## THE STATE

The State of Illinois, with a population of approximately 12.9 million persons, is a state of diversified economic strength. Measured by per capita personal income, the State ranks fourth among the ten most populous states and thirteenth among all states. (See Table A-7 included in Appendix A.) The State ranks third among all states in total cash receipts from agriculture (see Table A-3 included in Appendix A), while also ranking among the top states in several measures of manufacturing. The City of Chicago serves as the transportation center of the Midwest and the headquarters of many of the nation's major corporations and financial institutions.

Certain additional information regarding the State, including economic, statistical and financial data, is included in Appendix A. Adverse changes in general economic conditions could impact the future rate of growth reflected in such data, including the growth and volume of retail sales and Net State Share of Sales Tax revenues, which are the primary security for the Bonds.

## BUILD ILLINOIS

The Build Illinois program, created by the Act in 1985, expands the State's overall efforts in economic development through the funding of projects within the following categories:

- construction, reconstruction, modernization, and extension of the State's infrastructure;
- development and improvement of educational, scientific, technical and vocational programs and facilities, and expansion of health and human services in the State;
- protection, preservation, restoration, and conservation of the State's environmental and natural resources; and
- incentives for the location and expansion of businesses in Illinois resulting in increased employment.

The Build Illinois authorization has been adjusted several times to the current authorization level of \$4,616 million in bonds.

The Bonds are direct, limited obligations of the State. The table below shows the statutory Build Illinois Bond authorization for all Bonds (other than refunding Bonds, such as the Series June 2010 Bonds) as of April 30, 2010.

### Build Illinois Bonds (As of April 30, 2010)

In addition to the \$4,616 million of Bonds authorized under the Act for project financing, Bonds may be issued for the purpose of refunding or advance refunding any Bonds previously issued under the Act. In addition, the Act provides that no refunding Bonds may be offered for sale unless the net present value savings to be achieved by the issuance of the refunding Bonds is 3% or more of the principal amount of the refunding Bonds to be issued.

The State is authorized to use unexpended Bond proceeds to redeem (in accordance with the redemption provisions for each Series of Bonds), purchase, advance refund, or defease outstanding Bonds.

## **DESCRIPTION OF THE SERIES JUNE 2010 BONDS**

### **General**

The Series June 2010 Bonds will be dated the date of their original issue and will bear interest from their date payable as described below semiannually on June 15 and December 15 of each year, commencing December 15, 2010, at the rates per annum and mature on the dates set forth on the inside cover page. Interest on the Series June 2010 Bonds will be calculated on the basis of a three hundred sixty-day year consisting of twelve thirty-day months.

Purchases of the Series June 2010 Bonds will be made in denominations of \$5,000 principal amount or any integral multiple thereof, and will be registered in the name of Cede & Co., as nominee of The Depository Trust Company, New York, New York (“**DTC**”). DTC will act as securities depository of the Series June 2010 Bonds. Principal of, premium, if any, and interest on the Series June 2010 Bonds will be paid by the Trustee to DTC or its nominee, which will in turn remit such payment to its participants for subsequent disbursement to the beneficial owners of the Series June 2010 Bonds. (See APPENDIX E—Global Book-Entry System).

### **Optional Redemption**

The Series June 2010 Bonds maturing on June 15, 2021 are redeemable at the option of the State on or after June 15, 2020, either as a whole or in part in integral multiples of \$5,000 (with less than all the Series June 2010 Bonds of a single maturity to be selected by lot) on any date, from any moneys that may be provided for such purpose, including without limitation, the proceeds of any refunding bonds, unspent proceeds of prior bond issues, and any amounts in the General Reserve Fund, at the redemption price of par plus accrued interest to the date of redemption.

### **Notice of Redemption**

At least 30 days before the redemption date of any Series June 2010 Bond, the Trustee shall cause notice of such redemption to be mailed, postage prepaid, to all Bondholders owning or holding Series June 2010 Bonds or portions of Series June 2010 Bonds to be redeemed at their addresses as they appear on the registration books; provided, however, that failure to mail such notice to any Bondholder shall not affect the validity of the proceedings for redemption of the Series June 2010 Bonds being redeemed for which proper notice has been given.

## **SECURITY FOR THE SERIES JUNE 2010 BONDS**

The Bonds (including the Series June 2010 Bonds) are direct, limited obligations of the State payable solely from and secured by an irrevocable, first priority pledge of and lien on moneys on deposit in the Build Illinois Bond Retirement and Interest Fund, a separate fund in the State Treasury (the “**Retirement and Interest Fund**”), and certain other moneys and securities held by the Trustee under the Indenture.

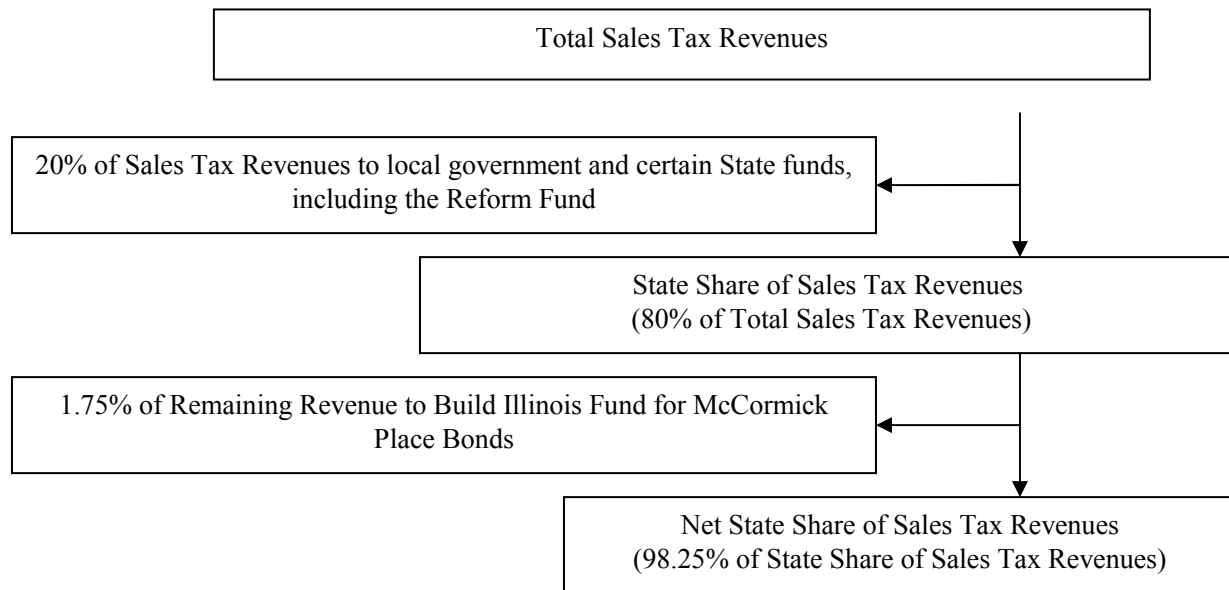

Under the Act, the State has pledged to the payment of the Bonds the tax revenues and other moneys from whatever source which by law are required to be deposited into the Build Illinois Fund for the purposes of making the monthly transfers to and payments from the Retirement and Interest Fund as required by the Act (the “**Revenues**,” as more specifically defined in Appendix C). Such pledge constitutes a first and prior claim against and charge on the Revenues.

The Series June 2010 Bonds are designated as Junior Obligations under the Indenture. Funds transferred to the Trustee from the Retirement and Interest Fund are required by the Indenture to be deposited first, to pay debt service on Senior Bonds second, to pay program expenses, third, to remedy any deficiencies in the reserve fund maintained for the benefit of the Senior Bonds and then to pay debt service on Junior Obligations (including the Series June 2010 Bonds). The Series June 2010 Bonds are further secured by a lien on a security interest in the General Account and the June 2010 Bonds Debt Service Account of the Junior Obligation Debt Service Fund, including the moneys, securities and funds held therein. See “Indenture Flow of Funds” under this caption.

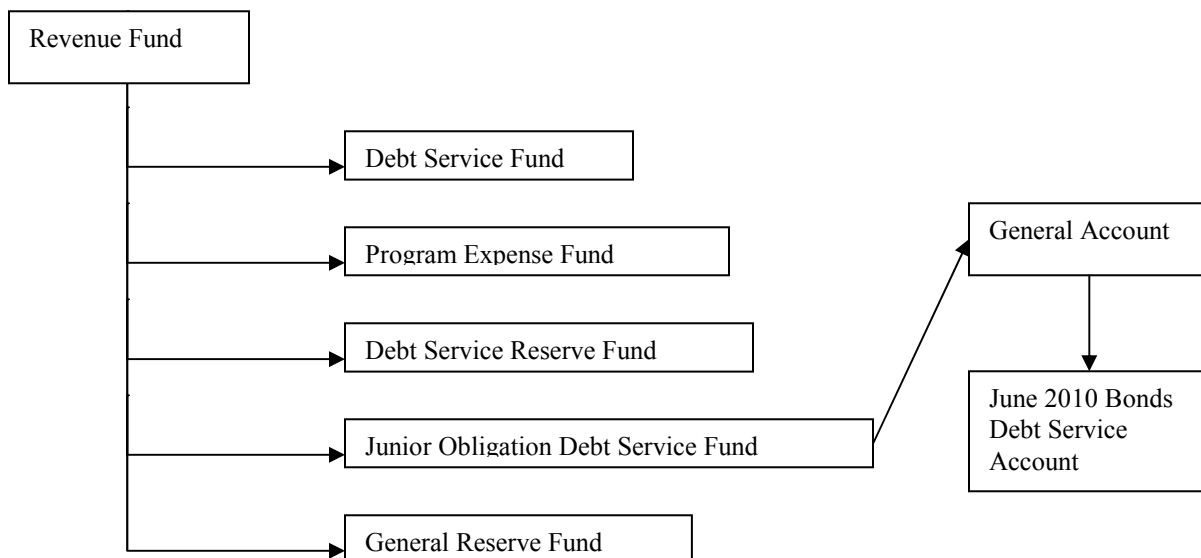

The State’s Sales Tax revenues constitute the primary source of payment of debt service on the Bonds. As described below under “**Revenues**,” twenty percent of the Sales Tax receipts collected under the Sales Tax Acts (other than certain Sales Tax receipts required to be deposited with Capital Projects Fund in the State Treasury as described under the caption “SECURITY FOR THE SERIES JUNE 2010 BONDS-Revenues-Sales Tax”) are distributed to local governments and certain State funds and the remaining 80 percent of such receipts as collected (other than 1.75 percent of such 80 percent) are subject to a first and prior claim and charge in support of the Bonds until each monthly transfer to the Retirement and Interest Fund has been made as required by the Act. The “**State Share of Sales Tax Revenues**” includes only the State’s 80 percent portion of total collected Sales Tax Revenues. An amount equal to 1.75 percent of the State’s Share of Sales Tax Revenues are pledged to the payment of debt service on the McCormick Place Bonds (as defined below). The “**Net State Share of Sales Tax Revenues**” includes only 98.25 percent of the State Share of Sales Tax Revenues. The Net State Share of Sales Tax Revenues aggregated \$7,532.3 and \$7,088.9 million for the Fiscal Years ending June 30, 2008 and 2009 respectively.

As discussed above, 1.75 percent of the State Share of Sales Tax Revenues, as well as other State Revenues are pledged to the payment of debt service on \$138.9 million of outstanding (as of the end of fiscal year 2009) Metropolitan Pier and Exposition Authority Dedicated State Tax Revenue Bonds, Series 1992, Series 1995, Series 1997 and Series 2002 (together with any bonds hereafter issued to refund such bonds, herein called “**McCormick Place Bonds**”). To the extent such pledged tax receipts exceed the amounts required for such debt service on the McCormick Place Bonds, such receipts will be available for payment of debt service on the Bonds.

The chart below demonstrates that portion of Sales Tax Revenues available as the primary source of payment of debt service on the Bonds.

As hereinafter described in greater detail, the Act and the Indenture require that, on a monthly basis, an amount of Revenues, including the Net State Share of Sales Tax Revenues, equal to the greater of (a) 1/12 of 150 percent of an amount equal to the aggregate of the Aggregate Debt Service on Senior Bonds, Junior Annual Debt Service on Junior Obligations plus amounts required to be deposited into the funds and accounts established by the Indenture, less amounts representing capitalized interest (the “**Certified Annual Debt Service Requirement**”) or (b) the Tax Act Amount (but in any Fiscal Year not in excess of the greater of the Certified Annual Debt Service Requirement or the Tax Act Amount), be transferred to the Trustee for deposit into the Revenue Fund established by the Indenture. As described in greater detail under the caption “SUMMARY OF CERTAIN PROVISIONS OF THE INDENTURE – Disbursements from the Revenue Fund,” the Trustee is required to transfer amounts in the Revenue Fund to the funds and accounts shown below at the times and the amounts described under such caption.

## Revenues

*Sales Tax.* The Sales Tax revenues (“**Sales Tax**” or “**Sales Taxes**”) consist of the receipts of four separate taxes imposed and collected by the State in connection with retail sales of certain tangible personal property and the transfer of tangible personal property incident to a sale of service. The four taxes includes the following: (i) the Retailer’s Occupation Tax (the “**Retailer’s Occupation Tax**”) imposed on persons engaged in the business of selling tangible personal property at retail within the State (this tax is the primary source of Sales Tax revenues); (ii) the Use Tax (the “**Use Tax**”) imposed on the privilege of using tangible personal property in the State; (iii) the Service Occupation Tax (the “**Service Use Tax**”) imposed on the cost of tangible personal property sold as an incident to service by persons engaged in the business of selling services in the State; and (iv) the Service Use Tax imposed on the privilege of using tangible personal property acquired incidental to a purchase of services. Only one of the four Sales Taxes listed above is imposed on each transaction subject to taxation. The Sales Tax is currently imposed on the gross receipts from the retail sale or the cost price of tangible personal property transferred by the service person and is collected by the seller from the purchaser except that the Use Tax imposed on out-of-state purchases may be remitted directly to the State by purchasers. Sales Tax payments are collected by the Illinois Department of Revenue.

The Sales Tax Acts currently impose Sales Taxes at a unified State and local rate of 6.25 percent, consisting of a 5.0 percent State rate portion (representing 80 percent of collections) and a 1.25 percent local rate portion (representing 20 percent of collections). Of the State’s 80 percent portion 1.75% is pledged to the payment of outstanding McCormick Place Bonds. The remaining 98.25% of the State Share of Sales Tax Revenues (the Net State Share of Sales Tax Revenues) is included in the Revenues subject to a first and prior claim and charge for the payment of the Bonds.

Public Acts 96-34, 96-35, 96-37 and 96-38 (collectively, referred to as the “Public Acts”) were passed by the General Assembly and signed into law by the Governor on July 15, 2009. The Public Acts, among other matters, increased the Sales Tax rate on “candy” and “grooming and hygiene products” and expanded the definition of “soft drinks.” Amounts received by the State resulting from this increase are required to be deposited in the Capital Projects Fund of the State and are not available to pay debt service on the Bonds. Accordingly, the State has not included the anticipated increased Sales Tax Revenues attributable to the provisions of the Public Acts in its calculation of Net Share of State Sales Tax Revenues set forth in this Official Statement for the purpose of showing debt service coverage on Series June 2010 Bonds.

*Other Revenues.* Amounts equal to 20 percent of the receipts from the 6.25 percent Use Tax and Service Use Tax, plus certain other amounts are deposited monthly into the State and Local Sales Tax Reform Fund (“**Reform Fund**”) in the State Treasury. Moneys deposited in the Reform Fund are expended or transferred for various State and local governmental purposes in specified percentages or amounts, including monthly transfers to the Build Illinois Fund for the purpose of making transfers to the Retirement and Interest Fund in the amount of \$3.15 million through Fiscal Year 2025 (“**Reform Fund Amounts**”).

The Reform Fund Amounts, together with the tax receipts pledged to the payment of the McCormick Place Bonds in excess of the debt service requirements thereon, are collectively referred to herein as “**Other Revenues.**” There is no assurance that any of these Other Revenues will be available to pay debt service on the Bonds.

## **Capital Projects Fund**

Pursuant to Public Act 96-36, the Act was amended to provide for the creation of the Capital Projects Fund as a separate fund in the State Treasury. Pursuant to the Act and the Indenture, all tax revenues and other moneys required by law to be deposited in the Capital Projects Fund shall be paid therein upon receipt.

## **Build Illinois Fund**

The Act creates the Build Illinois Fund which is a separate fund in the State Treasury. Pursuant to the Act and the Indenture, all tax revenues and other moneys required by law to be deposited in the Build Illinois Fund shall be paid therein upon receipt.

Pursuant to the Act and the Indenture, Revenues shall be credited to the Build Illinois Bond Account each month in an amount equal to 1/12th of the greater of (i) the Annual Specified Amount or (ii) 150 percent of the Required Bond Transfer, provided that the aggregate deposits for any Fiscal Year shall not exceed the Annual Specified Amount.

Pursuant to the Act and the Indenture, the Annual Specified Amount (the “**Annual Specified Amount**”) is the greater of (i) an amount equal to 3.8 percent of the State Share of Sales Tax Revenues (the “**Tax Act Amount**”) or (ii) the Certified Annual Debt Service Requirement. In Fiscal Year 2009, 3.8 percent of the Net State Share of Sales Tax Revenues was \$274.2 million. The Certified Annual Debt Service Requirement is \$274.7 million in Fiscal Year 2010. Accordingly, for Fiscal Year 2010, the Annual Specified Amount equals the Certified Annual Debt Service Requirement of \$274.7 million.

Moneys credited to the Build Illinois Bond Account are required to be transferred monthly to the Retirement and Interest Fund as described below. Moneys remaining credited to the Build Illinois Bond Account at the end of any month, after all required transfers have been made to the Retirement and Interest Fund, are required to be transferred to other funds of the State in accordance with the Act.

## **Retirement and Interest Fund**

The Retirement and Interest Fund is a separate fund in the State Treasury. The Act and the Indenture provide that the Bonds are secured by an irrevocable, first priority pledge of and lien on moneys on deposit in the Retirement and Interest Fund.

In each Fiscal Year, the amount paid and to be paid from the Build Illinois Bond Account to the Retirement and Interest Fund (“**Required Bond Transfer**”) is equal to the Annual Specified Amount. The Required Bond Transfer for Fiscal Year 2010 is \$274.7 million.

The Act and Indenture provide that on the last day of each month a transfer shall be made from the Build Illinois Fund to the Retirement and Interest Fund in an amount equal to the greater of (a) 1/12th of 150 percent of the Certified Annual Debt Service Requirement or (b) the Tax Act Amount deposited in the Build Illinois Bond Account during such month, plus any cumulative deficiency in such transfers and payments for prior months; *provided that* all of such transfers and payments for any such Fiscal Year shall not exceed the greater of (a) the Certified Annual Debt Service Requirement or (b) the Tax Act Amount.

The Act provides that for each Fiscal Year, the State shall make an annual appropriation of an amount equal to the Required Bond Transfer. The Act further provides that it shall constitute an irrevocable and continuing appropriation of an amount equal to the Required Bond Transfer if for any reason the General

Assembly fails to make such appropriation for any Fiscal Year. For the Fiscal Year ending June 30, 2009, the State appropriated funds totaling \$304.0 million to provide for the repayment of Bonds and required deposits into Funds and required deposits into Funds and Accounts established under the Indenture. For the Fiscal Year ending June 30, 2010 the State has appropriated \$304.0 million.

Pursuant to the Act and Indenture, the State Treasurer and Comptroller shall make monthly payments to the Trustee of the amounts on deposit in the Retirement and Interest Fund. Under the Indenture, the Trustee shall deposit the amount so received as described below under the caption "Indenture Flow of Funds".

### **Balance in Build Illinois Fund**

After making provision for the monthly payment to the Retirement and Interest Fund, the Act provides for monthly credits or transfers of specified amounts from the Build Illinois Fund to various State funds and for transfers of any balance in the Build Illinois Fund to the General Revenue Fund of the State.

### **Indenture Flow of Funds**

The Indenture creates a Revenue Fund, a Debt Service Fund, a Program Expense Fund, a Debt Service Reserve Fund, a Junior Obligation Debt Service Fund and a General Reserve Fund and provides that on the first day of each month the Trustee shall deposit moneys received from the Retirement and Interest Fund into the Revenue Fund and shall promptly apply such moneys as follows:

- (a) **First**, to the Debt Service Fund, an amount equal to the monthly requirement for debt service on the Senior Bonds;
- (b) **Second**, to the Program Expense Fund, an amount equal to the monthly requirement for Program Expenses;
- (c) **Third**, to the Debt Service Reserve Fund, the amount, if any, needed to increase the amount in the Debt Service Reserve Fund so that it equals the Debt Service Reserve Fund Requirement with respect to the Senior Bonds;
- (d) **Fourth**, to the Junior Obligation Debt Service Fund, an amount equal to the amount required by any Supplemental Indentures or other instruments authorizing Junior Obligations; and
- (e) **Fifth**, to the General Reserve Fund, the balance remaining.

### **Program Expense Fund**

The Program Expense Fund is established for the payment of expenses related to the Bonds payable by the State, including the fees and charges of the Trustee, costs of credit or liquidity enhancement arrangements, fees of indexing and remarketing agents and costs of arrangements to limit interest rate risk ("**Program Expenses**"). In Fiscal Year 2009, these expenses paid from this fund totaled \$65,954.51. For Fiscal Year 2010, these expenses are estimated to total approximately the same amount.

### **Debt Service Reserve Fund**

The Debt Service Reserve Fund is established for the benefit of Senior Bonds and amounts therein are not available to pay the principal of and interest on the Series June 2010 Bonds. The Debt Service Reserve Fund contains, and following the issuance of the Series June 2010 Bonds and the refunding of the Refunded Bonds will continue to contain, the amount of funds required to be on deposit therein.

### **Issuance of Additional Senior Bonds**

The Indenture permits the issuance of additional Senior Bonds, bearing interest at a fixed or variable rate, which rank equally and ratably with the Outstanding Senior Bonds. Additional Senior Bonds may be issued for the purpose of financing projects provided that the following conditions, among others, are met:

- (1) The maximum Net Debt Service Requirement on all Outstanding Senior Bonds and proposed additional Senior Bonds for the current or any future Fiscal Year does not exceed 5 percent of the Net State Share of Sales Tax Revenues for the most recently completed Fiscal Year; and
- (2) The Director of the Governor's Office of Management and Budget of the State (the "**Director**") shall certify that the Debt Service Reserve Fund Requirement, calculated immediately after the issuance of such additional Senior Bonds, will be met within 24 months after the date of such issuance.

Additional Senior Bonds may be issued for the purpose of refunding Outstanding Senior Bonds provided that, among others, the following conditions are met:

- (1) Either (a) the maximum Net Debt Service Requirement on all Outstanding Senior Bonds and proposed additional Senior Bonds for the current or any future Fiscal Year does not exceed 5 percent of the State's Sales Tax revenues for the most recently completed Fiscal Year; or (b) maximum Aggregate Debt Service for the then current or any future Fiscal Year will not increase as a result of such issuance; and
- (2) The Director shall certify that the Debt Service Reserve Requirement, calculated immediately after the issuance of such additional Senior Bonds, will be met within 24 months after the date of such issuance.

**The limitations set forth above effectively require that, on the date of issuance of any Series of Senior Bonds (other than Refunding Bonds that do not increase Aggregate Debt Service in any Fiscal Year), the Net State Share of Sales Tax Revenues (other than Refunding Bonds that do not increase Aggregate Debt Service in any Fiscal Year) for the then most recently completed Fiscal Year must provide not less than 19.65 times coverage of the maximum Net Debt Service Requirement for all Outstanding Senior Bonds and for such additional Series.**

### **Issuance of Additional Junior Obligations**

The Indenture permits the issuance of additional Junior Obligations which rank equally and ratably with the Outstanding Junior Obligations. Junior Obligations may be issued for the purpose of financing projects if the greatest amount of the aggregate of the Net Debt Service Requirement on all Outstanding Senior Bonds and the Junior Annual Debt Service on all Outstanding Junior Obligations and the proposed additional Junior Obligations, for the then current or any future Fiscal Year, will not exceed 9.8 percent of the Net State Share of Sales Tax Revenues received by the State for the most recently completed Fiscal Year.

Additional Junior Obligations may be issued for the purpose of refunding Outstanding Senior Bonds and Junior Obligations if either (1) the greatest amount of the aggregate of the Net Debt Service Requirement on all Outstanding Senior Bonds and the Junior Annual Debt Service on all Outstanding Junior Obligations and the proposed additional Junior Obligations, for the then current Fiscal Year or any future Fiscal Year, will not exceed 9.8 percent of the Net State Share of Sales Tax Revenues received by the

State for the most recently completed Fiscal Year, or (2) the greatest amount of the aggregate of the Net Debt Service Requirement on all Outstanding Senior Bonds and the Junior Annual Debt Service for all Outstanding Junior Obligations and the Junior Obligations proposed to be issued, for the then current Fiscal Year or any future Fiscal Year, will not increase as a result of the issuance of such additional Series.

**The limitations set forth above effectively require that, on the date of issuance of any Series of Junior Obligations (other than Refunding Bonds), the Net State Share of Sales Tax Revenues for the then most recently completed Fiscal Year must provide not less than 10.03 times coverage of the greatest amount in any Fiscal Year of the aggregate of the Net Debt Service Requirement for all Outstanding Senior Bonds and the Junior Annual Debt Service on all Outstanding Junior Obligations and for such additional Series.**

The Indenture also permits the issuance of bonds and other obligations that are subordinated to any Outstanding Senior Bonds and Outstanding Junior Obligations.

#### **Addition Limitations on Issuance on Additional Senior Bonds and Junior Obligations**

The Act includes certain additional limitations on the issuance of additional Bonds, including a requirement that refunding Bonds may be offered for sale only if the net present value savings to be achieved by the issuance of the refunding Bonds is 3% or more of the principal amount of the refunding Bonds to be issued. These additional requirements may be amended or repealed by the Legislature.

#### **Pledge and State Covenant**

The Act and the Indenture require the State to appropriate for each Fiscal Year an amount equal to the Required Bond Transfer for such Fiscal Year. **The Act further provides that, in the event such appropriation is not made, the Act constitutes an irrevocable and continuing appropriation of such Required Bond Transfer and constitutes the irrevocable and continuing authority and direction to the State Treasurer and Comptroller to make the necessary transfers and deposits, as directed by the Governor, and to make the payments as required by the Act.**

Under the Act and the Indenture, the State irrevocably covenants and agrees with the Bondholders not to limit or alter (i) the basis on which taxes and revenues of the State are required to be collected and deposited in the Build Illinois Fund, credited to and transferred from the Build Illinois Bond Account, and transferred to the Retirement and Interest Fund, (ii) the purposes of the Retirement and Interest Fund or (iii) the provisions of specified sections of the Act, so as to impair the obligations of contract incurred by the State in favor of the holders of the Bonds.

The following table shows the historical State Share of Sales Tax Revenues for the State for each of the Fiscal Years ended June 30, 1998 through 2009 (see “**Revenues**”), and the approximate distribution of those Sales Taxes into General Funds, other State Funds, the Build Illinois McCormick Place Bonds and Build Illinois Fund Bond Account.

## DEBT SERVICE COVERAGE

The Net State Share of Sales Tax Revenues constitute the primary source of deposits to the Retirement and Interest Fund. The Act provides that Net State Share of Sales Tax Revenues are subject to a first and prior claim and charge in support of the Bonds until each monthly transfer is made to the Retirement and Interest Fund as required by the Act.

The State Share of Sales Tax Revenues for Fiscal Year 2009 were \$7,215 million. After deducting the 1.75 percent of the State Share of Sales Tax Revenues which have been pledged to the payment of currently outstanding McCormick Place Bonds, the Net State Share of Sales Tax Revenues estimated for Fiscal Year 2009 were \$7,089 million, which amount is approximately 23.4 times the maximum Net Debt Service Requirement.

After the planned issuance of the Series June 2010 Bonds, the Net State Share of Sales Tax Revenues for Fiscal Year 2009 of \$7,089 million would provide approximately 28.3 times the maximum Net Debt Service Requirement for the Senior Bonds and approximately 23.7 times the combined maximum Net Debt Service Requirement for the Senior Bonds and the maximum Junior Annual Debt Service for the Series June 2010 Bonds.

Further, the limitations established in the Indenture for the issuance of additional Senior Bonds requires that the maximum Net Debt Service Requirement for Outstanding Senior Bonds of all Series and for the proposed Series for the current or any future Fiscal Year not exceed 5 percent of the State Share of Sales Tax Revenues received by the State for the most recently completed Fiscal Year. **Those limitations effectively require that, on the date of issuance of any Series of Senior Bonds, the Net Share of State Sales Tax Revenues for the then most recently completed Fiscal Year must provide not less than 19.65 times coverage of the maximum Net Debt Service Requirement for all Outstanding Senior Bonds and for such Series. (See “SECURITY FOR THE SERIES JUNE 2010 BONDS – Issuance of Additional Senior Bonds”).**

The limitations established in the Indenture for the issuance of additional Junior Obligations requires that the aggregate of (i) the maximum Net Debt Service Requirement for Outstanding Senior Bonds, the Junior Annual Debt Service for all Outstanding Junior Obligations and (ii) the Junior Annual Debt Service for Outstanding Junior Obligations and for the proposed Series for the current or any future Fiscal Year not exceed 9.8 percent of the Net State Share of Sales Tax Revenues received by the State for the most recently completed Fiscal Year. **Those limitations effectively require that, on the date of issuance of any Series of Junior Obligations, the Net Share of State Sales Tax Revenues for the then most recently completed Fiscal Year must provide not less than 10.03 times coverage of the maximum Net Debt Service Requirement for all Outstanding Senior Bonds, the Junior Annual Debt Service for all Outstanding Junior Obligations and for such Series. (See “SECURITY FOR THE SERIES JUNE 2010 BONDS – Issuance of Additional Junior Obligations”).**

## PLAN OF FINANCE

Proceeds of the Series June 2010 Bonds will be used to refund all or a portion of certain outstanding Build Illinois Bonds (Sales Tax Revenue Bonds) described in Appendix G (the “**Refunded Bonds**”).

The State is refunding the Refunded Bonds in order to achieve overall debt service savings and to release excess amounts on deposit in the Debt Service Reserve Fund.

To provide for the payment and retirement of the Refunded Bonds, a portion of the proceeds of the Series June 2010 Bonds, together with other available funds, will be used to purchase certain securities that are direct obligations of, or obligations the timely payment of principal of and interest on which is fully and

unconditionally guaranteed by, the United States of America (the "**Federal Obligations**"). The principal of and interest on the Federal Obligations, together with an initial cash balance, will be sufficient (i) to pay when due the interest on the Refunded Bonds to their respective maturity or redemption dates and (ii) to pay or redeem the Refunded Bonds on their respective maturity or redemption dates at their respective principal amounts or redemption prices.

The Federal Obligations will be held in an irrevocable escrow account (the "**Escrow Account**") created pursuant a June 2010 Escrow Agreement between the State and the Trustee (the "**Escrow Agreement**"). The State will, by entering into the Escrow Agreement, irrevocably determine to pay at maturity or call for redemption each of the Refunded Bonds on its applicable maturity date or redemption date. Neither the maturing principal of the Federal Obligations nor the interest to be earned thereon will serve as security or be available for the payment of the principal of or the interest on the Bonds.

The mathematical computation of (i) the adequacy of the Escrow Account to provide for payments on the Refunded Bonds as described above and (ii) the actuarial yields on the Series June 2010 Bonds and the Federal Obligations will be verified at the time of the delivery of the Series June 2010 Bonds by Robert Thomas CPA, LLC, Shawnee Mission, Kansas, independent certified public accountants. See "CERTAIN VERIFICATIONS."

## **SUMMARY OF CERTAIN PROVISIONS OF THE INDENTURE**

The following is a summary of certain provisions of the Indenture, to which reference is made for a complete statement of the provisions or contents thereof. Certain capitalized words and terms used in this summary are defined in the Indenture and shall have the same meanings herein as therein, except as otherwise defined in this Official Statement. Certain of such defined words and terms are set forth in Appendix C hereto.

### **Source of Payment; Pledge of Revenues**

The provisions of the Indenture constitute a contract among the State, the Trustee and the Bondholders. The Bonds are direct, limited obligations of the State payable solely from and secured by an irrevocable, first priority pledge of and lien on moneys on deposit in the Retirement and Interest Fund and certain other moneys and securities held by the Trustee under the provisions of the Indenture. The State has pledged the Revenues and all moneys and securities held or set aside or to be held or set aside by any Fiduciary under the Indenture to secure the payment of the principal of and premium, if any, and interest

on the Bonds, such pledge constituting a first and prior claim against and charge on the Revenues and a first priority pledge of and lien on such other moneys and securities, subject only to the provisions of the Indenture requiring or permitting the payment, setting apart or application thereof for or to the purposes and on the terms, conditions, priorities and order set forth in or provided under the Indenture. **THE BONDS ARE NOT GENERAL OBLIGATIONS OF THE STATE AND ARE NOT SECURED BY THE FULL FAITH AND CREDIT OF THE STATE, AND THE HOLDERS OF THE BONDS MAY NOT REQUIRE THE LEVY OR IMPOSITION OF ANY TAXES OR THE APPLICATION OF OTHER STATE REVENUES OR FUNDS TO THE PAYMENT OF THE BONDS, EXCEPT AS SPECIFICALLY PROVIDED IN THE ACT AND SECTIONS 6Z-9 AND 8.25 OF THE FINANCE ACT WITH RESPECT TO THE REVENUES.**

#### **Additional Senior Bonds**

The Indenture permits the issuance of additional Series of Bonds which may be Senior Bonds on a parity with other Outstanding Senior Bonds provided that certain conditions precedent are satisfied, including receipt by the Trustee of the following:

- (a) a copy of a Bond Sale Order signed by the Director and approved by the Governor, (i) authorizing the execution and delivery of a Supplemental Indenture, (ii) stating the identity of the purchasers, aggregate purchase price and date and place of delivery of such Series, (iii) stating that no Event of Default has occurred and is continuing under the Indenture, (iv) specifying the uses to which the proceeds of the Bonds of such Series shall be applied, including Costs of Issuance, and (v) certifying that the Build Illinois Fund, the Build Illinois Bond Account and the Retirement and Interest Fund have been established in the State Treasury and are being maintained in full accordance with the provisions of the Act and the Finance Act;
- (b) a Counsel's Opinion to the effect that (i) the Indenture and such Supplemental Indenture have been duly and lawfully authorized and executed and are in full force and effect and are valid and binding upon the State, (ii) the Act, the Indenture and such Supplemental Indenture create the valid pledge of Revenues, moneys and securities which they purport to create, and (iii) upon the execution, authentication and delivery thereof, the Bonds of such Series will have been duly and validly authorized and issued;
- (c) an executed counterpart of the Supplemental Indenture; and
- (d) with respect to any proposed Series of Senior Bonds, a Certificate signed by the Director certifying that (i) the maximum Net Debt Service Requirement for Outstanding Senior Bonds of all Series and for the proposed Series for the current or any future Fiscal Year will not exceed 5 percent of the Net State Share of Sales Tax Revenues received by the State for the most recently completed Fiscal Year, and (ii) an amount at least equal to the Debt Service Reserve Fund Requirement, calculated immediately after the issuance of the proposed Series, will be on deposit in the Debt Service Reserve Fund within 24 months after the date of issuance of such proposed Series. In calculating the Net Debt Service Requirement, interest on any Series of Variable Rate Senior Bonds is required pursuant to Section 711 of the Indenture to be included at the maximum rate permitted under the applicable Supplemental Indenture, less credits for the sum of (i) certain amounts on deposit in the applicable Variable Rate Interest Subaccount as provided in the applicable Supplemental Indenture, and (ii) amounts required to be deposited in the Variable Rate Interest Subaccount pursuant to agreements with Qualified Financial Institutions for the purpose of limiting interest rate risk, and (iii) beginning in Fiscal Year 1994, and while the amount on deposit in the Debt Service

Reserve Fund is at least equal to the Debt Service Reserve Fund Requirement, additional amounts not to exceed 50 percent of the maximum rate permitted under the Supplemental Indenture.

The delivery of Bonds of any Series shall also be subject to the delivery to the Director, the Comptroller and the Treasurer of a Certificate signed by the Trustee, certifying (i) the Annual Debt Service or the Junior Annual Debt Service, as the case may be, for the Series of Bonds then being issued and the total Aggregate Debt Service and Junior Annual Debt Service on all then Outstanding Bonds payable on all future Payment Dates and (ii) the amount of principal of and interest and premium, if any, on all such Bonds payable on each future Payment Date.

The issuance of refunding Bonds of any Series shall be subject to the receipt by the Trustee of:

- (a) The documents referred to in paragraphs (a) through (d) above; provided that, with respect to a proposed Series of Senior Bonds, in lieu of the Certificate described in paragraph (d) above, the State may deliver a Certificate certifying that the maximum Aggregate Debt Service for the then current or any future Fiscal Year shall not increase as a result of such issuance of Refunding Bonds;
- (b) If a redemption of Bonds is to be effected, irrevocable instructions to the Trustee to give due notice of redemption of all the Bonds to be redeemed and the redemption date or dates, if any, upon which such Bonds are to be redeemed;
- (c) If a redemption of Bonds is to be effected and the redemption is scheduled to occur subsequent to the next succeeding 45 days, irrevocable instructions to the Trustee to give notice of redemption of such Bonds on a specified date prior to their redemption date; and
- (d) A certificate of an Independent Accountant stating that the amount of moneys and Federal Obligations and Qualified Investments described in paragraphs (f) and (g) of the definition thereof deposited with the Trustee are sufficient to pay when due the applicable Redemption Price of the Bonds to be refunded, together with accrued interest on such Bonds to the redemption date or dates or the date or dates of maturity thereof.

### **Additional Junior Obligations**

The Indenture permits the issuance of additional Series of Junior Obligations on a parity with other Outstanding Junior Obligations provided that certain conditions in addition to the requirement for the issuance of Senior Bonds described above are satisfied, including receipt by the Trustee with respect to any Series of Junior Obligations proposed to be issued, other than a Series proposed to be issued as refunding Bonds, a Certificate signed by the Director certifying that, as of the time immediately following the issuance of such Series, the greatest amount of the aggregate of (A) the Net Debt Service Requirement for Outstanding Senior Bonds and (B) the Junior Annual Debt Service, for the then current or any future Fiscal Year, will not exceed 9.8% of the Net State Share of Sales Tax Revenues received by the State for the most recently completed Fiscal Year.

The issuance of refunding Junior Obligations on a parity with other Junior Obligations is permitted provided that certain conditions in addition to the requirements for the issuance of refunding Senior Bonds described above are satisfied, including receipt by the Trustee of either (1) the Certificate of the Director required for the issuance Junior Obligations for project purposes described in the preceding paragraph or (2) a Certificate of the Director, certifying that, as of the time immediately following the issuance of such Series, the greatest amount of the aggregate of (A) the Net Debt Service for Senior

Bonds and (B) the Junior Annual Debt Service, for the then current or any future Fiscal Year, shall not increase as a result of the issuance of such Series.

### **Covenant Against Pledge of Revenues**

The State has covenanted that it will not issue or authorize the issuance of any bonds, notes or other evidences of indebtedness secured by the pledge of Revenues contained in the Indenture, other than the Bonds, and that it will not create or cause to be created any pledge, lien or charge on Revenues or on any other amounts pledged for the benefit of owners of Bonds under the Indenture, other than the pledge of Revenues contained in the Indenture; provided, however, that the State may (a) issue or authorize the issuance of bonds, notes or other evidences of indebtedness payable out of, or secured by a pledge of, Revenues to be derived after the pledge contained in the Indenture has been discharged or (b) issue or authorize the issuance of bonds, notes or other evidences of indebtedness which are payable out of, or secured by the pledge of, amounts which may be withdrawn from the General Reserve Fund so long as such pledge is expressly junior and subordinate to the pledge of Revenues contained in the Indenture.

### **Establishment of Funds and Accounts**

The Indenture creates the following Funds and Accounts to be held and administered by the Trustee:

- (a) the Revenue Fund;
- (b) the Debt Service Fund and four separate Accounts therein to be known as the Capitalized Interest Account, the Interest Account, the Principal Account and the Variable Rate Account;
- (c) the Program Expense Fund;
- (d) the Debt Service Reserve Fund;
- (e) the Junior Obligation Debt Service Fund and two separate accounts therein to be known as the General Account and the Series June 2010 Bonds Debt Service Account including two sub-accounts therein designated as the Interest Sub-Account and the Principal Sub-Account; and
- (f) the General Reserve Fund and a separate Account therein to be known as the Net Debt Service Account.

In addition, the State has established in the State Treasury and agrees to maintain in accordance with the requirements of the Act and the Finance Act, the Build Illinois Bond Fund, the Build Illinois Fund (including the Build Illinois Bond Account established therein) and the Retirement and Interest Fund.

The Trustee shall, at the written request of the State, establish additional Accounts and subaccounts for the purpose of identifying more precisely the sources of payments into and disbursements from such Funds, Accounts and subaccounts. Additional Accounts and subaccounts may also be created by any Supplemental Indenture.

### **Deposit of Revenues**

All Revenues shall be promptly deposited by the State in the Build Illinois Fund, credited to the Build Illinois Bond Account, transferred to the Retirement and Interest Fund and paid to the Trustee for deposit in the Revenue Fund, all as provided in the Act and Sections 6z-9 and 8.25 of the Finance Act.

The State has appropriated for its Fiscal Year ending June 30, 2010, the sum of \$304 million to provide for the repayment of Bonds and required deposits into Funds and Accounts under the Indenture. The State has covenanted that the Governor shall include in each annual State Budget and the General Assembly shall annually appropriate for each Fiscal Year the Required Bond Transfer from the Retirement and Interest Fund in an amount estimated to equal the greater of (a) the Certified Annual Debt Service Requirement for such Fiscal Year or (b) the Tax Act Amount for such Fiscal Year. For the purposes of implementing such appropriations and the transfers and payments required to be made to the Trustee, the Trustee shall deliver a Certificate to the Director, the Comptroller and the Treasurer on or before each June 20 so long as Bonds remain Outstanding, certifying the Certified Annual Debt Service Requirement for the next succeeding Fiscal Year. The Required Bond Transfer for each Fiscal Year shall be equal to the Certified Annual Debt Service Requirement as so certified in such Certificate unless the Tax Act Amount for such Fiscal Year shall be greater than such Certified Annual Debt Service Requirement, in which case the Required Bond Transfer for such Fiscal Year shall be equal to such Tax Act Amount; *provided, however*, that if Bonds are issued during any such Fiscal Year the Certified Annual Debt Service Requirement for such Fiscal Year shall be increased to reflect the issuance of such Bonds to the extent such issuance was not reflected in the Certified Annual Debt Service Requirement previously certified for such Fiscal Year. The State has covenanted and agreed that in the event the Required Bond Transfer is not made for any Fiscal Year as required under the Indenture and the Act, the Act shall constitute an irrevocable and continuing appropriation of such Required Bond Transfer and the continuing, irrevocable authority for and direction to the Treasurer and the Comptroller to make the necessary transfers and deposits, as directed by the Governor, and to make the payments specified in Sections 6z-9 and 8.25 of the Finance Act and as provided in the Indenture.

The State has covenanted that the Treasurer and the Comptroller shall, on the last day of each month, transfer from the Build Illinois Bond Account to the Retirement and Interest Fund and pay from such Fund to the Trustee for deposit in the Revenue Fund an amount equal to the greater of (a) 1/12th of 150 percent of the Certified Annual Debt Service Requirement or (b) the Tax Act Amount deposited in the Build Illinois Bond Account during such month, plus any cumulative deficiency in such transfers and payments for prior months; provided that all of such transfers and payments for any such Fiscal Year shall not exceed the greater of (a) the Certified Annual Debt Service Requirement or (b) the Tax Act Amount.

#### **Disbursements from Revenue Fund**

On the first day of each month the Trustee shall make the following deposits from amounts on deposit in the Revenue Fund in the manner and order of priority set forth:

**First:** To the Debt Service Fund, an amount equal to 1/12th of 150 percent of the aggregate amount of Principal Installments and interest included in the Annual Debt Service for all Series of Senior Bonds for the then current Fiscal Year, such amounts to be allocated among the Interest Account, the Principal Account and the Variable Rate Account, *provided, however*, that such deposits shall continue in each Fiscal Year only until such time as the aggregate amount deposited into the fund during such Fiscal Year is at least equal to the Aggregate Debt Service for such Fiscal Year;

**Second:** To the Program Expense Fund, an amount equal to the amount, if any, required for Program Expenses;

**Third:** To the Debt Service Reserve Fund, the amount, if any, necessary to increase the amount on deposit in the Debt Service Reserve Fund to an amount equal to the Debt Service Reserve Fund Requirement;

**Fourth:** To the General Account of the Junior Obligation Debt Service Fund, the amount, if any, equal to the amount required by any Supplemental Indentures or other instruments authorizing the issuance of Junior Obligations, including an amount sufficient to permit the transfer to the Series June 2010 Bonds Debt Service Account on the first day of each month (i) into the Interest Sub-Account, an amount equal to 1/12 of 150 percent of the interest on the Series June 2010 Bonds payable in that Fiscal Year plus any deficiency in the amounts previously required to be deposited therein and (ii) into the Principal Sub-Account, an amount equal to 1/12 of 150 percent of the amount of the Principal Installments of the Series June 2010 Bonds payable in that Fiscal Year plus any deficiency in the amounts previously required to be deposited therein; *provided, however*, that the monthly deposits into the Series June 2010 Bonds Debt Service Account shall continue in each Fiscal Year only until the aggregate amount held in such account is sufficient to provide for the punctual payments of the Principal Installments of and interest on the Series June 2010 Bonds payable in such Fiscal Year; and

**Fifth:** To the General Reserve Fund, the balance remaining.

### **Use of Funds**

The moneys on deposit in the Funds and Accounts listed above shall be used for the purposes and uses specified as follows:

- (c) The moneys in the Debt Service Reserve Fund shall be used for the payment of the interest and Principal Installments (other than Subordinated Interest or Subordinated Principal Installments) on Senior Bonds, whenever and to the extent moneys in the Interest Account, the Principal Account and the Variable Rate Account, respectively, are insufficient therefor; *provided, however*, that at the direction of the State expressed in a Certificate of the Director filed with the Trustee, moneys in the Debt Service Reserve Fund may be withdrawn from the Debt Service Reserve Fund and deposited into the General Reserve Fund *provided* that immediately after such withdrawal the amount on deposit in the Debt Service Reserve Fund equals or exceeds the Debt Service Reserve Fund Requirement.
- (d) The moneys in the Interest Sub-Account of the Series June 2010 Bonds Debt Service Account shall be used for the payment of the interest on the Series June 2010 Bonds and moneys in the Principal Sub-Account thereof shall be used for the payment of the Principal Installments of the Series June 2010 Bonds; moneys in the Junior Obligation Debt Service Fund (including such Sub-Accounts shall be used only for the payment of Junior Obligations and shall be transferred by the Trustee to the appropriate trustees or paying agents under the Supplemental Indenture or other instrument authorizing the issuance of Junior Obligations for the purpose of paying such amounts as may be required to be paid by such Supplemental Indenture or other instrument.

- (e) The moneys in the General Reserve Fund shall be used for the payment of the interest and Principal Installments on Bonds whenever and to the extent moneys in the Interest Account, the Principal Account, the Variable Rate Account, the Debt Service Reserve Fund, and the Junior Obligation Debt Service Fund, respectively, are insufficient therefor. At the direction of the State, moneys in the General Reserve Fund may be withdrawn and deposited in trust to purchase or redeem or pay or otherwise provide for the payment of Bonds of any Series or of Section 209 Obligations provided the purchase price does not exceed par or the next Redemption Price. At the direction of the State, expressed in a Certificate signed by the Director and filed with the Trustee, moneys, Federal Obligations and Qualified Investments described in paragraphs (f) and (g) of the definition thereof in the General Reserve Fund shall be set aside and held in trust, together with the interest thereon, in the Net Debt Service Account for the sole and exclusive purpose of paying the principal of and premium, if any, and interest on Senior Bonds. The State has reserved the right to direct the Trustee in writing at any time to pay to the State or to such fund, account or official of the State as may be specified in such direction, on any one or more dates during the period commencing on June 15 of a Fiscal Year and ending on June 30 of that Fiscal Year, for any purpose of the State now or hereafter authorized by law, all or any part of the moneys on deposit in the General Reserve Fund; provided, however, that no such payment shall include any amounts set aside in trust in the Net Debt Service Account or any other moneys which have been committed, reserved or restricted pursuant to any Supplemental Indenture or instrument authorizing Section 209 Obligations; and, further provided that no such payment may be made at any time during the existence and continuation of an Event of Default.
- (f) If at any time the aggregate amount of all moneys held in all Funds and Accounts established and created under and pursuant to the Indenture shall be sufficient, as certified by the Director, to purchase, redeem, pay or otherwise provide for the payment of all Outstanding Bonds, such amount shall be irrevocably set aside in trust for such purpose in the manner summarized under "Defeasance" under this caption and shall not be used thereafter for any other purpose.

### **Qualified Investments**

All moneys held in any Fund or Account shall be invested in Qualified Investments at the direction of the Director.

### **Valuation of Investments**

In computing the amount in any Fund or Account, investments shall be valued at amortized cost.

### **Supplemental Indentures**

A Supplemental Indenture which is not contrary to or inconsistent with the Indenture may be adopted at any time and shall be fully effective without the consent of the Bondholders for the following purposes: to limit the issuance of Bonds or other indebtedness; to add covenants, agreements, limitations and restrictions to be observed by the State; to surrender any right, power or privilege reserved to the State; to authorize a Series of Bonds; to confirm, as further assurance, the pledge of the Indenture; to modify any of the provisions of the Indenture but only if such modification shall be effective only after all Bonds Outstanding at the date of the adoption of such Supplemental Indenture shall cease to be Outstanding; to increase the Required Bond Transfer; and to authorize Section 209 Obligations.

A Supplemental Indenture may be adopted at any time and shall be fully effective upon the consent of the Trustee for the following purposes: to cure any ambiguity, supply any omission, or cure or correct any defect or inconsistent provision in the Indenture; or to provide additional duties of the Trustee under the Indenture.

Any other modification or amendment of the Indenture or of any Supplemental Indenture or of the rights and obligations of the State and of the holders of the Bonds may be made by a Supplemental Indenture, with the written consent given as provided in the Indenture (a) of the holders of at least two-thirds in principal amount of the Bonds Outstanding at the time such consent is given, (b) in case less than all of the several Series of then Outstanding Bonds are affected by the modification or amendment, of the holders of at least two-thirds in principal amount of the then Outstanding Bonds of each Series so affected, and (c) in case the modification or amendment changes the terms of any Sinking Fund Payment, of the holders of at least two-thirds in principal amount of the then Outstanding Bonds of the particular Series and maturity entitled to such Sinking Fund Payment. No such modification or amendment shall permit a change in the terms of redemption or maturity of the principal amount or the Redemption Price thereof or in the rate of interest thereon without the consent of the holder of such Bond, or shall reduce the percentages or otherwise affect the classes of Bonds the consent of the holders of which is required to effect any such modification or amendment, or shall change or modify any of the rights or obligations of any Fiduciary without its written assent thereto.

#### **Default and Remedies**

Each of the following events shall be an “Event of Default”:

- (a) Payment of the principal or Redemption Price, if any, of any Bond shall not be made when and as the same shall become due, whether at maturity or upon call for redemption or otherwise;
- (b) Payment of any installment of interest on any Bond shall not be made within 30 days after the same shall become due;
- (c) The State shall fail or refuse to comply with the provisions of the Indenture, or shall default in the performance or observance of any of the covenants, agreements or conditions on its part contained therein or in the Bonds which materially affects the rights of the owners of the Bonds and such failure, refusal or default shall continue for a period of 30 days after written notice thereof by the Trustee or the owners of not less than 25 percent in principal amount of the Outstanding Bonds; provided, however, that so long as the State is exercising due diligence if such default cannot be cured within the 30-day period, the time to cure shall be extended for such period as may be necessary to remedy the default with all due diligence;
- (d) An Event of Default shall occur and be continuing under the provisions of any Supplemental Indenture; or
- (e) An Event of Default shall occur and be continuing under any Supplemental Indenture or other instrument creating any Section 209 Obligations.

Upon the happening and continuance of any Event of Default specified in paragraph (a) or (b) above, the Trustee shall proceed, or upon the happening and continuance of any Event of Default specified in paragraph (c), (d) or (e) above, the Trustee may proceed, and upon the written request of the owners of not less than 25 percent in principal amount of the Outstanding Bonds, shall proceed, to protect and enforce its rights and the rights of the owners of the Bonds by such of the following remedies or any

additional remedies specified in one or more Supplemental Indentures as the Trustee, being advised by counsel, shall deem most effectual to protect and enforce such rights:

- (i) By mandamus or other suit, action or proceeding at law or in equity, to enforce all rights of the owners of the Bonds including the right to require the State to receive and collect Revenues adequate to carry out the covenants and agreements as to such Revenues and the pledge of the Indenture and to require the State to carry out any other covenant or agreement with the owners of the Bonds and to perform its duties under the Indenture;
- (ii) By bringing suit upon the Bonds;
- (iii) By action or suit in equity, require the State to account as if it were the trustee of an express trust for the owners of the Bonds; or
- (iv) By action or suit in equity, enjoin any acts or things which may be unlawful or in violation of the rights of the owners of the Bonds.

In the enforcement of any rights and remedies under the Indenture, the Trustee shall be entitled to sue for, enforce payment on and receive any and all amounts then or during any default becoming, and at any time remaining, due from the State but only out of moneys pledged as security for the Bonds for principal, Redemption Price, interest or otherwise, under any provision of the Indenture or any Supplemental Indenture or of the Bonds and unpaid, with interest on overdue payments at the rate or rates of interest specified in such Bonds, together with any and all costs and expenses of collection and of all proceedings hereunder and under such Bonds without prejudice to any other right or remedy of the Trustee or of the owners of the Bonds, and to recover and enforce a judgment or decree against the State for any portion of such amounts remaining unpaid, with interest, costs and expenses, and to collect from any moneys available under the Indenture for such purpose, in any manner provided by law, the moneys adjudged or decreed to be payable.

### **Defeasance**

If the State shall pay or cause to be paid the principal and interest and Redemption Price, if any, to become due on the Bonds of any Series or maturity of a Series, at the times and in the manner stipulated therein and in the Indenture, then, with respect to such Bonds, the pledge of Revenues provided by the Indenture and all other rights granted thereby shall be discharged and satisfied.

Bonds of any Series or maturity within any Series shall be deemed to have been paid if (a) there shall have been deposited with the Trustee either moneys or Federal Obligations and Qualified Investments described in paragraphs (f) and (g) of the definition thereof maturing and bearing interest at times and in amounts sufficient, together with the moneys on deposit with the Trustee for such purpose, to pay when due the principal or Redemption Price, if any, and interest to become due on said Bonds, and (b) in case any of said Bonds are to be redeemed on any date prior to their maturity the State shall have given to the Trustee in form satisfactory to it irrevocable instructions to redeem such Bonds.

### **NO LITIGATION**

The Attorney General of the State of Illinois will certify prior to the delivery of the Series June 2010 Bonds that there is no controversy or litigation pending, or to her knowledge threatened, in any way questioning the title of the officials of the State, namely, the Governor, the Secretary of State, the Treasurer, the Comptroller and the Director, to their respective offices, or any of the proceedings of the State incident to the authorization and issuance of the Series June 2010 Bonds, or in any way challenging

the validity of the Act or the validity or enforceability of the Series June 2010 Bonds, or the manner of payment thereof, the appropriation for the payment thereof, or the authority to collect or apply the Revenues or other moneys pledged to the payment of the Series June 2010 Bonds.

The following describes certain pending lawsuits in Illinois:

### **Fee Protest Litigation**

In November 2004, the Circuit Court of Cook County ruled that the imposition of a surcharge on workers' compensation insurance policies coupled with a mechanism to transfer a portion of surcharge proceeds to the State's General Funds pursuant to Public Act 93-32 was unconstitutional. As a result, the court escrowed \$11.5 million of surcharge proceeds pending final disposition of the case. The State appealed the ruling directly to the Illinois Supreme Court. The Court heard argument in May 2005 and in October 2005 released its opinion reversing the lower court's order granting plaintiff summary judgment and remanding the matter to the circuit court for further proceedings. In October 2005, on the State's motion, the trial court released approximately \$1.4 million from escrow to fund Illinois Workers' Compensation Commission ("IWCC") operations through November 2005. The court further agreed to the future release, on a monthly basis upon the State's petition, of amounts sufficient to fund ongoing IWCC operations. Since October 2005, the IWCC has on a regular basis requested and the Circuit Court of Cook County has released monies sufficient to fund the IWCC's on-going operations. As of November 2009, approximately \$22.8 million remained in escrow. In addition, the trial court has allowed certain insurance companies to make surcharge payments into the Protest Fund. As of November 2009, approximately \$58 million in such payments have been deposited into the Protest Fund. The case remains pending.

Several other special interest groups have filed similar actions challenging the constitutionality of fee increases and the application of legislatively-mandated transfer mechanisms. In an action brought in Sangamon County in December 2004, a group of trade associations representing depository institutions and mortgage lenders challenged the assessment of fees on and application of certain provisions of the Illinois Finance Act to their industries. In March 2005, a Sangamon County judge issued a preliminary injunction barring further transfers from the funds at issue pending resolution of the matter. In approximately March, 2008, the State entered into an agreement to settle the litigation with the plaintiff trade associations. Under the terms of the executed settlement agreement, the State retained approximately \$50.6 million from the funds at issue, as well as the right to periodically access 10% of the balance of those funds through January 2011. The case was dismissed in accordance with the settlement agreement in June, 2009.

In May and June 2006, trade associations representing property and casualty insurance and real estate sales interests, respectively, filed similar actions in Sangamon County challenging certain fees and transfers of funds. The Sangamon County Court entered orders preliminarily preventing the State from transferring monies from the funds at issue, pending further consideration of the matters.

In January 2008, in the property and casualty insurance case, the Sangamon County Court denied the plaintiff's motion for summary judgment, holding that the statutory authorization to transfer money from the relevant fund was controlling over an earlier statutory prohibition for such fund transfers. Finally, in the real estate sales' litigation, the State's motion to dismiss remains pending before the Sangamon County Court.

In June 2006, a motorcyclist's organization filed an action similar to the property and casualty insurance case in Sangamon County challenging certain fees and transfers of funds. The Sangamon County Court

denied the plaintiffs' motion for a temporary restraining order as to all but two funds; plaintiffs had previously sought to enjoin transfers from 39 state funds. In November 2006, the Sangamon County Court granted the State's motion to dismiss the motorcyclists' litigation as to two State funds, and in October 2008, the Sangamon County Court granted the State's motion for summary judgment the motorcyclists' litigation with respect to the final State fund. Following the Sangamon County Court's denial of the motorcyclists' motion to reconsider in January, 2009, the motorcyclists filed an appeal with the Illinois Appellate Court. The appeal remains pending.

The State anticipates that it will dispose, in whole or substantial part, of all the remaining matters pending in Cook and Sangamon Counties based upon the trial court rulings in the motorcyclist and property and casualty cases, as well as prior Illinois Appellate and Supreme Court rulings.

In early 2005, a Sangamon County Court dismissed a suit similar to those described above filed by an aggregate producers' industry association to challenge an increase in permit fees and the transfer of a portion of the funds generated by the fee increase to the State's General Funds. In May 2005, the Illinois Appellate Court upheld the trial court's dismissal, rejecting the plaintiff's challenges to the fees and transfers. The Illinois Supreme Court subsequently refused the plaintiffs' request for review, letting stand the Appellate Court's order upholding dismissal. The State thereafter obtained release of approximately \$1.1 million, which had been held in escrow during the litigation.

### **Retaliatory Tax Litigation**

In May 2005, the Director of Insurance assessed Sun Life Assurance Company of Canada approximately \$4 million in additional tax owed pursuant to the so-called "*retaliatory*" statute (215 ILCS 5/444). Sun Life objected to the assessment and filed an action seeking a declaration that the tax is unconstitutional and in violation (among other reasons) of the Commerce Clause. The company sought and obtained an injunction barring the State from collecting the tax. The State prevailed in both the trial and appellate courts, and on Nov. 29, 2007, the United States ("U.S.") Supreme Court affirmed the trial and appellate courts in all regards, holding that Illinois' insurance retaliatory tax law does not discriminate against non-U.S. insurers. The court further held that federal law, and specifically the McCarran-Ferguson Act, imposes no limits on a state's authority to assess retaliatory taxes on alien insurers. In a separate action, John Hancock Life Insurance Company filed suit in Cook County challenging the State's collection of approximately \$7 million in retaliatory tax. On January 2, 2008, the trial court granted summary judgment for the State, holding that the application of the retaliatory tax to this company on these facts did not violate the Illinois Constitution's Uniformity Clause. In August of 2008, Hancock filed an appeal in Illinois Appellate Court. The appeal remains pending.

### **TAX EXEMPTION**

*Summary of Bond Counsel Opinion.* Bond Counsel is of the opinion that under existing law, interest on the Series June 2010 Bonds is not includable in the gross income of the owners thereof for federal income tax purposes. If there is continuing compliance with the applicable requirements of the Internal Revenue Code of 1986 (the "Code"), Bond Counsel is of the opinion that interest on the Series June 2010 Bonds will continue to be excluded from the gross income of the owners thereof for federal income tax purposes. Bond Counsel is further of the opinion that the Series June 2010 Bonds are not "private activity bonds" within the meaning of Section 141(a) of the Code. Accordingly, interest on the Series June 2010 Bonds is not an item of tax preference for purposes of computing individual or corporate alternative minimum taxable income. However, interest on the Series June 2010 Bonds is includable in corporate earnings and profits and therefore must be taken into account when computing corporate

alternative minimum taxable income for purposes of the corporate alternative minimum tax. Interest on the Series June 2010 Bonds is not exempt from Illinois income taxes.

The Code contains certain requirements that must be satisfied from and after the date of issuance of the Series June 2010 Bonds in order to preserve the exclusion from gross income for federal income tax purposes of interest on the Series June 2010 Bonds. These requirements relate to the use and investment of the proceeds of the Series June 2010 Bonds, the payment of certain amounts to the United States, the security and source of payment of the Series June 2010 Bonds and the use of the property financed or refinanced with the proceeds of the Series June 2010 Bonds.

*Series June 2010 Bonds Purchased at a Premium or at a Discount.* The difference (if any) between the initial price at which a substantial amount of each maturity of the Series June 2010 Bonds is sold to the public (the “Offering Price”) and the principal amount payable at maturity of such Series June 2010 Bonds is given special treatment for federal income tax purposes. If the Offering Price is higher than the maturity value of a Series June 2010 Bond, the difference between the two is known as “bond premium;” if the Offering Price is lower than the maturity value of a Series June 2010 Bond, the difference between the two is known as “original issue discount.”

Bond premium and original issue discount are amortized over the term of a Series June 2010 Bond on the basis of the owner's yield from the date of purchase to the date of maturity, compounded at the end of each accrual period of one year or less with straight line interpolation between compounding dates, as provided more specifically in the Income Tax Regulations. The amount of bond premium accruing during each period is treated as a reduction in the amount of tax-exempt interest earned during such period. The amount of original issue discount accruing during each period is treated as interest that is excludable from the gross income of the owner of such Series June 2010 Bond for federal income tax purposes, to the same extent and with the same limitations as current interest.

Owners who purchase Series June 2010 Bonds at a price other than the Offering Price, after the termination of the initial public offering or at a market discount should consult their tax advisors with respect to the tax consequences of their ownership of the Series June 2010 Bonds. In addition, owners of Series June 2010 Bonds should consult their tax advisors with respect to the state and local tax consequences of owning the Series June 2010 Bonds; under the applicable provisions of state or local income tax law, bond premium and original issue discount may give rise to taxable income at different times and in different amounts than they do for federal income tax purposes.

*Exclusion from Gross Income: Requirements.* The Code sets forth certain requirements that must be satisfied on a continuing basis in order to preserve the exclusion from gross income for federal income tax purposes of interest on the Series June 2010 Bonds. Among these requirements are the following:

*Limitations on Private Use.* The Code includes limitations on the amount of Series June 2010 Bond proceeds that may be used in the trade or business of, or used to make or finance loans to, persons other than governmental units.

*Investment Restrictions.* Except during certain “temporary periods,” proceeds of the Series June 2010 Bonds and investment earnings thereon (other than amounts held in a reasonably required reserve or replacement fund, if any, or as part of a “minor portion”) may generally not be invested in investments having a yield that is “materially higher” (1/8 of one percent) than the yield on the Series June 2010 Bonds.

*Rebate of Arbitrage Profit.* Unless the State qualifies for an exemption, earnings from the investment of the “gross proceeds” of the Series June 2010 Bonds in excess of the earnings that would have been

realized if such investments had been made at a yield equal to the yield on the Series June 2010 Bonds are required to be paid to the United States at periodic intervals. For this purpose, the term “gross proceeds” includes the original proceeds of the Series June 2010 Bonds, amounts received as a result of investing such proceeds and amounts to be used to pay debt service on the Series June 2010 Bonds.

*Covenants to Comply.* The State has covenanted to comply with the requirements of the Code relating to the exclusion from gross income for federal income tax purposes of interest on the Series June 2010 Bonds.

*Risks of Non-Compliance.* In the event that the State fails to comply with the requirements of the Code, interest on the Series June 2010 Bonds may become includable in the gross income of the owners thereof for federal income tax purposes retroactive to the date of issue. In such event, the Indenture requires neither acceleration of payment of principal of, or interest on, the Series June 2010 Bonds nor payment of any additional interest or penalties to the owners of the Series June 2010 Bonds.

*Federal Income Tax Consequences.* Pursuant to Section 103 of the Code, interest on the Series June 2010 Bonds is not includable in the gross income of the owners thereof for federal income tax purposes. However, the Code contains a number of other provisions relating to the treatment of interest on the Series June 2010 Bonds that may affect the taxation of certain types of owners, depending on their particular tax situations. Some of the potentially applicable federal income tax provisions are described in general terms below. PROSPECTIVE PURCHASERS SHOULD CONSULT THEIR TAX ADVISORS CONCERNING THE PARTICULAR FEDERAL INCOME TAX CONSEQUENCES OF THEIR OWNERSHIP OF THE SERIES JUNE 2010 BONDS.

*Cost of Carry.* Owners of the Series June 2010 Bonds will generally be denied a deduction for otherwise deductible interest on any debt which is treated for federal income tax purposes as incurred or continued to purchase or carry the Series June 2010 Bonds. As discussed below, special allocation rules apply to financial institutions.

*Corporate Owners.* Interest on the Series June 2010 Bonds is generally taken into account in computing the earnings and profits of a corporation and consequently may be subject to federal income taxes based thereon. Thus, for example, interest on the Series June 2010 Bonds is taken into account not only in computing the corporate alternative minimum tax but also the branch profits tax imposed on certain foreign corporations, the passive investment income tax imposed on certain S corporations, and the accumulated earnings tax.

*Individual Owners.* Receipt of interest on the Series June 2010 Bonds may increase the amount of social security and railroad retirement benefits included in the gross income of the recipients thereof for federal income tax purposes.

*Certain Blue Cross or Blue Shield Organizations.* Receipt of interest on the Series June 2010 Bonds may reduce a special deduction otherwise available to certain Blue Cross or Blue Shield organizations.

*Property or Casualty Insurance Companies.* Receipt of interest on the Series June 2010 Bonds may reduce otherwise deductible underwriting losses of a property or casualty insurance company.

*Financial Institutions.* Financial institutions may be denied a deduction for their otherwise allowable interest expense in an amount determined by reference, in part, to their adjusted basis in the Series June 2010 Bonds.

*Foreign Personal Holding Company Income.* A United States shareholder of a foreign personal holding company may realize taxable income to the extent that interest on the Series June 2010 Bonds held by such a company is properly allocable to the shareholder.

The opinion of Bond Counsel and the descriptions of the tax law contained in this Official Statement are based on statutes, judicial decisions, regulations, rulings and other official interpretations of law in existence on the date the Series June 2010 Bonds are issued. There can be no assurance that such law or the interpretation thereof will not be changed or that new provisions of law will not be enacted or promulgated at any time while the Series June 2010 Bonds are outstanding in a manner that would adversely affect the value or the tax treatment of ownership of the Series June 2010 Bonds.

## **CONTINUING DISCLOSURE**

The State will enter into a Continuing Disclosure Undertaking (“**Undertaking**”) for the benefit of the beneficial owners of the Series June 2010 Bonds to send certain information annually and to provide notice of certain events to certain information repositories pursuant to the requirements of Section (b)(5) of Rule 15c2-12 (“**Rule**”) adopted by the Securities and Exchange Commission (“**SEC**”) under the Securities Exchange Act of 1934, as amended. See “APPENDIX F – CONTINUING DISCLOSURE UNDERTAKING” for a description of the information to be provided annually, the events which will be noticed on an occurrence basis and a summary of other terms of the Undertaking, including termination, amendment and remedies.

The State has represented that it is in compliance with each and every undertaking previously entered into by it pursuant to the Rule. A failure by the State to comply with the Undertaking will not constitute a default under the Indenture and beneficial owners of the Series June 2010 Bonds are limited to the remedies described in the Undertaking. See “APPENDIX F – CONTINUING DISCLOSURE UNDERTAKING - Consequences of Failure of the State to Provide Information.” A failure by the State to comply with the Undertaking must be reported in accordance with the Rule and must be considered by any broker, dealer or municipal securities dealer before recommending the purchase or sale of the Series June 2010 Bonds in the secondary market. Consequently, such a failure may adversely affect the transferability and liquidity of the Series June 2010 Bonds and their market price.

## **CERTAIN LEGAL MATTERS**

Legal matters incident to the authorization, issuance and sale of the Series June 2010 Bonds are subject to the approving opinion of Katten Muchin Rosenman LLP, Chicago, Illinois, Bond Counsel. Any obligations of the Underwriters are the sole obligations of the Underwriters and do not create any obligations on the part of any affiliate of the Underwriters, including any affiliated banks.

## **RATINGS**

Each of these ratings reflects the views of such organizations, and an explanation of the significance of such ratings may be obtained only from the respective rating agency. The ratings on the Series June 2010 Bonds were applied for by the State and certain information and materials, some of which are not contained herein, were supplied to S&P and Fitch. The each rating is not a "market" rating, nor a recommendation to buy, sell or hold the Series June 2010 Bonds and the ratings and the Series June 2010 Bonds should be evaluated independently.

The ratings are subject to change or withdrawal at any time and any such change or withdrawal may affect the market price or marketability of the Bonds. The State will provide appropriate periodic credit information necessary for maintaining ratings on the Series June 2010 Bonds to the rating agencies. Except as may be required by the Undertaking described below under the heading "CONTINUING DISCLOSURE" the State undertakes no responsibility to bring to the attention of the owners of the Bonds any proposed change in or withdrawal of such ratings or to oppose any such revision or withdrawal.

### CERTAIN INFORMATION REGARDING THE STATE OF ILLINOIS

#### Economic Data

Illinois is a state of diversified economic strength. Personal income and workforce composition in Illinois are similar to that of the United States as a whole. Measured by per capita personal income, Illinois ranks fourth the ten most populous states and fourteenth among all states. Illinois ranks third among all states in total cash receipts from crops, second in feed and grain exports, second in soybean and products exports, third in exports of all commodities and ranks among the top states in several measures of manufacturing activity. Chicago serves as the transportation center of the Midwest and the headquarters of many of the nation's major corporations and financial institutions. Table A-1 compares the workforce composition of Illinois to that of the United States as a whole. Table A-2 shows the distribution of Illinois non-agricultural employment by industry sector.

## **Organization**

The State is formally organized according to executive, legislative and judicial functions. The Governor is the chief executive of the State and is generally responsible for the administration of the government, exclusive of the offices of other constitutionally-elected officials. The other elected officials of the executive branch include the Lieutenant Governor, the Attorney General, the Secretary of State, the Comptroller and the Treasurer.

The Illinois Constitution provides that all elected officials of the Executive Branch of the State Government hold office for four-year terms. Pursuant to the State Constitution, these officials were elected at a general election in November 2006 and took office as of January 8, 2007. The current Governor, Pat Quinn, was elected Lieutenant Governor in such election, took office as Lieutenant Governor on January 8, 2007, and took office as Governor on January 30, 2009, after Rod R. Blagojevich was removed from such office by the State Senate. The next State general election will be held in November 2010.

The legislative power of the State is vested in the General Assembly, which is composed of the Senate and the House of Representatives. Both the Senate and the House of Representatives meet in annual sessions to enact, amend or repeal laws and to adopt appropriation bills.

The judicial branch is composed of the Supreme Court, the Appellate Courts and the Circuit Courts.

### FORM OF OPINION OF BOND COUNSEL

(Date of Issuance)

State of Illinois  
Governor's Office of Management and Budget  
State House  
Springfield, Illinois

We have examined a record of proceedings relating to the issuance of \$455,080,000 aggregate principal amount of Build Illinois Bonds (Sales Tax Revenue Bonds) Junior Obligation Series of June 2010 (the "Bonds") of the State of Illinois (the "State"). The Bonds are direct and limited obligations of the State issued pursuant to the authority of Section 9 of Article IX of the Illinois Constitution of 1970 (the "Constitution") and the Build Illinois Bond Act, 30 Illinois Compiled Statutes 425 (the "Act") and under and in accordance with a Master Trust Indenture Securing Build Illinois Bonds (Sales Tax Revenue Bonds), dated as of September 15, 1985 (the "Master Indenture"), as amended and supplemented to date, from the State to U.S. Bank National Association, as successor trustee (the "Trustee") and a Forty Sixth Supplemental Indenture, dated as of June 1, 2010 (the "Forty Sixth Supplemental Indenture"), from the State to the Trustee. The Master Indenture, as amended and supplemented by the Forty Sixth Supplemental Indenture, is sometimes referred to herein as the "Indenture."

The Bonds are issued and issuable only in fully registered form in the denominations of \$5,000 or any integral multiple thereof. The Bonds are dated June 25, 2010. The Bonds mature on June 15, in each of the following years in the respective principal amount set opposite each such year in the following table, and the Bonds maturing in each such year bear interest from their date payable on December 15, 2010 and semiannually thereafter on June 15 and December 15 in each year at the respective rate of interest per annum set forth opposite such principal amount:

Year	Principal Amount	Interest Rate
2011	\$27,685,000	3.000%
2012	30,180,000	4.000
2013	31,640,000	5.000
2014	47,815,000	5.000
2015	51,955,000	5.000
2016	11,060,000	3.000
2016	65,000,000	5.000
2017	74,255,000	5.000
2018	53,700,000	5.000
2019	26,950,000	5.000
2020	32,870,000	5.000
2021	1,970,000	4.000

The Bonds maturing on June 15, 2021 are subject to redemption prior to maturity at the option of the State, as a whole, or in part by lot on June 20, 2020 and on any date thereafter, at a redemption price equal to the principal amount of each Bond to be redeemed.

Pursuant to the Indenture, a series of bonds may be issued as “Senior Bonds” or as “Junior Obligations” (each as defined and referred to in the Indenture). Senior Bonds are entitled to a priority claim for payment over Junior Obligations. The Bonds are the initial series of Junior Obligations issued under the Indenture. Under the terms of the Indenture, the State has issued various series of Senior Bonds that are currently outstanding and may authorize and issue additional series of Senior Bonds and Junior Obligations for the purposes and upon the terms and conditions prescribed in the Indenture.

We are of the opinion that:

1. The State had and has the right and power under the Constitution and the Act to authorize the Bonds, to enter into the Indenture and to perform its obligations under the Indenture.

2. The Indenture is presently in full force and effect and is binding upon the State in accordance with its terms and is part of the contract of the State with the several owners of the Bonds.

3. The Bonds have been duly authorized and issued, are entitled to the benefits of the Act and the Indenture and are valid and legally binding direct and limited obligations of the State, enforceable in accordance with their terms. The Bonds are payable from the Revenues (as defined in the Indenture) derived from the Build Illinois Fund and the other moneys, securities and funds pledged under the Act and the Indenture and deposited into the Junior Obligation Debt Service Fund maintained under the Indenture. The Bonds are not general obligations of the State and are not secured by a pledge of the full faith and credit of the State. The owners of the Bonds may not require the levy or imposition of any taxes or the application of State revenues or funds for the payment of the Bonds, except as provided in the Act and the Indenture.

4. The Act and the Indenture create a valid pledge constituting a first and prior claim against and charge on Revenues and an irrevocable, first priority pledge of and lien on moneys on deposit in the Retirement and Interest Fund (as defined in the Indenture) and on the other moneys and securities held or set aside under the Indenture for the benefit and security of the Bonds, subject to the provisions of the Indenture requiring or permitting the payment, setting apart or application thereof for or to the purposes and on the terms, conditions, priorities and order set forth in or provided under the Indenture, including the priority claim for payment of Senior Bonds over Junior Obligations. Pursuant to the Forty Sixth Supplemental Indenture, the Bonds are also secured by a lien on and security interest in the moneys, securities and funds held in the General Account and the Series June 2010 Debt Service Account of the Junior Obligation Debt Service Fund.

5. Under existing law, interest on the Bonds is not includable in the gross income of the owners thereof for Federal income tax purposes. If there is continuing compliance with the requirements of the Internal Revenue Code of 1986 (the “Code”), interest on the Bonds will continue to be excluded from the gross income of the owners thereof for Federal income tax purposes. The Bonds are not private activity bonds; therefore, interest on the Bonds does not constitute an item of tax preference for purposes of computing individual or corporate alternative minimum income. You are advised, however, that interest on the Bonds is includable in corporate earnings and profits and therefore must be taken into account when computing, for example, corporate alternative minimum taxable income for purposes of the corporate alternative minimum tax.

The Code contains certain requirements that must be satisfied from and after the date hereof in order to preserve the exemption from Federal income taxes of interest on the Bonds. These requirements relate to the use and investment of the proceeds of the Bonds, the payment of certain amounts to the United States, the security and source of payment of the Bonds and the use and tax ownership of the

property financed with the proceeds of the Bonds. The State has covenanted in the Indenture to comply with these requirements.

With respect to the exclusion from gross income for Federal income tax purposes of interest on the Bonds, we have relied on the verification report of Robert Thomas CPA, LLC, certified public accountants, regarding the computation of the arbitrage yield on the Bonds and of certain investments made with the proceeds of the Bonds.

Interest on the Bonds is not exempt from Illinois income taxes.

In rendering the foregoing opinion, we advise you that the enforceability (but not the validity or binding effect) of the Bonds and the Indenture (i) may be limited by any applicable bankruptcy, insolvency or other laws affecting the rights or remedies of creditors now or hereafter in effect and (ii) is subject to principles of equity in the event that equitable remedies are sought, either in an action at law or in equity.

Respectfully yours,

## APPENDIX E

### GLOBAL BOOK-ENTRY SYSTEM

The following information concerning The Depository Trust Company, New York, New York (“**DTC**”), has been furnished by DTC for use in this Official Statement. The State is not responsible for its accuracy or completeness.

DTC will act as securities depository for the Series June 2010 Bonds. The Series June 2010 Bonds will be issued as fully-registered securities registered in the name of Cede & Co. (DTC’s partnership nominee) or such other name as may be requested by an authorized representative of DTC. One fully-registered bond certificate will be issued for each maturity of the Series June 2010 Bonds, each in the aggregate principal amount of such maturity, and will be deposited with DTC.

DTC, the world’s largest depository, is a limited-purpose trust company organized under the New York Banking Law, a “banking organization” within the meaning of the New York Banking Law, a member of the Federal Reserve System, a “clearing corporation” within the meaning of the New York Uniform Commercial Code, and a “clearing agency” registered pursuant to the provisions of Section 17A of the Securities Exchange Act of 1934. DTC holds and provides asset servicing for over 3.5 million issues of U.S. and non-U.S. equity issues, corporate and municipal debt issues, and money market instruments from over 100 countries that DTC’s participants (“**Direct Participants**”) deposit with DTC. DTC also facilitates the post-trade settlement among Direct Participants of sales and other securities transactions in deposited securities, through electronic computerized book-entry transfers and pledges between Direct Participants’ accounts. This eliminates the need for physical movement of securities certificates. Direct Participants include both U.S. and non-U.S. securities brokers and dealers, banks, trust companies, clearing corporations, and certain other organizations. DTC is a wholly-owned subsidiary of The Depository Trust & Clearing Corporation (“**DTCC**”). DTCC is the holding company for DTC, National Securities Clearing Corporation, and Fixed Income Clearing Corporation all of which are registered clearing agencies. DTC is owned by users of its regulated subsidiaries. Access to the DTC system is also available to others such as both U.S. and non-U.S. securities brokers and dealers, banks, trust companies, and clearing corporations that clear through or maintain a custodial relationship with a Direct Participant, either directly or indirectly (“**Indirect Participants**”). DTC has Standard & Poor’s highest rating: AAA. The DTC Rules applicable to its Participants are on file with the Securities and Exchange Commission. More information about DTC can be found at [www.dtcc.com](http://www.dtcc.com).

Purchases of bonds under the DTC system must be made by or through Direct Participants, which will receive a credit for the Series June 2010 Bonds on DTC’s records. The ownership interest of each actual purchaser of each bond (“**Beneficial Owner**”) is in turn to be recorded on the Direct and Indirect Participants’ records. Beneficial Owners will not receive written confirmation from DTC of their purchase. Beneficial Owners are expected to receive written confirmations providing details of the transaction, as well as periodic statements of their holdings, from the Direct or Indirect Participant through which the Beneficial Owner entered into the transaction. Transfers of ownership interests in the Series June 2010 Bonds are to be accomplished by entries made on the books of Direct and Indirect Participants acting on behalf of Beneficial Owners. Beneficial Owners will not receive certificates representing their ownership interests in the Series June 2010 Bonds, except in the event that use of the book-entry system for the Series June 2010 Bonds is discontinued.

To facilitate subsequent transfers, all bonds deposited by Direct Participants with DTC are registered in the name of DTC's partnership nominee, Cede & Co. or such other name as may be requested by an authorized representative of DTC. The deposit of Bonds with DTC and their registration in the name of Cede & Co., or such other DTC nominee, do not effect any change in beneficial ownership. DTC has no knowledge of the actual Beneficial Owners of the Series June 2010 Bonds; DTC's records reflect only the identity of the Direct Participants to whose accounts such Bonds are credited, which may or may not be the Beneficial Owners. The Direct and Indirect Participants will remain responsible for keeping account of their holdings on behalf of their customers.

Conveyance of notices and other communications by DTC to Direct Participants, by Direct Participants to Indirect Participants, and by Direct Participants and Indirect Participants to Beneficial Owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time.

Redemption notices shall be sent to DTC. If less than all of the Series June 2010 Bonds within a maturity are being redeemed, DTC's practice is to determine by lot the amount of the interest of each Direct Participant in such maturity to be redeemed.

Neither DTC nor Cede & Co. (nor any other DTC nominee) will consent or vote with respect to bonds unless authorized by a Direct Participant in accordance with DTC's Procedures. Under its usual procedures, DTC mails an Omnibus Proxy to the State as soon as possible after the record date. The Omnibus Proxy assigns Cede & Co.'s consenting or voting rights to those Direct Participants to whose accounts the Series June 2010 Bonds are credited on the record date (identified in a listing attached to the Omnibus Proxy).

Principal and interest payments (including redemption proceeds) on the Series June 2010 Bonds will be made to Cede & Co. or such other nominee as may be requested by an authorized representative of DTC. DTC's practice is to credit Direct Participants' accounts, upon DTC's receipt of funds and corresponding detail information from the State or the Trustee, as bond registrar and paying agent for the Series June 2010 Bonds ("**Bond Registrar**"), on payable date in accordance with their respective holdings shown on DTC's records. Payments by Participants to Beneficial Owners will be governed by standing instructions and customary practices, as is the case with securities held for the accounts of customers in bearer form or registered in "street name," and will be the responsibility of such Participant and not of DTC, the Bond Registrar, or the State, subject to any statutory or regulatory requirements as may be in effect from time to time. Payment of principal and interest (including redemption proceeds) to Cede & Co. (or such other nominee as may be requested by an authorized representative of DTC) is the responsibility of the State or the Bond Registrar, disbursement of such payments to Direct Participants shall be the responsibility of DTC, and disbursement of such payments to the Beneficial Owners shall be the responsibility of Direct and Indirect Participants.

DTC may discontinue providing its services as securities depository with respect to the Series June 2010 Bonds at any time by giving reasonable notice to the State or the Bond Registrar. Under such circumstances, in the event that a successor securities depository is not obtained, bond certificates are required to be printed and delivered.

The State may decide to discontinue use of the system of book-entry transfers through DTC (or a successor securities depository). In that event, bond certificates will be printed and delivered.

## **APPENDIX F**

### **CONTINUING DISCLOSURE UNDERTAKING**

The following is a brief summary of certain provisions of the Undertaking of the State and does not purport to be complete. The statements made under this caption are subject to the detailed provisions of the Undertaking, a copy of which is available upon request from the State.

#### **Annual Financial Information Disclosure**

The State covenants that it will disseminate its Annual Financial Information and its Audited Financial Statements, if any (as described below), to the Municipal Securities Rulemaking Board (“**MSRB**”) through its Electronic Municipal Market Access (“**EMMA**”) system and to any public or private repository designated by the State as the state depository (“**SID**”) and recognized as such by the SEC for purposes of the Rule. The State is required to deliver such information so that such entities receive the information by the dates specified in the Undertaking and described below.

All or a portion of the Annual Financial Information and the Audited Financial Statements may be included by reference to other documents, including other official statements (subject to the following sentence), which have been submitted to the MSRB through the EMMA system and to the SID, if any, or filed with the SEC. If the information included by reference is contained in a final official statement, the final official statement must be submitted by the State to the MSRB through the EMMA system.

"Annual Financial Information" means sales tax information of the type contained herein in the tables entitled "Sales Tax Revenues" and "Monthly Sales Tax Revenues". Annual Financial Information exclusive of Audited Financial Statements will be provided to the MSRB through the EMMA system and to the SID, if any, within 270 days after the last day of the State's fiscal year.

"Audited Financial Statements" means the General Purpose Financial Statements of the State prepared in accordance with generally accepted accounting principles applicable to governmental units as in effect from time to time. Audited Financial Statements will be provided to the MSRB through the EMMA system and to the SID, if any, within 30 days after their availability to the Governor's Office of Management and Budget.

#### **Events Notification; Material Events Disclosure**

The State covenants that it will disseminate to the MSRB through the Emma system and to the SID, if any, in a timely manner the disclosure of the occurrence of an Event (as described below) that is material, as materiality is interpreted under the Securities Exchange Act of 1934, as amended. The "Events", certain of which may not be applicable to the Series June 2010 Bonds, are:

- principal and interest payment delinquencies on the Series June 2010 Bonds;
- occurrence of any default under and as defined in the Indenture (other than as described above);
- unscheduled draws on debt service reserves reflecting financial difficulties;
- unscheduled draws on credit enhancements reflecting financial difficulties;
- substitution of credit or liquidity providers, or their failure to perform;
- adverse tax opinions or events affecting the tax-exempt status of the Series June 2010 Bonds;

- amendments to the Indenture modifying the rights of the beneficial owners of the Series June 2010 Bonds;
- giving of a notice of optional or unscheduled redemption of any Bonds;
- defeasances of the Series June 2010 Bonds or any portion thereof;
- release, substitution or sale of property securing repayment of the Series June 2010 Bonds; and
- any change in any rating that relates to the Series June 2010 Bonds, the State, an obligated person, credit enhancer or liquidity provider for the Series June 2010 Bonds that could affect the value of the Series June 2010 Bonds.

### **Consequences of Failure of the State to Provide Information**

The State shall give notice in a timely manner to the MSRB through the EMMA system and to the SID, if any, of any failure to provide disclosure of Annual Financial Information and Audited Financial Statements when the same are due under the Undertaking.

In the event of a failure of the State to comply with any provision of the Undertaking, the beneficial owner of any Series June 2010 Bond may seek mandamus or specific performance by court order, to cause the State to comply with its obligations under the Undertaking. A default under the Undertaking shall not be deemed a default under the Indenture, and the sole remedy under the Undertaking in the event of any failure of the State to comply with the Undertaking shall be an action to compel performance.

### **Amendment; Waiver**

Notwithstanding any other provision of the Undertaking, the State, by a duly enacted order authorizing such amendment or waiver, may amend the Undertaking, and any provision of the Undertaking may be waived, if:

- (a) The amendment or the waiver is made in connection with a change in circumstances that arises from a change in legal requirements, change in law, or change in the identity, nature, or status of the State, or type of business conducted;
- (b) The Undertaking, as amended, or the provision, as waived, would have complied with the requirements of the Rule at the time of the primary offering, after taking into account any amendments or interpretations of the Rule, as well as any change in circumstances; and
- (c) The amendment or waiver does not materially impair the interests of the beneficial owners of the Series June 2010 Bonds, as determined either by a party unaffiliated with the State (such as bond counsel).

### **Termination of Undertaking**

The Undertaking shall be terminated if the State shall no longer have any legal liability for any obligation on or relating to repayment of the Series June 2010 Bonds under the Indenture. The State shall give notice to the MSRB through the EMMA system and to the SID, if any, in a timely manner if this paragraph is applicable.

**Additional Information**

Nothing in the Undertaking shall be deemed to prevent the State from disseminating any other information, using the means of dissemination set forth in the Undertaking or any other means of communication, or including any other information in any Annual Financial Information or Audited Financial Statements or notice of occurrence of a material Event, in addition to that which is required by the Undertaking. If the State chooses to include any information from any document or notice of occurrence of a material Event in addition to that which is specifically required by the Undertaking, the State shall have no obligation under the Undertaking to update such information or include it in any future disclosure or notice of occurrence of a material Event.

**Dissemination Agent**

The State may, from time to time, appoint or engage a Dissemination Agent to assist it in carrying out its obligations under the Undertaking, and may discharge any such Agent, with or without appointing a successor Dissemination Agent.
