millions)					
Overview: The Real Estate Transfer Tax (RETT) is imposed on the privilege of transferring title to real estate or a beneficial interest in a land trust in Illinois. The state rate is 50 cents for each \$500 of value. Collections are deposited as follows: 50 percent into the Illinois Affordable Housing Trust Fund; 35 percent into the Open Space Lands Acquisition and Development Fund; and 15 percent into the National Areas Acquisition Fund					
	FY09	FY10	FY11	FY12 Estimate	FY13 Forecast
Revenue	\$46	\$40	\$38	\$40	\$43
Key Assumptions: Sales of existing homes is forecast to increase by 5.1 percent in FY12 and 8.0 percent in FY13. Continued decline in the sale of new homes is anticipated over the forecast period. Non-residential vacancy rates are expected to fall, albeit by less than a percentage point.					

The fiscal year 2012 RETT is estimated to show a slight increase over the previous year. This modest growth is forecast to continue through fiscal year 2013.

PUBLIC RETIREMENT SYSTEMS

This page intentionally left blank.

Public Retirement Systems

State of Illinois

OVERVIEW

Funding the five state retirement systems is one of Illinois government's greatest financial challenges. For decades, Illinois' unfunded pension liability has been significantly greater than all of the state's bonded debt combined.

The five state-sponsored retirement systems provide benefits to eligible public employees, public school teachers, public university and community college personnel, judges and members of the General Assembly. Contributions and investment income provide for the payment of benefits, refunds, administrative costs and the purchase of fund investments.

The following table shows active and inactive members and retirees by system. A table of current and estimated assets, liabilities and funded ratios is included at the end of this chapter.

Members of the Illinois Retirement Systems		
Pension Fund	June 30, 2011 Members	Annuitants
Teachers	285,485	101,352
University	161,533	51,370
State Employees	66,363	59,786
Judges	968	1,047
General Assembly	180	410
Total	514,529	213,965

FUNDING HISTORY

Under the Pension Code, the state is required to make an annual contribution to each retirement system. The five state retirement systems have been historically underfunded, resulting in an unfunded actuarial accrued liability.

By 1995, the unfunded liability was almost \$20 billion. To address this issue, the state enacted an annual funding schedule that became effective in fiscal year 1996 and is sometimes referred to as the "50-year funding plan." That funding plan was designed to achieve a 90 percent funded ratio by the end of fiscal year 2045. In each fiscal year beyond fiscal year 2045, the state must contribute the amount necessary to maintain the funded ratio at 90 percent for each retirement system.

The funding plan consists of two parts: (i) a 15-year "ramp-up period" of increasing state contributions

as a percentage of payroll, beginning in fiscal year 1996 and ending in fiscal year 2010 and (ii) a subsequent period of annual contributions equal to the level percent of payroll necessary to cause the funded ratio to equal 90 percent by fiscal year 2045.

While adoption of a statutory funding plan for the retirement systems was necessary, the 1995 unfunded liability of \$19.5 billion nevertheless grew to \$43 billion by 2003. That growth was largely attributable to the funding structure during the ramp-up period, which had the effect of deferring payment of the 1995 unfunded liability. As a result, the unfunded accrued actuarial liability will continue to increase until 2034. The unfunded liability growth was further exacerbated by benefit enhancements enacted in the late 1990s through 2002, without any corresponding additional funding.

The growth in actuarial accrued liabilities has outpaced the growth in the actuarial value of assets for several reasons. The state contribution levels required by statute have been less than the liability increases in those years. Those increases are associated with the benefits earned in each year (the "normal costs"), plus an annual interest charge because of the unfunded liability during that year. Other factors contributing to the increase in unfunded actuarial accrued liabilities include: investment returns being lower than the actuarially assumed rate of return and changes in actuarial assumptions. Salary increases less than the actuarial assumptions resulted in a small reduction in the unfunded actuarial accrued liability.

PENSION REFORMS

In an effort to reduce the growth in the unfunded liability, and thereby reduce future contribution requirements, the state has enacted a series of pension reforms. Most recently, the state established a two-tier benefit system in 2010 with reduced benefits for future employees. Such reforms will reduce the unfunded liability of the pension systems over time, and, accordingly, the annual contribution requirements of the state will be reduced. The annual budgetary impact of the reduced pension contributions will increase over time as an ever-increasing proportion of the then current employees are "tier-two" employees.

Public Retirement Systems

State of Illinois

CURRENT FUNDED STATUS

The five state retirement systems experienced favorable investment returns in fiscal year 2011. The fair market value of assets and the actuarial value of assets, determined by five year smoothing of returns, are now approximately equal. The fair value funded ratio of the plans improved from 38.3 percent in fiscal year 2010, to 43.3 percent in fiscal

year 2011, reflecting the favorable investment returns. The actuarial value funded ratio declined from 45.4 percent in fiscal year 2010, to 43.4 percent in fiscal year 2011, reflecting further recognition of investment losses incurred in fiscal years 2000 and 2009.

Funded Ratios (\$ millions)

	Fiscal Year	Net Assets (Fair Value)	Actuarial Liabilities	Funded Ratio (Fair Value %)
All State Retirement Systems ¹	2007	\$70,731.2	\$112,908.6	62.6%
	2008	\$64,700.5	\$119,084.5	54.3%
	2009	\$48,669.2	\$126,435.4	38.5%
	2010	\$53,225.1	\$138,794.3	38.3%
	2011	\$63,382.4	\$146,460.0	43.3%
State Employees' Retirement System	2007	\$12,078.9	\$22,280.9	54.2%
	2008	\$10,995.4	\$23,841.3	46.1%
	2009	\$8,477.9	\$25,298.3	33.4%
	2010	\$9,201.8	\$29,309.5	31.4%
	2011	\$10,970.8	\$31,395.0	34.9%
Teachers' Retirement System - Downstate	2007	\$41,909.3	\$65,648.4	63.8%
	2008	\$38,430.7	\$68,632.4	56.0%
	2009	\$28,531.3	\$73,027.2	39.1%
	2010	\$31,323.8	\$77,293.2	40.5%
	2011	\$37,471.3	\$81,299.7	46.1%
State Universities Retirement System (Defined Benefit Plan)	2007	\$15,985.7	\$23,362.1	68.4%
	2008	\$14,586.3	\$24,917.7	58.5%
	2009	\$11,033.0	\$26,316.2	41.9%
	2010	\$12,121.5	\$30,120.4	40.2%
	2011	\$14,274.0	\$31,514.3	45.3%
Judges' Retirement System	2007	\$670.1	\$1,385.3	48.4%

AGENCY SUMMARY OF OPERATIONS

The General Assembly is comprised of the Illinois House of Representatives and the Illinois State Senate pursuant to the state constitution. Two representatives and one senator from each of the 59 legislative districts serve the current, 97th General Assembly. Along with a number of supporting agencies, the General Assembly forms the state's legislative branch and is empowered to enact, amend and repeal laws; pass resolutions; inquire into laws; and pass the state budget.

AGENCY SUMMARY OF OPERATIONS

The Auditor General audits and reviews the receipt, obligation and use of public funds. As a principal agent of legislative oversight and public disclosure, the Auditor General conducts the Illinois Post Audit Program to strengthen control over government activity by providing accountability to the people and their elected representatives.

AGENCY SUMMARY OF OPERATIONS

The Supreme Court is the highest tribunal in Illinois and has general administrative and supervisory authority over all courts in the state. The court employs all judges in appellate and circuit courts across the state. Its administrative office supports the chief justice in preparing the budget, organizing payroll for judicial personnel and court reporters, assigning judges among circuits, and conducting training for judges.

www.cyberdriveillinois.com/departments/court_of_claims

AGENCY SUMMARY OF OPERATIONS

The Court of Claims serves any citizen with a claim of money damages or personal injury against a state agency or state employee. The court also compensates violent crime victims and families of those killed in the line of duty. The Court of Claims awards money that is owed to Illinois citizens, but has lapsed due to the close of the fiscal year.

AGENCY SUMMARY OF OPERATIONS

The Governor manages the executive branch of government. With the advice and consent of the Illinois Senate, the Governor appoints key administrators to boards, commissions and agencies. Additionally, the office works with the legislative branch to prepare and pass the annual state budget and enact new laws.

AGENCY SUMMARY OF OPERATIONS

The Office of the Lieutenant Governor's diverse duties derive from the governor, statute and personal initiative. These duties include serving as chair of the Governor's Rural Affairs Council, the Interagency Military Base Support and Economic Development Committee, and the three Illinois River, Mississippi River, and Wabash and Ohio Rivers Coordinating Councils. The current lieutenant governor acts as the governor's point person on education reform and serves as the ambassador to Illinois Main Street.

AGENCY SUMMARY OF OPERATIONS

The Secretary of State (SOS) maintains Illinois' official records and the state seal as its constitutional duty. The office maintains the 28 buildings on the Capitol Complex, oversees the state's network of libraries and preserves some of the state's most historic documents. The office is best known for issuing driver's licenses and license plates, which account for about 60 percent of the office's annual revenues.

AGENCY SUMMARY OF OPERATIONS

The Illinois Office of the Comptroller (IOC), as the state's chief fiscal officer, manages the state's central financial accounts. The office records and processes fund and accounting transactions, pre-audits grants, contracts and requests for payment. The office orders payments from state treasury-held funds by issuing warrants and electronic fund transfers, and provides leadership on fiscal issues affecting the State of Illinois and its citizens.

State Officers' Salaries – Footnotes

State of Illinois

1. Pursuant to the 1990 Report of the Compensation Review Board (Board) and the 1990 Senate Joint Resolution No. 192, all salaries reviewed by the board receive an annual Cost of Living Adjustment (COLA), effective every July 1st. The COLA is based on a federal index for the calendar year preceding the scheduled increase known as the "Employment Cost Index, Wages and Salaries, By Occupation and Industry Groups: State and Local Government Workers: Public Administration", published by the U.S. Department of Labor, Bureau of Labor Statistics. Pursuant to this index, all salaries are scheduled to be increased by 0.9 percent effective July 1, 2012.
2. Senate Committees: The 97th General Assembly decreased their number of committees from 29 to 26.
3. House Committees: The 97th General Assembly number of committees decreased from 54 to 45.
4. Pursuant to PA 91-25 and 91-798, the governor is allowed to set the salaries to amounts not to exceed 85 percent of the Governor's salary. The governor's authority to set these salaries was deleted by Public Act 096-0800.
5. Pursuant to PA 97-464, the Department of the Lottery and the Superintendent of the Lottery was created.
6. State Police Merit Board: Board members received \$237 per Diem in fiscal year 2011 and \$237 per Diem in fiscal year 2012. Board members will receive \$239 per Diem in fiscal year 2013, in accordance with the law.
7. Pursuant to PA 96-555, effective July 1, 2011, the compensation for each Executive Inspector General shall be made from appropriations made to the Comptroller for this purpose.
8. Illinois Racing Board: \$300 per Diem to a Maximum of \$12,527 for fiscal year 2011, \$12,527 for fiscal year 2012, and \$12,639 for fiscal year 2013, as prescribed by law.

Note: The requested appropriation amounts for State Officers' Salaries and Other Expenditures may be adjusted to reflect recommendations made by the state Compensation Review Board and/or appointment actions taken by the governor and General Assembly.

Office Of The State Treasurer

State of Illinois

ABOUT THE AGENCY

401 South 2nd Street
 Statehouse
 Suite 219
 Springfield, IL 62706
 217.782.2211
www.treasurer.il.gov

AGENCY SUMMARY OF OPERATIONS

The Office of the Treasurer receives all taxes and fees collected by the state and invests them in financial institutions across the state. As the chief investment officer and custodian of funds, the treasurer ensures the liquidity, safety and profitability of more than 600 active funds. As the countersigner of warrants, the treasurer ensures sufficiency of funds. The treasurer also operates an investment pool for local governments.

AGENCY SUMMARY OF OPERATIONS

The State Board of Elections is an independent state agency that supervises the registration of voters and the administration of elections throughout the state. Created by the Illinois General Assembly in 1973, the board serves as the central authority for all Illinois election law, information and procedures in Illinois.

AGENCY SUMMARY OF OPERATIONS

The Illinois Department on Aging administers a comprehensive service delivery system to serve the state's growing population of 2.3 million older adults and their caregivers, in coordination with 13 Area Agencies on Aging and various contracted direct service providers. The department operates home and community-based services to help older adults remain independent, including the Community Care Program, Elder Abuse and Neglect Program and the Long-Term Care Ombudsman Program.

PERFORMANCE MEASURES

Performance Metric	Actual			Estimated	Projected
	FY 2009	FY 2010	FY 2011	FY 2012	FY 2013
Community Care Program's (CCP) average monthly cost of care per person	\$723	\$819	\$805	\$845	\$871
Number of seniors receiving in-home and community-based services through the Community Care Program ^a	56,613	61,489	68,118	75,800	84,400
Number of deinstitutionalizations: transfers from institutional to community settings	267	202	330	380	440
Total number of screenings completed to prevent premature institutionalization and provide older adults with care options	94,037	97,499	98,015	98,757	101,153
Number of Circuit Breaker (CB) grants awarded	241,525	290,633	288,508	297,163	303,106
Percent of Circuit Breaker applications filed online	70.5%	73.0%	75.0%	78.0%	80.0%
Percent of Long Term Care Ombudsman complaints resolved	66.0%	65.0%	66.0%	66.0%	66.0%
Percent of family caregivers receiving supportive services through Illinois' Family Caregiver Support Program	8.0%	5.0%	4.0%	4.0%	4.0%
Number of Home Delivered Meals provided	7,852,114	7,584,674	7,330,519	6,721,434	7,330,500
Number of persons served with Home Delivered Meals	40,893	40,912	40,128	37,370 ^b	40,200
Percent of seniors receiving Older Americans Act services	28.0%	23.0%	22.0%	21.0%	21.0%
Percentage of seniors enrolled in Senior Employment Service Program who entered employment	43.8%	51.4% ^c	45.0%	42.8%	43.0%

^aThe data for fiscal year 2009 and beyond also include CCP clients who receive Emergency Home Response Service only.

^bIn FY12 the appropriation was decreased, while the program experienced increased costs per meal.

^cPercentage of seniors entering employment higher due to American Recovery Reinvestment Act funds.

AGENCY SUMMARY OF OPERATIONS

The Illinois Department of Agriculture advocates for Illinois' agricultural industry and provides regulatory functions to benefit consumers, the industry and natural resources. Last year the agency inspected 926,065 livestock and 113 million pounds of meat. In addition, the department inspects all scales and measuring devices to ensure consumer protection against fraud. The department also focuses on soil conservation and its impact on natural areas.

AGENCY SUMMARY OF OPERATIONS

The Department of Central Management Services (CMS) collaborates with state agencies to deliver essential services to Illinois taxpayers. By bringing private-sector discipline and best practices to its public-sector mission, CMS provides cost-effective administration of property management, information technology, telecommunications, human resources, employee benefits, purchasing, legal services, and vendor and employee diversity programs.

AGENCY SUMMARY OF OPERATIONS

The Illinois Department of Children and Family Services (DCFS) plans and coordinates child abuse and neglect prevention programs and services. Agency programs protect children who are reported to be abused or neglected, and work to increase their families' capacity to safely care for them. DCFS staff and private agency partners work to provide for the well-being of the children in our care and seek to secure permanent and stable living situations.

AGENCY SUMMARY OF OPERATIONS

The Department of Commerce and Economic Opportunity (DCEO) seeks to enhance the economic well-being for the state. DCEO focuses on expanding access to global market opportunities; promoting Illinois as a worldwide business locale; supporting companies that are creating jobs and investing in Illinois; connecting start-ups and entrepreneurs with opportunities for capital and expertise; developing our skilled, competitive workforce; and marketing Illinois to attract visitors and business development to the state.

www.dnr.illinois.gov

AGENCY SUMMARY OF OPERATIONS

The Department of Natural Resources (DNR) protects natural, recreational and cultural resources for present and future generations. DNR manages 324 state parks and recreational areas (more than 490,000 acres) and has repurposed 1,110 abandoned mined sites to date. In addition to funding conservation programs, the agency provides public safety by enforcing the law with its conservation police officers and by monitoring water supply from Lake Michigan. Each year, DNR outdoor recreation initiatives create a statewide economic impact of more than \$3 billion.

AGENCY RESOURCES EMPLOYED

Fund Category	Appropriations (\$ thousands)			Agency Submitted Headcount		
	FY 2011 Actual	FY 2012 Enacted	FY 2013 Recommended	FY 2011 Actual	FY 2012 Estimated	FY 2013 Target
General Funds	61,494.5	50,011.0	45,310.0	476.3	509.1	477.0
Other State Funds	158,291.7	168,749.1	148,240.3	689.5	604.0	599.2

AGENCY SUMMARY OF OPERATIONS

The Illinois Department of Juvenile Justice (DJJ) rehabilitates youth through unique institutional and programmatic services. This therapeutic and strength-based approach to programming, discharge planning and post release aftercare will reduce costs. It will also improve community safety by investing in community-based services and supports (when appropriate) and reduce recidivism.

AGENCY SUMMARY OF OPERATIONS

The Department of Corrections (DOC) operates secure correctional facilities, reduces costs by introducing alternatives to incarceration and ensures all incarcerated individuals receive mandated services. DOC promotes public safety in Illinois by implementing strategies that strive for maximum efficiency, programs that reduce recidivism and safe facilities that protect both inmates and workers.

AGENCY SUMMARY OF OPERATIONS

The Department of Employment Security (IDES) administers three major programs: Unemployment Insurance (UI), Employment Service (ES) and Labor Market Information (LMI). UI pays temporary benefits to unemployed workers and collects UI taxes from employers. ES connects employers with job seekers, including through Illinois JobLink, the federally funded labor-exchange system. LMI collects, analyzes and disseminates economic and workforce data in cooperation with the U.S. Department of Labor.

AGENCY SUMMARY OF OPERATIONS

The Department of Financial and Professional Regulation (DFPR) is comprised of three divisions: the Division of Banks (DOB), the Division of Financial Institutions (DFI) and the Division of Professional Regulation (DPR). DFPR oversees the regulation and licensure of approximately one million licensed individuals and entities, including banks and credit unions; mortgage brokers; currency exchanges; payday lenders; doctors and dentists; nurses; pharmacists; and real estate brokers. DFPR protects the rights of Illinois residents in transactions with regulated industries.

AGENCY SUMMARY OF OPERATIONS

The Department of Human Rights (DHR) is an impartial investigative and regulatory agency charged with administering and enforcing the Illinois Human Rights Act. The department promotes civil rights and works to reduce discrimination in Illinois. DHR encourages voluntary compliance through education of landlords and employers, but actively investigates alleged discriminators. The department investigates approximately 4,000 charges annually.

PERFORMANCE MEASURES

Performance Metric	Actual			Estimated	Projected
	FY 2009	FY 2010	FY 2011	FY 2012	FY 2013
Number of households served by either Medicaid, General Assistance, AABD, TANF or Non-Assistance Food Stamps. ^a	1,224,000	1,306,000	1,448,000	1,600,000	1,600,000
Number of households served through The Emergency Food Assistance Program (TEFAP) (food pantries, soup kitchens and homeless shelters)	1,800,000	2,200,000	2,600,000	2,600,000	2,600,000
Percent of Medicaid-eligible pregnant women active in FCM and WIC in the first trimester ^b	45.8%	45.5%	47.1%	45.7%	46.0%
The percent of women that smoke in the last three months of pregnancy	10.4%	11.4%	10.7%	10.0%	10.0%
Percent of WIC mothers that continue to breastfeed their infants at six months of age	26.0%	27.3%	27.3%	27.0%	27.0%
Percent of infants born weighing less than 2,500 grams	8.6%	8.5%	8.4%	8.4%	8.4%
Percent of 19-35 month olds who are fully immunized	78.5%	77.8%	75.9%	76.0%	77.0%
Percent of children living in Illinois who are under age 3 who are served by Early Intervention program	3.45%	3.56%	3.48%	3.50%	3.50%
People receiving Vocational Rehabilitation (VR) services as a percent of the estimated number of people with a significant work disability	18.7%	18.2%	17.5%	19.0%	19.0%
Number of people with disabilities receiving in-home services	33,652	34,280	33,976	33,750	34,000
Percent of VR program participants who become successfully employed (also known as the rehabilitation rate)	61.6%	57.7%	57.4%	60.0%	60.5%
Number of individuals served in Developmental Disability (DD) waiver settings	15,947	16,540	16,998	18,800	18,800
Number of individuals served in private Intermediate Care Facilities for Persons with Mental Retardation (ICF/DD) including Skilled Nursing Facility/Pediatrics	6,620	6,538	6,444	6,400	6,200
Number of individuals served in State Operated Developmental Centers (SODC's)	2,373	2,218	2,072	1,922	1,772
Number of Mental Health (MH) consumers enrolled in evidence-based supportive employment services	N/A	1,132	1,770	1,740	1,800
Number of MH consumers living in permanent supportive households	N/A	162	545	725	1,000
Number of refugees and immigrants receiving outreach and interpretation services	52,872	57,377	63,110	60,000	63,000
The average number of cases/families served through the Child Care program per month	91,100	90,100	87,900	87,900	87,900
Percent of clients discharged from alcohol and other drug treatment who completed services	51.0%	49.7%	47.5%	50.0%	50.0%
Percentage of mental health (MH) clients discharged that are readmitted within 30 days	15.12%	15.08%	14.94%	15.16%	14.00%
Persons receiving mental health treatment as a percent of the estimated number of persons in need of mental health treatment	24.0%	24.0%	23.0%	23.0%	25.7%

^aAid to the Aged, Blind, and Disabled (AABD) and Temporary Assistance for Needy Families (TANF) programs.

^bWomen, Infants and Children (WIC) and Family Case Management (FCM) programs.

AGENCY SUMMARY OF OPERATIONS

The Illinois Power Agency (IPA) develops and submits to the Illinois Commerce Commission (ICC) annual electricity procurement plans that ensure reliable, affordable and environmentally sustainable electric service at the lowest cost. IPA takes into account the benefits of price stability for Commonwealth Edison and the Ameren Illinois Utilities. The plans include electricity generated from renewable and clean coal resources. The agency conducts competitive procurement processes according to the procurement plans approved by the ICC.

AGENCY SUMMARY OF OPERATIONS

The Department of Insurance (DOI) protects consumers by monitoring and ensuring the solvency of Illinois-based insurance companies; enforces compliance by insurance companies and producers with state insurance laws and regulations; and works with insurance regulators from other states to maintain and enhance the efficiency of state-based insurance regulation. DOI oversees the regulation and licensure of insurance companies and producers. DOI responds to and evaluates complaints by Illinois residents in their transactions with the insurance industry. DOI will lead the state's efforts in setting up an insurance exchange and implementing the requirements of the Affordable Care Act.

AGENCY SUMMARY OF OPERATIONS

The Department of Labor (DOL) promotes and protects the rights, wages, welfare, working conditions, and safety and health of Illinois workers through enforcement of state labor laws. These laws include Minimum Wage Law, Wage Payment and Collection Act, Child Labor Law, Equal Pay Act, Victims' Economic Security and Safety Act, Prevailing Wage Act, Safety Inspection and Education Act, and Health and Safety Act. The department also regulates carnival and amusement rides under the Carnival and Amusement Ride Safety Act.

Department of the Lottery

State of Illinois

ABOUT THE AGENCY

101 West Jefferson Street
 Willard Ice Building
 Springfield, IL 62702
 217.558.4817
www.illinoislottery.com

AGENCY SUMMARY OF OPERATIONS

The Department of the Lottery, in conjunction with its private manager, develops, conducts and markets a variety of terminal-based and instant (scratch-off) lottery games; and licenses and regulates lottery ticket outlets. The department will be conducting and marketing internet lottery games. These activities generate revenue for education, capital projects, specialty causes such as veterans' assistance and breast cancer research, and provide entertainment for the residents of the State of Illinois.

AGENCY SUMMARY OF OPERATIONS

The Department of Military Affairs acts as the channel of communication between the federal government and the State of Illinois on all matters pertaining to the state military. The military forces are comprised of the Illinois Army National Guard and the Illinois Air National Guard. The guard has approximately 13,200 members and is responsible for carrying out a dual mission, federal and state. The guard's federal mission includes providing highly-trained, well-equipped personnel and units capable of rapid deployment when called upon by the president in time of war or national emergency. The state mission of the guard is to support civil authorities when called upon by the governor, in order to protect life and property and preserve peace, order and public safety.

AGENCY SUMMARY OF OPERATIONS

The Department of Healthcare and Family Services (HFS) provides healthcare coverage for children, adults, seniors and people with disabilities who qualify for Medicaid or other medical assistance programs. The department also helps ensure that Illinois' children receive financial support from both parents. HFS is organized into two major programs: Medical Programs and Child Support Services.

*** IMPORTANT NOTE:** General Revenue Fund (GRF) appropriations for HFS Medical Programs are being presented this year as a total sum, without line item detail. The administration intends to work with the General Assembly in the upcoming legislative session to create a package of cost reductions to achieve the goal of keeping the total GRF appropriation level for Medical Programs in fiscal year 2013 unchanged from fiscal year 2012, without an increase in unpaid bills. Therefore, the appropriation level is presented as a target, with the expectation that line item appropriations can be specified once cost reductions are set out in substantive legislation.

Department Of Public Health

AGENCY SUMMARY OF OPERATIONS

The Department of Public Health (DPH) promotes and protects the health of Illinoisans through the prevention and control of disease and injury. Programs and services include: childhood immunization; food, water and drug testing; hospital and nursing home licensure; infectious diseases control; vital records; health statistics collection and evaluation; newborn screenings for genetic disorders; women's health promotion; and emergency preparedness. These programs touch virtually every age, aspect, and stage of an individual's life and make Illinois a safer and healthier place to live.

AGENCY SUMMARY OF OPERATIONS

The Illinois Department of Revenue (DOR) serves as the tax collection agency for the state and for local governments. The department also regulates the manufacturing, distribution and sale of alcoholic beverages through the Liquor Control Commission, oversees local property tax assessments, administers grant program payments for local officials, and functions as the fiscal agent for the Illinois Housing Development Authority (IHDA).

AGENCY SUMMARY OF OPERATIONS

The Illinois State Police (ISP) protects Illinois citizens through patrolling Illinois roadways, providing forensic and police services to local law enforcement statewide, investigating homicides, seizing illegal drugs, responding to emergencies, and maintaining law enforcement information technology systems used by the criminal justice community. ISP's budget reflects a commitment to provide public safety for Illinois citizens with an emphasis on efficiency, integrity and accountability.

AGENCY SUMMARY OF OPERATIONS

The Illinois Department of Transportation (IDOT) works to improve the safety, mobility and efficiency of Illinois' intermodal transportation network by constructing and maintaining roads, transit systems, high speed rail, airports, bike paths and walkways. Active engagement in diversity recruiting, sustainable environmental practices and technology advancements are just a few of the many ways IDOT will enhance agency operations into the future. IDOT's investments have resulted in hundreds of thousands of jobs created throughout Illinois.

AGENCY SUMMARY OF OPERATIONS

The Illinois Department of Veterans' Affairs (IDVA) empowers veterans, their dependents and their survivors to thrive by assisting them in obtaining federal and state benefits and resources; by providing long-term health care for eligible veterans; and by partnering with other agencies and non-profits to help veterans address education, mental health, housing and employment challenges. IDVA's Central Office supports these programs, as well as the Illinois Warrior Assistance Program and the Veterans Cash grant program.

AGENCY RESOURCES EMPLOYED

Fund Category	Appropriations (\$ thousands)			Agency Submitted Headcount

AGENCY SUMMARY OF OPERATIONS

The Illinois Arts Council (IAC) provides technical and financial assistance to artists, arts organizations, schools, units of government and other arts providers. Each year, IAC grantees generate a workforce of more than 120,000 people. IAC initiatives promote economic growth through community and downtown revitalization projects and support after-school programs for at-risk youth. An expanded focus for IAC is to enhance fundraising, outreach and management capacities for organizations and artists.

AGENCY SUMMARY OF OPERATIONS

The Governor's Office of Management and Budget (GOMB) prepares the governor's annual state budget and advises the governor on the availability of revenues and the allocation of resources to agency programs. GOMB works closely with agency directors and chief financial officers to continuously improve and streamline services at a lower cost. The office also plans and oversees capital programs of the state and issues bonds in support of the capital program and other needs.

AGENCY SUMMARY OF OPERATIONS

The Executive Ethics Commission (EEC) promotes ethics in public service and ensures the state's business is conducted with fairness and integrity. EEC conducts annual ethics training and enforces the Ethics Act for the executive branch of state government. Chief Procurement Officers appointed by the EEC work with agencies and universities to meet their procurement needs while exercising independent authority, oversight and approval.

AGENCY SUMMARY OF OPERATIONS

The Capital Development Board (CDB) manages the design and construction of capital projects for the state in a timely, effective and fiscally responsible manner while spreading opportunities among qualified industry partners. The board also provides construction grants for schools, community health centers, early childhood development providers and other entities. CDB oversees the construction of state facilities, such as prisons, universities, mental health hospitals, and state parks. In addition, CDB is responsible for renovation and rehabilitation projects at the state's 8,644 state-owned buildings, which contain more than 96 million square feet of floor space.

AGENCY SUMMARY OF OPERATIONS

The Illinois Commerce Commission (ICC) ensures safe, reliable and economical utility services to the citizens of Illinois. ICC regulates the spending of utility companies while allowing them the opportunity to earn a reasonable profit. ICC also regulates trucking companies, natural gas pipelines, property warehouses and railroad crossings. In fiscal year 2013, ICC will add oversight of the repossession industry to its existing oversight of movers and towers.

AGENCY SUMMARY OF OPERATIONS

The Drycleaner Environmental Response Trust Fund Council (DERTF) licenses facilities providing drycleaning services to the general public and provides funding to assist in the cleanup of soil and groundwater contamination caused by the release of drycleaning solvents. Agency programs protect the state's drinking water, air and land through facility inspections and pollution prevention seminars focused on best management practices.

AGENCY SUMMARY OF OPERATIONS

The Illinois Deaf and Hard of Hearing Commission (IDHHC) represents the interests of the deaf and hard of hearing population by promoting the reduction of communication barriers throughout the state. Additionally, through the implementation of the Deaf Interpreter Licensure Program, IDHHC assures all deaf and hard of hearing consumers are afforded protection from unlicensed, unqualified sign language interpreters.

AGENCY SUMMARY OF OPERATIONS

The Comprehensive Health Insurance Plan (CHIP) provides health insurance coverage for Illinois residents through two coverage pools. The traditional pool, for medically uninsurable people, is funded by premiums and state general funds. People eligible for portability of coverage pursuant to the federal Health Insurance Portability and Accountability Act of 1996 (HIPAA) are covered through the HIPAA pool, funded by premiums, insurance industry assessments and federal grant funds.

AGENCY SUMMARY OF OPERATIONS

The Environmental Protection Agency (EPA) protects the quality of the air, land and water. To assure compliance, EPA issues nearly 7,400 permits to industrial facilities, landfills, public water supplies and wastewater treatment plants, and performs more than 6,600 compliance inspections. The agency finds approximately 1,500 violations each year. EPA's role in making grants to improve our drinking and wastewater systems will create thousands of jobs and protect our most precious natural resource.

www.gac.state.il.us

AGENCY SUMMARY OF OPERATIONS

The Illinois Guardianship and Advocacy Commission (GAC) safeguards the rights of people with disabilities. Today, GAC carries out its mission through the implementation of three programs: the Human Rights Authority (HRA), which investigates complaints of rights violations for disabled individuals and children residing in institutional or in community care; the Legal Advocacy Service (LAS), which provides legal advice to people with disabilities when private legal counsel is unavailable; and the Office of State Guardian (OSG), which serves as the guardian of last resort for adults with disabilities.

Illinois Historic Preservation Agency

State of Illinois

ABOUT THE AGENCY

1 Old State Capitol Plaza
 Springfield, IL 62701
 217.785.9045
www.illinoishistory.gov

AGENCY SUMMARY OF OPERATIONS

The Illinois Historic Preservation Agency (IHPA) operates 60 historic sites, which attract 2.2 million visitors and create an economic impact of more than \$185 million every year. The Abraham Lincoln Presidential Library and Museum is home to 12 million artifacts documenting Illinois history as well as the state's world-renowned Lincoln collection. IHPA programs identify and protect Illinois cultural and archaeological resources, and its tax incentive programs have sparked \$2.2 billion of private investment in historic rehabilitation projects since 2000.

AGENCY SUMMARY OF OPERATIONS

The Illinois Criminal Justice Information Authority (ICJIA) administers criminal justice in the areas of grants administration, research and analysis, policy and planning, and information systems and technology. ICJIA administers more than \$190 million in state and federal funding annually, provides the latest research to pinpoint and inform lawmakers of current crime trends and issues, and develops cutting edge technology to assist in data collection and provision. ICJIA identifies and incorporates evidence-based practices in strategic planning initiatives, grant administration and other areas.

State of Illinois

ABOUT THE AGENCY

1 Natural Resources Way
 1st Floor
 Springfield, IL 62702
 217.782.9068
www.illinois.gov/elrb

AGENCY SUMMARY OF OPERATIONS

The Illinois Educational Labor Relations Board promotes academic continuity, stability of the workforce and professional harmony in the Illinois educational system. The board conducts representation elections; processes card check petitions; investigates unfair labor practice charges; provides a mediation and settlement forum for labor and management to resolve labor disputes; conducts evidentiary hearings; and issues written decisions. The board enforces compliance with arbitration awards, rules on Fair Share fee objections and manages Fair Share escrow accounts.

AGENCY SUMMARY OF OPERATIONS

The Illinois Council on Developmental Disabilities (ICDD) invests with local and statewide agencies, organizations and individuals to implement the performance targets in the Five Year State Plan. Areas of emphasis include childcare, transportation, community supports, employment, housing, health, education/early intervention and quality assurance. ICDD promotes initiatives to coordinate services that support and assist people with developmental disabilities and their families. ICDD helps public and private entities respond to the needs and capabilities of people with developmental disabilities through promoting system changes, developing capacity building, and providing advocacy activities.

AGENCY SUMMARY OF OPERATIONS

The Illinois Violence Prevention Authority (IVPA) takes a public safety and public health approach to violence prevention and plans, coordinates, funds, assists and evaluates local and statewide violence prevention programs in Illinois. IVPA provides grants to these programs and initiatives, and also collaborates with other state agencies to deliver violence prevention efforts. IVPA provides program monitoring, program development and technical assistance support to help build the capacity and increase the effectiveness of funded programs.

AGENCY SUMMARY OF OPERATIONS

The Illinois Finance Authority (IFA) provides capital asset financing to 501(c)(3) organizations and manufacturing companies that retain and create jobs for the people of Illinois. IFA is the primary Illinois delivery system for federal tax benefits that support discounted financing of capital projects by qualified borrowers under the federal tax code (conduit debt). In addition to issuing conduit debt, IFA administers certain state-backed loan guarantee and credit enhancement programs (e.g., agricultural guarantees and moral obligations), as well as a limited number of loan programs.

Procurement Policy Board

State of Illinois

ABOUT THE AGENCY

511 West Capitol
 Suite 102
 Springfield, IL 62704
 217.785.3988
<http://www2.illinois.gov/ppb/Pages/default.aspx>

AGENCY SUMMARY OF OPERATIONS

The Procurement Policy Board reviews, comments upon, and recommends rules and practices governing the procurement, management, control and disposal of supplies, services, professional and artistic services, construction and real property, and capital improvement leases procured by the state. Specifically the board has responsibilities to review certain lease renewals and proposed contracts. The board also operates the Procurement Information Clearinghouse, which serves as a single source of information for all proposed contracts governed by the Illinois Procurement Code.

AGENCY SUMMARY OF OPERATIONS

The Illinois Workers' Compensation Commission (IWCC) resolves workers' compensation disputes in a fair and timely manner. IWCC processes 50,000-60,000 claims each year. On June 28, 2011, the Governor signed into law a major reform of the workers' compensation system. This reform will improve the existing medical utilization review process and implement a new fee schedule that reduces employer reimbursement rates by 30 percent. The new law is designed to ensure a fair, open and transparent adjudicatory process.

AGENCY SUMMARY OF OPERATIONS

The Illinois Gaming Board (IGB) administers a regulatory and tax collection system for gaming in Illinois, as mandated by the Riverboat Gambling Act, the Video Gaming Act and all applicable administrative rules. IGB assures the integrity of gaming in Illinois through strict regulatory oversight of casino operators, and licensing of individuals, entities and employees of gaming operations. IGB staff conducts audit, legal, enforcement, investigative, operational and financial analysis activities as mandated by law.

AGENCY SUMMARY OF OPERATIONS

The Illinois Law Enforcement Training and Standards Board (LETSB) provides public safety for Illinois residents through the establishment, evaluation, and improvement of selection and training standards for police officers. LETSB also certifies, funds and reimburses in-service training programs across the state, including mandatory death investigation training, at 13 different training institutes. In addition, the board operates an intern program that provides qualified individuals an opportunity to learn about law enforcement prior to being hired.

AGENCY SUMMARY OF OPERATIONS

The Illinois Racing Board (IRB) is responsible for the enforcement of the Illinois Horse Racing Act, which governs horse racing in the state. The board currently regulates racing at three thoroughbred tracks and two standard-bred (harness) tracks. IRB licenses and regulates off-track betting locations and advance deposit wagering. The board is also responsible for the audit and verification of all racing revenues and receipts.

AGENCY SUMMARY OF OPERATIONS

The Illinois Emergency Management Agency (IEMA) prepares, protects and assists the citizens of the State of Illinois through planning, prevention, training, mitigation, response and recovery to all hazards, natural or manmade. IEMA coordinates the state's disaster response, ensures state resilience to disasters through an all hazards approach, leads Illinois homeland security strategy and administers dozens of programs to protect the state from the potentially harmful effects of ionizing radiation.

AGENCY SUMMARY OF OPERATIONS

The Illinois Labor Relations Board conducts representation elections; investigates and remedies unfair labor practice; and processes information regarding arbitration and mediation that will serve parties in resolving labor-related disputes. The board also conducts emergency investigations, upon demand, of public employee strikes and strike threats to determine whether judicial proceedings are warranted to restrain or prevent strike activity that imperils the health and safety of the public.

Office Of The State Fire Marshal

State of Illinois

ABOUT THE AGENCY

1035 Stevenson Drive
Springfield, IL 62703
217.785.0969
www.sfm.illinois.gov

AGENCY SUMMARY OF OPERATIONS

The Office of the Illinois State Fire Marshal (OSFM) improves safety by increasing public awareness about fire hazards, public safety codes and fire prevention, while also enhancing firefighting and emergency response capabilities in local communities. OSFM personnel are committed to protecting the citizens of Illinois and property from fire and explosions through inspections, investigations, training, education and providing assistance to local fire departments.

AGENCY SUMMARY OF OPERATIONS

The Illinois State Board of Education (ISBE) provides resources to promote quality education and opportunities for growth and learning for all Illinois students. ISBE offers every Illinois student access to a strong education system with comprehensive programs to ensure college and career readiness and that students are prepared to ultimately compete in the global economy. ISBE promotes effective leadership to school districts and educators to ensure every school offers a safe and healthy learning environment for all students.

AGENCY SUMMARY OF OPERATIONS

The State Charter School Commission (SCSC) was established as an independent state agency effective November 1, 2011. SCSC authorizes high-quality charter schools throughout the state, particularly schools designed to expand opportunities for at-risk students. The commission will promulgate model charter authorizing practices and policies for adoption by Illinois districts. SCSC will manage state-authorized charter schools and develop rules for oversight and renewal activities.

DEBT MANAGEMENT

This page intentionally left blank.

Debt Management

State of Illinois

The governor, through the Governor’s Office of Management and Budget (GOMB), is responsible for the issuance of General Obligation (GO) and Build Illinois (BI) bonds. These long-term debt obligations, coupled with pay-as-you-go resources, are used to fund a wide range of capital projects and activities in the capital budget.

GOMB is charged with the management of the resulting indebtedness long after the funds have been used to support projects or grants. Due to the ongoing nature of this process, debt management is an integral part of the state’s budgeting process.

The state’s debt management goals are to:

- focus capital spending on projects with the greatest economic development impact;
- limit capital borrowing and funding to the current available revenue structure;
- borrow at the lowest possible cost and adapt to investor demand;
- monitor the state’s outstanding indebtedness for possible refunding opportunities;
- maintain ongoing relationships with the rating agencies to keep them apprised of the state's financial condition, and obtain the most favorable ratings in light of;
- foster the growth of minority-owned, female-owned and regional firms through participation objectives that afford these firms opportunities to work on the state’s debt-related activities.

ILLINOIS JOBS NOW!

Illinois Jobs Now! is an expansive \$31 billion capital program that focuses on putting money directly into the Illinois economy with the aim of spurring economic stimulus by creating jobs for the citizens of Illinois. *Illinois Jobs Now!* includes funding for schools, roads, transit, economic development, and environment and energy projects, thus providing an opportunity to invest in Illinois' future and workforce. Funding for *Illinois Jobs Now!* is provided by a combination of state debt, federal, and local matching funds. The debt service on the bonds issued is primarily supported by: (1) motor vehicle title fees; (2) license plate fees; (3) revenues from sales taxes on candy, sweet tea, coffee, grooming and hygiene products; (4) wine and spirits taxes; (5) licensing and taxation program for

video gaming terminals; (6) using existing monies deposited into the Road Fund; and (7) lottery improvements.

STATE-SUPPORTED INDEBTEDNESS

State Debt Profile – Capital Bonds

Figure 12-1 below reflects an issuance of approximately \$1.55 billion in fiscal year 2012 for General Obligation bonds, of which \$800 million has been issued as of February 22, 2012. Figure 12-2 reflects an estimated issuance of \$450 million in Build Illinois bonds, of which \$300 million has been issued as of February 22, 2012.

Debt Management

State of Illinois

State Debt Comparison

Illinois, one of the largest states both in terms of population and overall economy, is ranked 10th in the nation in net tax-supported debt as a percentage of gross state domestic product, according to the most recent Moody's State Debt Medians Report published in June of 2011. Illinois ranked 9th and 10th in the country, respectively, in net tax-supported debt per capita and as a percentage of personal income. Illinois' debt load as shown in this context is below other large states such as California, New York and New Jersey.

Municipal Bond Ratings

The state's outstanding indebtedness is rated by credit rating agencies that assign credit ratings (ratings) to issuers of certain types of debt obligations. The ratings are based on each agency's rating methodology. The credit rating agencies review the state's current and projected financial condition, economic growth, levels of indebtedness, pensions and other factors that affect the rating assigned to the state. Although the state's credit worthiness is reflected in the ratings for both programs, the Build Illinois credit is considered AAA by Standard & Poor's due to the state's pledge of a strong revenue stream and high debt service coverage. The state's current underlying long-term credit ratings are reported in Table 12-1.

Table 12-1
Long Term Underlying Ratings

	General Obligation Bonds	Build Illinois Bonds
Standard & Poor's	A+ Negative	AAA Stable
Moody's Investor Service	A2 Stable	A2 Stable*
Fitch Ratings	A- Stable	AA+ Stable

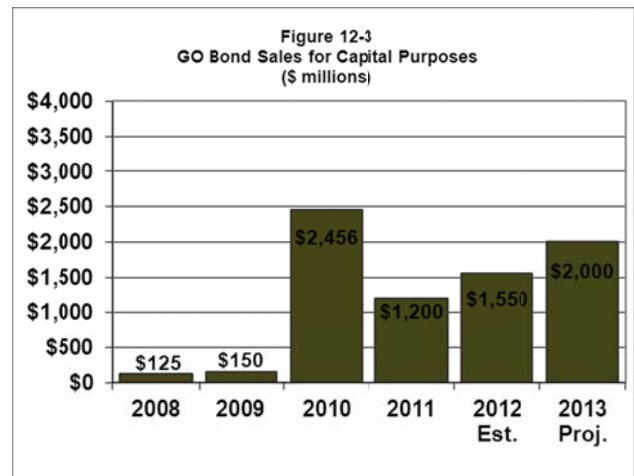

Minority-Owned and Woman-Owned Business Participation

Illinois is dedicated to the inclusion of Minority-Owned Business Enterprises (MBE) and Woman-Owned Business Enterprises (WBE) in its capital market financing. As Table 12-2 illustrates, the state has exceeded its goal of 19 percent MBE/WBE participation for the fiscal year for issuances in which the negotiated sale method was utilized. In fiscal years 2008 and 2009, with Bond Act restrictions requiring competitive sales, the percentage of MBE/WBE underwriter participation was zero because it was much harder for these firms to access the capital required to participate in and win competitive bids.

General Obligation Bonding Program

Program Overview. The General Obligation Bond program is the primary vehicle for capital market financing for the state. It is governed by the General Obligation Bond Act, 30 ILCS 330 et seq. (GO Bond Act). General Obligation bonds are secured by general tax revenues and guaranteed by the full faith and credit of the state. Proceeds are used for capital facilities, transportation, school construction, anti-pollution projects, economic development and coal development. Figure 12-3 presents bond sales between fiscal years 2008 and 2011, and estimates for fiscal years 2012 and 2013. The increase in bond sales in 2010 reflects the start of the *Illinois Jobs Now!* capital program.

Debt Management

State of Illinois

Build America Bonds. The American Reinvestment and Recovery Act temporarily created a new alternative to traditional tax-exempt financings for capital projects. These Build America Bonds are taxable but provide a 35 percent interest subsidy to the state from the federal government. The state authorized and issued a total of \$3.2 billion of GO Build America Bonds during fiscal years 2010 and 2011 as they provided a significantly lower cost of capital. For example, the \$1 billion Build America Bonds Series 2010-1 came at a total cost of 4.05 percent. If the state had issued traditional tax-exempt bonds instead, the total cost would have been approximately 50 basis points higher.

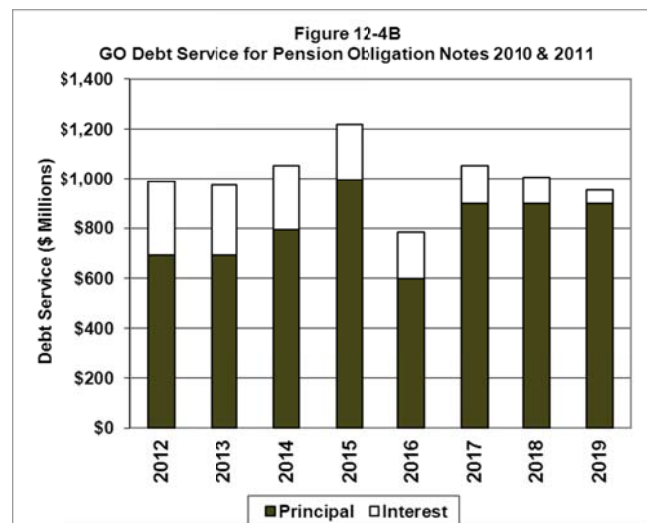

Capital Purposes. The GO Bond Act currently authorizes the state to issue GO bonds for the purposes and in the amounts listed below.

General Obligation Bonding Categories	
\$8,900,463,443	Capital Development - Construction funds for higher education, corrections, conservation, child care facilities, mental and public health facilities, local governments, the Open Land Trust program and other state capital purposes.
\$7,681,129,000	Transportation - Roads and bridge projects
\$4,762,670,000	Public Transportation - Air and rail
\$4,216,000,000	School Construction - Grants to school districts for school improvement projects
\$659,315,000	Anti-pollution - Construction of municipal sewage treatment plants, solid waste disposal facilities, deposits into the Water Revolving Fund and U.S. Environment Protection Fund, and funding claims under the Leaking Underground Storage Tar Program.
\$713,200,000	Coal and Energy Development - Research, development and demonstration of coal and alternate energy sources and financial assistance for new power generating initiatives.
\$250,000,000	Medicaid Enhancement Funding - Special purpose funding of Medicaid service due to the enhanced federal participation
\$17,562,348,300	GO Pension Bonds - For the funding or reimbursing a portion of the state's contributions to state retirement systems.
\$44,745,125,743	Aggregate GO Bond Authorization

Pension Obligation Bonds. GO-supported Pension Obligation Bonds (POBs) were issued in 2003 as replacement financing of pre-existing unfunded pension liability. Debt service payments on the POBs are supported by deductions from the unfunded liability payment that would have been required had the POBs not been issued and had the pension funds not received the additional funding. See Figure 12-A.

During the 2009 spring session, the General Assembly approved the issuance of \$3.466 billion in Pension Obligation Notes. These notes, to be repaid in five annual installments, funded the majority of the required contributions to the state's five pension funds for fiscal year 2010. The notes were issued on January 15, 2010. Fiscal year 2011 pension contributions were also completed through bond financing. In January 2011, the General Assembly approved the issuance of \$3.7 billion in Pension Obligation Notes, which were executed in February 2011. Future debt service on both 2010 and 2011 Pension Obligation Notes are shown in Figure 12-4B.

Security of the Bonds. GO bonds are direct general obligations of the state and by law the full-faith and credit of the state is pledged for the payment of interest and principal due on these bonds. The GO Bond Act provides that the sections of the GO Bond Act containing such a pledge shall

Debt Management

State of Illinois

not be repealed until all GO bonds issued under the GO Bond Act have been paid in full.

Continuing Appropriation. If there are insufficient funds in the General Revenue Fund or the Road Fund to make transfers to the General Obligation Bond Retirement and Interest Fund (GOBRI) or the General Assembly fails to make appropriations sufficient to pay the principal and interest on the outstanding GO bonds, the GO Bond Act allows for continued appropriation and the authority to direct the treasurer and the comptroller to make the necessary transfers from the revenues and funds of the state.

Debt Service Obligation. GO bonds are primarily supported by revenue realized in the state's General Revenue Fund. The primary revenue sources that repay GO bonds are sales taxes, income taxes and motor fuel taxes. In addition, bonds issued for certain capital investments are supported by the following budgetary resources:

- Roads and Bridges – GO bonds issued for road construction projects are primarily supported by motor fuel taxes received by the Road Fund.
- School Construction - GO bonds for school construction purposes are repaid in part from cigarette and telecommunications taxes received by the School Infrastructure Fund.
- *Illinois Jobs Now!* – GO bonds issued for *Illinois Jobs Now!* are primarily supported by revenue realized in the state's Capital Projects Fund.

Figure 12-5 below displays GO Capital Bond debt service for all bonds issued and expected to be issued by June 30, 2012, as well as debt service for anticipated future issuances of Capital bonds for the continuation of the *Illinois Jobs Now!* in fiscal years 2013-2018.

Refunding Bonds. The GO Bond Act also authorizes the issuance of General Obligation Refunding bonds in an amount up to \$4,839,025,000 outstanding. Refunding bonds are issued to refund or advance refund the GO bonds that are currently outstanding in order to take advantage of favorable market conditions and reduce the state's debt service.

Interest Rate Exchange Agreements. The use of derivative instruments, such as interest rate exchange agreements, allows the state to limit its exposure to interest rate fluctuations on variable rate bonds. An interest rate exchange consists of an agreement between two parties (known as counterparties) in which one stream of future interest payments is exchanged for another. One stream is fixed and the other is linked to the London Interbank Offered Rate (LIBOR) or Securities Industry and Financial Markets Association (SIFMA) rate. In October 2003, the state entered into fixed interest rate exchanges with five separate counterparties (as shown below) in connection with the issuance of \$600 million of variable rate GO bonds. This issuance remains the state's only derivative linked issuance.

Table 12-3
Interest Rate Exchange Agreements
(\$ in Millions)

Counterparty	Notional Amount	Moody's	Ratings S&P	Fitch

Debt Management

State of Illinois

Short-Term Debt. Pursuant to the Short-Term Borrowing Act (30 ILCS 340), if there is a failure in revenues, the state is authorized to issue short-term certificates or notes in an amount not to exceed: (a) 5 percent of the state's appropriations for that fiscal year if significant timing variations occur between disbursement and receipt of budgeted funds within a fiscal year and the debt is paid within that fiscal year; or (b) 15 percent of the state's appropriations for that fiscal year for up to 12 months. There is no short-term debt issuance planned for fiscal year 2013. Table 12-4 shows a five year history of the state's short-term borrowings. All of these issuances have been paid in full.

**Table 12-4
SHORT TERM CERTIFICATES ISSUED

*Hospital Assessment Conduit Financings (issued to provide liquidity to the State's Hospital Provider Fund to make supplemental payments to certain hospitals pursuant to the federally-approved Medicaid State Plan).

College Saving Bonds. In 1988, the College Savings Bond program was created as an alternate method of saving for future higher education expenses. This program allows Illinois citizens to invest in bonds that are secured by the General Obligation pledge. Additional financial grants, subject to appropriation by the General Assembly, may be available for students attending an Illinois higher education institution in the year the College Savings bonds mature. The last issuance of the College Saving Bond program was October 2002. See Table 12-5.

Build Illinois Bonding Program

Program Overview. The Build Illinois Bond Act (BI Bond Act), 30 ILCS 425 et. seq., established the Build Illinois Sales Tax Revenue Bonding program in 1985. The Build Illinois Sales Tax Revenue Bonding program complements the state's efforts in economic development by funding infrastructure, educational and vocational facilities, and environment protection projects; and by providing incentives for business location and expansion in Illinois. Figure 12-6 displays bond sales between fiscal years 2007 and 2013. The increase in bond sales in 2010 reflects the start of the *Illinois Jobs Now!* capital program.

**Figure 12-6
Build Illinois Bond Sales
(\$ millions)**

Debt Management

State of Illinois

Capital and Grant Purposes. The BI Bond Act authorizes the state to issue Build Illinois Sales Tax Revenue Bonds (BI bonds) for the purposes, and in the amounts, listed below:

Build Illinois Bonding Categories	
\$3,213,000,000	Infrastructure – Construction, reconstruction, modernization and extension of the state's infrastructure
\$1,741,358,100	Education – Educational, scientific, technical and vocational programs and facilities, and the expansion of health and human services
\$208,150,900	Environmental – Protection, restoration and conservation of the state's environmental benefits
\$541,000,000	Economic Development – Incentives for the location and expansion of businesses in Illinois resulting in increased economic benefits.
\$5,703,509,000	Aggregate BI Bond Authorization

Security of the Bonds. BI bonds are limited obligations of the state payable solely from a senior lien on (a) 3.8 percent of the state's sales tax revenues (BI Tax Act amount); and (b) all additional state sales tax revenues (other than 1.75 percent thereof). This is applicable to the extent that the BI Tax Act amount is insufficient in any month to provide the amounts required by the BI Bond Act to be transferred to the Build Illinois Bond Retirement and Interest Fund (BIBRI Fund).

Debt Service Obligation. The state has pledged that the governor shall include in each annual state budget, and the General Assembly shall annually appropriate for each fiscal year, the required bond transfer from the BIBRI Fund. The estimated transfer amount should either equal the annual debt service requirement for the fiscal year, or the BI Tax Act amount for the fiscal year, whichever is greater.

The required bond transfer is pursuant to the BI Bond Act and the Master Trust Indenture. The BI Bond Act further provides that, in the event that such an appropriation is not made, the BI Bond Act provides the treasurer and comptroller the authority to make the necessary transfers and deposits, and to make the payments of principal and interest to support outstanding BI bonds. Further, bonds issued under the *Illinois Jobs Now!* capital program are supported by revenues in the capital projects fund.

Refunding Bonds. BI Refunding bonds may be issued for the purpose of refunding or advance refunding any BI bonds previously issued under the BI Bond Act.

OTHER STATE-SUPPORTED INDEBTEDNESS

State-Supported Revenue Bonds. Revenue bonds are either those bonds for which the state earmarks a specific revenue source for debt service, or bonds under which the state is committed to retire debt

issued by certain state authorities or Illinois municipalities pursuant to law. The state's commitment is based upon various Illinois statutes and upon contractual arrangements with the issuing authorities. Table 12-6 identifies the bonding program's name, issuing authority or agency, and total revenue bonds outstanding for each respective program. See the appendix following this chapter for a complete debt service schedule.

Table 12-6
Other Revenue Bonds Outstanding
(Projected as of June 30, 2012)

Bonding Program	Issuing Authority/Agency	Bonds Outstanding (\$ in Millions)
Civic Center Bonds	Metropolitan Exposition and Auditorium Authorities	\$ 72.8
Dedicated State Sales Tax Revenue Bonds	Metropolitan Pier and Exposition Authority	\$ 13.8
McCormick Place Expansion Project Bonds	Metropolitan Pier and Exposition Authority	\$ 2,437.4
ISFA Bonds	Illinois Sports Facilities Authority	\$ 438.3
Certificates of Participation	Central Management Services	\$ 16.1
	Total	\$ 2,978.4

Certificates of Participation. The state has incurred certain long-term obligations in the form of certificates of participation, to finance renovations and buildings that are leased to state agencies. The total amount outstanding is displayed in Table 12-6 above. No additional debt obligations of this type have been incurred since 1996, and the authorization subsequently ended with PA 93-0839.

STATE-RELATED INDEBTEDNESS

Moral Obligation Pledges. Seven state bond authorities are currently permitted to issue moral obligation bonds. Regional authorities use the state's moral obligation pledge to issue bonds. The governor has pledged to request the General Assembly to support the debt service requirement of the enhanced bonds, if the borrower defaults. The moral obligation pledge may be invoked by the issuing authority if it determines that it does not have sufficient resources for the payment of principal and interest in the upcoming year. At that time, the authority must certify to the governor the amount of that deficiency and request state appropriations for the amount of the shortfall. Table 12-7 shows the number and outstanding amount of all bond issues currently bearing the state's moral obligation pledge.

Debt Management

State of Illinois

Table 12-7

Upper Illinois River Valley Development Authority	2	\$ 19.6
Tri-county River Valley Development Authority	0	\$ -
Will-Kankakee Regional Development Authority	0	\$ -
Illinois Finance Authority	29	\$ 91.7
Illinois Housing Development Authority	7	\$ 0.3
Total	43	\$ 141.1

State law requires each authority to certify amounts withdrawn from bond reserve funds to pay principal and interest on moral obligation bonds. The amounts are recommended for annual appropriation in the governor's executive discretion.

The moral obligation does not legally require the governor to recommend an appropriation. Moreover, the General Assembly is not statutorily required to make an appropriation for an authority's certified amount, nor must the governor sign any such appropriation bill if passed by the General Assembly.

Moral Obligation Bonds in Default. Currently, there are four moral obligation enhanced projects that are in default and receive financial support from the state. The two regional development authorities, Southwestern Illinois Development Authority (SWIDA) and Upper Illinois River Valley Development Authority (UIRVDA), have certified that in fiscal year 2012 there will not be sufficient resources to pay the amounts due on certain bonds issued from 1998 to 2000 and backed by the moral obligation pledge.

Table 12-8 shows the principal remaining at the end of calendar year 2011, as well as the appropriation request necessary to fund debt service anticipated in fiscal year 2013.

Agricultural Loan Guarantees. The Illinois Finance Authority (IFA) administers loan guarantee programs for lenders to qualifying farmers and agribusiness borrowers. The guarantees are backed by reserve funds held by the IFA and a

standby continuing appropriation from the General Revenue Fund. Annual continuation of a loan guarantee requires lenders to perform borrower and collateral monitoring pursuant to IFA guaranty agreement policy.

In the event of a default, up to 85 percent of an outstanding loan balance may be paid to a secured lender, with the first 15 percent of losses from subsequent collateral recovery to be incurred by the lender. Table 12-9 below summarizes the current loan guarantee programs the IFA administers.

Table 12-9

Total	\$ 385.0	\$ 56.2	\$ 34.4	\$ 131.0	\$ 17.7

Illinois Student Assistance Commission State Guarantee. Pursuant to authority granted under the provisions of Section 152 of the Higher Education Student Assistance Act, cite 110ILCS 947 the Illinois Student Assistance Commission, (ISAC) has designated its Student Loan Revenue bonds, as guaranteed by the state (the guaranteed bonds). The guaranteed bonds were issued in May 2009 in the aggregate principal amount of \$50 million. The state's guarantee constitutes a pledge of punctual payment of the principal and interest on the guaranteed bonds as they become due, whether at maturity or upon redemption. The guarantee of the state is limited to bonds designated by ISAC in an aggregate principal amount not greater than \$50 million.

Railsplitter Tobacco Settlement Authority. In December 2010, the Railsplitter Tobacco Settlement Authority (Railsplitter) issued revenue bonds in the amount of \$1.5 billion. After funding Railsplitter's various business purposes, including funding a debt service reserve fund, the State sold under the Master Settlement Agreement (MSA) its right to payments to Railsplitter for \$1.35 billion.

The state used these funds to pay outstanding fiscal year 2010 obligations, with payments made in December 2010 at the end of the extended lapse period for that fiscal year. The MSA calls for the various participating cigarette manufacturers to make annual payments, which are allocated among the various participating states. In recent years, Illinois has received between \$275 and \$300 million per year from the MSA. These funds have been used to fund a variety of health-related and

Debt Management

State of Illinois

other programs of the state. Railsplitter purchased the state's rights to 100 percent of the MSA payments but, by the terms of the purchase, may keep only the amount of funds required each year for debt service, costs of operations and enforcement of the MSA by the State Attorney General. Any excess amounts (Excess MSA Payments) must be transferred to the state. The funds required by Railsplitter for these purposes are expected to average approximately \$150 million per year during the life of the bonds which is approximately 17 years.

The revenue bonds issued by Railsplitter are secured only by the MSA payments, and the state is not obligated in any way to pay principal and interest on these bonds. However, as a result of the Railsplitter bond financing, other revenues will be needed to fund those portions of the health-related and other programs previously funded by the MSA payments now retained by Railsplitter. These revenues could include amounts in the General Revenue Fund. In addition, Railsplitter has a priority claim on all MSA payments to be received by the state. If those amounts should decline in future years, the state's share of any Excess MSA Payments will be correspondingly reduced.

Demographic Information

State of Illinois

ILLINOIS DEMOGRAPHICS

With a population of nearly 13 million people, Illinois is the 5th most populous state in the country. Geographically, Illinois is richly diverse. Covering more than 56,000 square miles, the state is nearly 400 miles from Rockford in the north, to Cairo in the south. Across the state, there are distinct regions ranging from the Northern Stateline Region bordering Wisconsin, to the

Southern Region that overlooks the confluence of the Mississippi and Ohio rivers. Two regions encompass the largest metropolitan areas of Illinois. The Northeast Region covers the Chicago metropolitan area, and the Southwest Region is part of the St. Louis metro area. Other regions in the state represent areas that share similarities in employment, commuting patterns and other important social and economic characteristics.

Two-thirds of the state's population is in the Chicago-Naperville-Joliet Metropolitan Statistical Area (MSA). The six largest MSAs in Illinois account for more than 85 percent of the state's population. Between 2000 and 2010, all but three of Illinois' 11 metro areas increased in population, contributing to the state's overall population growth of 3.3 percent. Over the same period, the average age of the Illinois population increased, with 55 - 64-year-olds the fastest growing age

group. Conversely, the number of people in Illinois ages 35 to 44 decreased by more than 257,500, a drop of more than 13 percent. Married couples decreased slightly as a share of overall households, while "non-family households" (people living alone and householders sharing the home with non-relatives) continued to increase their share of total households.

Demographic Information

State of Illinois

ILLINOIS HEALTH STATISTICS

In 2008, the Illinois infant mortality rate increased to 7.2 deaths per 1,000 live births from the 6.6 rate recorded in 2007. Nationally, the infant mortality rate decreased from 6.8 infant deaths per 1,000 live births in 2007, to 6.6 per 1,000 births in 2008.

The death rate for African-American babies increased 3.0 percent to 13.9 per 1,000 live births, more than twice the rate for infants born to Caucasian mothers. Among white babies, the infant mortality rate rose to 5.8 from 5.3 deaths per 1,000 live births.

Geographically, the infant mortality rate in Chicago for 2008 was 8.1 deaths per 1,000 live births, an increase of 2.5 percent from the 2007 rate of 7.9. The infant mortality rate for African-Americans in

Chicago was 14.1 in 2008, up from the 13.0 deaths per 1,000 live births recorded in 2007, while deaths for white infants declined from 5.5 in 2007 to 5.3 in 2008. The downstate (all geographic areas outside the city of Chicago) infant mortality rate increased from 6.2 in 2007, to 6.8 in 2008. The downstate rate in 2008 for African-American babies was 13.6, a decrease from 14.0 in 2007, while the rate for whites increased from 5.2 in 2007 to 6.0 in 2008.

In 2008, 1,263 babies (367 in Chicago and 896 downstate) died before their first birthday, compared to 1,196 infants (366 in Chicago and 830 downstate) in 2007, 66 percent died within the first 27 days of life. The total number of births in 2008 was 176,634, a 2.2 percent decrease from the 180,530 recorded in 2007.

State of Illinois

LEADING CAUSES OF DEATH

Heart disease remains the leading cause of death in Illinois. In 2008, diseases of the heart accounted for 25 percent of all deaths, 201.4 deaths per 100,000 population.

Deaths from malignant neoplasms (cancer), the second leading cause of death, is slightly lower at 24 percent. The rate for malignant neoplasms is 188 deaths per 100,000.

The number of HIV cases reported in each of the last two decades remains steady but the year over

year rate continues to drop. In comparison, the number of AIDS cases has declined significantly when comparing the same 10 year periods.

The total of 22,555 HIV cases from 2000 to 2009 compares to 22,944 from 1990 to 1999. As noted in the chart below the annual rates of reported cases continues to decline. Reported cases of 2,143 in 2005 dropped to 1,708 in 2010, a decline of 20 percent. AIDS cases numbered 20,115 from 1990 to 1999. In the ten year period from 2000 to 2009 they had decreased to 12,834, a reduction of 36 percent.

GLOSSARY

This page intentionally left blank.

Glossary

State of Illinois

ALPLM - Abraham Lincoln Presidential Library and Museum

Abusive Tax Shelters - Any plan or arrangement devised to avoid paying federal and state income tax, including but not limited to, "listed transactions" as defined by the Internal Revenue Service.

Accrual Method - Recognizing when transactions occur, not when money is exchanged. In other words, income is counted when the sale occurs, but expenses are counted until the goods or services are received.

Activity Measure - Information or data used to quantify the delivery of state services. For instance, the number of people served or the number of cases closed.

Ad Valorem Tax - A tax assessment levied on the actual or estimated value of an item or service, rather than its usage.

All Funds - Every fund appropriated to, or spent by, an agency.

American Recovery and Reinvestment Act (ARRA) - The federal government's \$787 billion plan to jump-start the U.S. economy and create jobs.

Annualize - To provide full-year funding for the next fiscal year when a program is started or a person is hired part way through the current fiscal year.

Appropriation - Spending authority from a specific fund for a specific amount, purpose and time period.

Assessments - A levy imposed for a specific purpose.

Attrition - Natural reduction in caseload or staff. For example, attrition through retirement or resignation.

Authorization - An act of the legislature that establishes or continues a program or agency and sets forth the guidelines to which it must adhere.

Available Fund Balance - The total amount of money in a fund at a particular point in time, typically at the beginning of a month or year.

Balanced Budget - A balanced budget occurs when total receipts equal total outlays for a fiscal year.

Balance Sheet - Presentation of the financial condition at a specific point in time including assets, liabilities and fund balance.

Basis of Accounting - The method of accounting used to track and report state revenues and expenditures. For example: cash-budgetary or accrual.

Benchmark - A measurement that allows comparison to other similar organizations. This can be used to track performance over time.

BIBRI - Build Illinois Bond Redemption Fund

Bond - A debt security that grants the holder specific and binding authority to receive a return of principal and periodic interest payments up to and including the instrument's maturity. The state uses bonds to finance long-term capital projects.

Bond Fund - A fund that receives proceeds from the sale of bonds to be used for capital projects.

Bond Rating - An assessment of the credit risk with respect to a specific bond issue.

Bond Retirement and Interest Fund - A fund used to repay principal and interest on bonds or other debt obligations, typically spent pursuant to a continuing and irrevocable appropriation.

Budgetary Balance - Available cash balance on June 30, minus lapse period spending for the fiscal year just ended.

Budget Authority - Authority provided, by law, to incur financial obligations that will result in outlays.

Budget Deficit - The excess of expenditures over revenues in a fiscal year.

Build Illinois - A state economic development and public infrastructure program begun in 1986 and primarily funded by dedicated state sales tax revenue bonds.

Budget Resolution - The annual framework that sets targets for total budget authority, total outlays, total revenues, and the deficit, as well as discretionary and mandatory allocations within the spending targets.

Glossary

State of Illinois

Budgeting for Outcomes - Process of budgeting where an annual budget is based on how effectively programs provide results that citizens value, rather than being based on the money allocated in the previous fiscal year.

Cap - Legal limit on annual discretionary spending.

Capital - Buildings, structures, equipment and land. Acquisition, development, construction and improvement of capital is typically funded through bond funds.

Capital Budget - A capital budget is a spending blueprint that identifies capital projects that invest in assets with a long, useful life for the state.

Capital Expenditures - Includes expenditures from all aspects of the capital budget: financial and physical planning, land acquisition, architecture and engineering, construction and durable equipment purchases, and grants and loans to other entities for capital purposes.

Case Management - Monitoring and oversight of the delivery of services, which may include coordination of all services to a client.

Caseload - The number of clients being served at a point in time, sometimes used in the context of clients per staff.

Cash Flow - The amount of cash available during a period of time, calculated by subtracting spending from the sum of the receipts and the beginning balance.

Census - Population measure, typically of clients in a facility or program.

Certificate of Participation - Similar to bonds or other debt instruments; a security issued by the state or a third party gives the holder a share of the stream of annual appropriated lease payments made by the state.

Client - A person or family receiving services.

Commodities - Consumable items used in connection with current agency operations. For instance, household, medical or office supplies; food for those in institutions; coal, bottled natural gas; and equipment costing less than \$100.

Common School Fund - One of four funds that comprise the state general funds. It is used to fund elementary and secondary education. If revenues from the lottery, bingo, public utilities, cigarette and sales taxes and investment income, among others, are insufficient to make monthly general state aid payments, the Common School Fund receives automatic transfers from the General Revenue Fund.

Consent Decree - An agreement between both parties in a lawsuit that binds them and determines their rights and obligations. While made under sanction of the court, it does not bind the court, and it is not a judicial sentence.

Continuing Appropriation - Statutory authority that allows the comptroller and treasurer to spend funds in the event the legislature fails to appropriate necessary funds or appropriates an insufficient amount for a specified purpose.

Continuing Resolution - Provides for the ongoing operation of the government in the absence of enacted appropriations, usually at the same spending rate as the prior year.

Contractual Services - Services provided by a non-state employee or vendor including utilities; medical services for those in institutions; professional, technical or artistic consulting; and property and equipment rental.

Debt Service - Payment of principal, interest and other obligations associated with the retirement of debt.

Debt Held by the Public - The cumulative amount of money the state has borrowed from the public and not repaid.

Debt Limit - The maximum amount of state debt that may legally be outstanding at any time. It includes both the debt held by the public and the debt held by government accounts. When the debt limit is reached, the government cannot borrow more money until the legislature has enacted a law to increase the limit.

Dedicated Funds - Revenues assessed and collected for a specific state program.

Deficit - See Budget Deficit

Glossary

State of Illinois

Depreciation - The allocation of the value of capital assets over time.

Discretionary Spending - Spending that the legislature controls through annual appropriations.

Divisions - Organizational units within agencies for programmatic or administrative purposes.

Education Assistance Fund - One of four funds that comprise the state general funds. It is used to fund elementary, secondary and higher education. It receives 7.3 percent of the state income tax net of refunds, as well as wagering taxes paid to the state by riverboat casinos.

EEO - Equal Employment Opportunity

Electronic Data Processing (EDP) - Computer or other data processing equipment and related services including supplies, services and personnel.

EMAP - Emergency Management Accreditation Program

Employee Retirement Contributions Paid by State (Pension Pick-Up) - Employee's required contribution to the State Employees' Retirement System, which an agency has chosen or contracted to make on behalf of the employee.

Entitlement - Program benefits that must be provided in a timely fashion to those who meet eligibility criteria and that may not be taken away without due process.

Equipment - Non-consumable items used in connection with current agency operations, such as office furniture, vehicles, machinery, and scientific or other major instruments and apparatus.

Executive Branch - The branch of government charged with carrying out and effectuating the law through the day-to-day operations and activities of state government. The governor, as chief executive officer of the state, is responsible for the operation and administration of state agencies.

Executive Order - A decree or mandate issued by the governor for the purpose of interpreting or implementing a provision of the law.

Expenditures - State spending. Agencies submit payment vouchers to the comptroller's office, which prepares a state check (warrant) and maintains accounting records.

Federal Aid - Funding provided by the federal government.

Fiscal Note - A statement attached to a bill giving the estimated amount of increase or decrease in revenue or expenditures, and the present and future fiscal implications of a bill.

Fiscal Year - Illinois state government's fiscal year is July 1 through June 30. This is the period during which obligations are incurred, encumbrances are made and appropriations are expended. The federal government's fiscal year is October 1 through September 30.

FPL - Federal Poverty Level

FTE - Full Time Equivalent

Full Faith and Credit - A pledge or promise to repay general obligation debt.

Full-Time Equivalent (FTE) - A calculated measure of full-time employment for comparison purposes. Each full-time employee works 37.5 hours per week for 52 weeks per year.

Fund - An account established to hold money for specific programs, activities or objectives.

Fund Balance - The amount of cash available in a fund as of a given date.

GASB - Governmental Accounting Standards Board

General Funds - Refers to the following group of funds, inclusively: the General Revenue Fund, the Education Assistance Fund, the Common School Fund and the General Revenue-Common School Special Account Fund.

General Obligation Bonds - Bonds issued for capital purposes as direct legal obligations secured by general tax revenues and guaranteed by the full faith and credit of the state.

Glossary

State of Illinois

General Revenue-Common School Special Account Fund - Used for accounting purposes to receive 25 percent of state sales tax and subsequently transfer these moneys to the Common School Fund.

General Revenue Fund - The largest of four funds that comprise the state general funds. It receives the majority of undedicated tax revenues, mostly income and sales taxes, for use to operate and administer state programs.

General State Aid (GSA) - An unrestricted, formula-driven grant that comprises the largest portion of state assistance to local school districts. The amount of funds a district receives depends on its financial need, which is measured by its average daily attendance, its equalized assessed valuation of property, its local tax measured by its statutory tax rate and its concentration of low-income families within the district.

GCDHC - Governor's Commission on Discrimination and Hate Crimes

GFOA - Government Finance Officers Association

GOMB - The Governor's Office of Management and Budget; serves the governor's financial, management and budgeting needs by providing accurate, timely and objective information.

Grant - An award or contribution to be used either for a specific or a general purpose, typically with no repayment provision.

Group Insurance - Life and health insurance program for all state employees, retirees and their dependents.

Headcount - The number of employees at a specified period of time, typically either the actual number of staff working or a calculated full-time equivalent.

Highway Fund - A fund that receives special dedicated revenues related to transportation. For example, the motor fuel tax and federal highway trust funds are to be used to support the construction and maintenance of transportation facilities and activities.

Hiring Lag - The savings in personal services and benefits associated with the time period between an employee leaving the job and a replacement being hired.

I-CLEAR - Integrated Citizens and Law Enforcement Analysis and Reporting System.

Illinois FIRST - A \$12 billion, multi-year public works initiative begun in fiscal year 2000. Half of the money is provided from bond proceeds, with the remainder covered by a combination of local, state and federal resources.

Income Tax Surcharge - Originally a temporary increase of 0.5 percent in the state personal income tax and 0.8 percent in the corporate income tax established in July 1989 to fund education, local governments and property tax relief. Subsequently, in July 1991, half of the surcharge was made permanent and dedicated to education. The remaining half was made permanent in July 1993.

Infant Mortality - Measure of infant deaths during the first year of life per 1,000 live births.

Infrastructure - The foundation or framework of a system or organization; it is indispensable to supporting the purposes and operations of a wide range of public and private sector entities and activities. The physical infrastructure of the State of Illinois is the framework of facilities including prisons, universities, mental health centers and state parks; and the transportation network encompassing highways, bridges, airports, public transit rail, freight rail and passenger systems.

Inputs - The time, money, personnel and other resources necessary for a program to function.

IT - Information technology

ITECS - Illinois Transportable Emergency Communications System

Judicial Branch - Charged with interpreting and applying laws.

Lapse - The portion of an appropriation that is not spent during the authorized period, typically the fiscal year, including the lapse period.

Glossary

State of Illinois

Lapse Period - The two-month period following the fiscal year (July 1 to August 31) when agencies can liquidate liabilities incurred before the end of that fiscal year (June 30).

Lapse Period Spending - Spending that occurs during the lapse period from the previous year's appropriation.

LESO - Law Enforcement Support Office

LEED - Leadership in Energy and Environment Design standard for green building design.

Legislative Branch - Charged with making and enacting the law, including appropriations.

Legislative Transfer - Reallocation of appropriation amounts among line items by the general assembly during the fiscal year. Distinguished from a 2 percent transfer, which may be accomplished by the executive branch without participation of the legislative branch.

Line Item - Specific purpose of an appropriation.

Liquidate - To settle or pay a debt, or to convert assets into cash.

Local Government Distributive Fund - Receives one-tenth of the income tax proceeds to the general funds, via a transfer, for distribution to units of local government based on population. Funds may be used for any purpose.

Lump Sum - Appropriation line for a general program purpose without specific line items identified.

Managed Care - The process of coordinating and controlling all services provided to a client to assure efficient and effective results.

Mandate - A law or regulation that generally should be followed, whether or not funding is provided. The State Mandates Act permits certain regulations and laws to be ignored if funding is not provided.

Mandatory Spending - Controlled by permanent law rather than annual appropriations.

Match - Contribution to a program that is required to receive a program grant, may be either money (hard match) or services (soft match).

Medicaid - Public assistance financed jointly by the state and federal governments to provide medical care for individuals who meet certain eligibility criteria.

Modified Accrual Basis - The basis of accounting under which revenues should be recognized during the accounting period in which they become available and measurable. Expenditures should be recognized during the accounting period in which the fund liability is incurred, if measurable, except for unmatured interest on general long-term debt, which should be recognized when due.

Moral Obligation - A duty that is not binding or enforceable by law. Typically, debt service on bonds issued by others that the state agrees to consider funding if the issuer is unable to pay. There is no legal guarantee the state will make such payments.

MD - Metropolitan District

MSAs - Metropolitan Statistical Areas

N/A - Not available

NFIRS - National Fire Incident Reporting System

NITE - National Information Technology Equipment

Obligations - Binding agreements that result in immediate or future outlays.

Opportunity Returns - A program created in 2003 to coordinate state, federal and local economic development expenditures in the state and organize development activities in 10 distinct economic regions.

Other Funds - All state and federal funds except the four general funds.

Other Operations - Administrative, nongrant expenses of state agencies, except salaries and payments for fringe benefits. For example, contractual services, travel, printing and telecommunications.

Outcome - Reliable and valid translation of activity measures and output measures into a framework that allows observers to determine if a program or policy has met its goal.

Glossary

State of Illinois

Outlays - Payments to liquidate obligations, largely measured on a cash basis.

Outputs - The results of program activity; products and services delivered to a program's clients.

Pay-As-You-Go - Requirements that new mandatory spending proposals or tax reductions must be offset by cuts in other mandatory spending or by tax increases.

Peer Group - A relevant sample of similar agencies or organizations. Peer group can be defined by size, geography, complexity, function, etc.

Pension - Money paid under given conditions to a person following retirement or to surviving dependents.

Pension Liability - Pension liabilities arise due to an underfunding of the pension trust. When the underfunding exceeds the accumulated benefit obligation, a liability must be recognized.

Per Diem - By the day. A set amount of money paid for each day.

Performance Measure - Information or data used to determine the quality and outcomes of state services. For instance, the number of people who receive jobs following job counseling and employment services or the number of people who remain off drugs following treatment services.

Personal Services - Salary payments to employees.

Phase-In - Staged expenditure pattern, such as initiating a program, hiring employees or opening an institution over time (see Annualize).

Pilot Program - Tentative model for future full scale development, typically a program operated in a limited area or targeted to a limited population to analyze its effectiveness before expanding its scope.

Position Title - Name and description of a job.

Printing - Contractual services, materials and supplies used to produce and print information.

Program - A separately identifiable and managerially discrete function within an organization designed to meet a statutory requirement or a defined need; a set of activities undertaken to realize one common purpose with an identifiable end result or outcome.

Reappropriation - An unspent appropriation that continues into the next fiscal year.

Recommended - Governor's budget requests presented to the general assembly for its approval.

Receipts - Sometimes called revenues, the collection of money from taxes, fees and similar government powers to compel payment.

Refunding Bonds - Bonds issued to refinance other outstanding bonds, which generally were originally issued at higher interest rates.

Refunds - Return of funds to the rightful owner, typically return of overpaid taxes or fees.

Repair and Maintenance - Upkeep, restoration and improvement of equipment and facilities in connection with current agency operations.

Reserve - Portion of appropriation intentionally set aside and not spent, either to increase lapse or as a contingency for increased liabilities in other line items.

Resources - All assets available for use by agencies, whether appropriated or not.

Retirement - Line item for employer's share of contributions to the state retirement system.

Revenues - Receipts from taxes, fees, assessments, grants and other payments used to fund programs.

Revolving Fund - Receives intergovernmental payments charged for providing central operational services such as computer, purchasing, state garage and telecommunications.

Road Fund - Receives motor fuel tax and other transportation-related revenues to operate the Department of Transportation, Illinois State Police and the Secretary of State's office, and to build and maintain roads, bridges and other transportation facilities.

Glossary

State of Illinois

Shared Services Program - A multi-year program to reorganize state resources into high-performance, technology-based Shared Services Centers in order to more efficiently and effectively fulfill common service needs.

SEOC - State Emergency Operations Center

Social Security - Employer's share of contributions to the Federal Insurance Contributions Act (FICA) tax.

Special State Funds - All state funds except the general funds, bond-financed funds, debt service funds, federal trust funds and state trust funds.

State Agency - Government organization created by statute to administer and implement particular legislation.

Statute - A law enacted by the General Assembly and approved by the governor.

Structural Deficit - When the collective expenses of state obligations increase at a rate faster than the revenues received during an extended period covering more than one fiscal year.

Substitute Care - A program to place children away from their families in foster homes or residential facilities.

Superfund - The federal environmental program established to address certain hazardous waste sites.

Supplemental Appropriation - Additional spending authority given by the General Assembly during the fiscal year, following passage of the initial budget.

Surplus - Amount by which receipts exceed outlays in a fiscal year.

Target - A quantifiable metric to which an organization aspires. Incorporates elements of both performance and time to enable ranking of performance.

Transfer - Reallocation of resources, typically movement of money from one fund to another or shift of appropriation authority among line items.

Trust Fund - Receives revenues assessed and collected for a specific state program.

Two Percent Transfer - Reallocation of appropriation amounts by the governor during the fiscal year, limited to two percent of an agency's appropriation, by fund, for specific operations lines. This is different from a legislative transfer, which requires approval by the legislative branch.

Unified Budgeting - Process of budgeting for long-term health care where services are jointly managed by the departments of Human Services, Health and Family Services and Aging, to assure tax dollars are spent most efficiently and effectively to meet long-term care needs of older adults and people with disabilities who qualify for state assistance.

Unobligated Balance - Funding that has been approved or is available, but not yet obligated for any particular purpose.

VESSA - Victims' Economic Security and Safety Act

VOCA - Victims of Crime Act

Voids - Checks (warrants) that are not cashed.

Voucher - Document submitted to the comptroller requesting payment.

Warrant - Check issued by the comptroller to a third party who cashes it with the treasurer.

Zero Coupon Bonds - Bonds without interest coupons for semi-annual payment. Interest accrues over the life of the bond and is paid at maturity along with the principal.
