Of that, there are 18 series of General Obligation bonds that have a primary repayment source outside of the General Revenue Fund, these bonds are the full faith and credit of the state and will draw upon the General Revenue Fund if their primary revenue is insufficient. The following method is used to calculate the transfers into the General Obligation Bond Retirement and Interest fund for debt service on all General Obligation bonds outstanding. On or before the last day of each month the State Treasurer and Comptroller shall transfer an amount sufficient to pay the aggregate of the principal of, interest on, and premium, if any, on bonds payable, by their terms on the next payment date divided by the number of full calendar months between the date of such bonds and the first such payment date, and thereafter, divided by the number of months between each succeeding payment date after the first. Such computations and transfers shall be made for each series of bonds issued and delivered.
